PREFACE

THE SOCIETY is indebted and expresses its warm thanks to the Salisbury Diocesan Registrar (Mr. Alan M. Barker) for permission to publish the documents that form the text printed below; to the County and Diocesan Archivist (Mr. M. G. Rathbone) and the Assistant Diocesan Archivist (Miss Pamela Stewart), in whose care the documents are, for making them available; to the Institute of Historical Research, University of London, for keeping the documents so that Miss Ransome could work on them in its library; to the trustees of the Isobel Thornley Bequest for a most generous grant towards the cost of printing; and particularly, of course, to Miss Ransome for undertaking the edition and completing it promptly.

Miss Ransome wishes to record her warm personal thanks to Miss Pamela Stewart, Mr. D. A. Crowley, and Mr. K. H. Rogers for their kind and expert help in solving a variety of problems; and in particular to Miss Elizabeth Crittall, Editor of the *Victoria History of Wiltshire*, who made available the typescript of parish histories not yet published, and who has generously shared her wide knowledge of Wiltshire in many informal and useful conversations.

The documents here published relate rather to the diocese of Salisbury than to the county of Wiltshire. At the time of their compilation Berkshire was part of the diocese, and when Miss Ransome began work on her edition in 1969 it was thought possible that the Berkshire returns might be included. Their inclusion, however, would have required a much larger volume, and one that would have been beyond the Society’s financial means. Inquiries made in 1970 suggested that the organizations in Berkshire concerned with historical records and their publication were unable to share in the expense of a larger volume, and so with some reluctance it was decided to confine the volume to the Wiltshire returns.

INTRODUCTION

THE MANUSCRIPT

The present volume contains the returns made by the Wiltshire clergy at the primary visitation of Bishop Barrington in July 1783. Following the practice which had by the mid 18th century become general, Barrington sent out in advance of his visitation a list of questions addressed to the officiating clergy in all the parishes under his jurisdiction, with an explanatory letter and a printed form on which their answers were to be made. The completed forms were subsequently bound up into three volumes—two containing the parishes in Wiltshire and one those in Berkshire. The volumes, which have had their folios numbered in a single sequence, are in the Diocesan Record Office at Salisbury. They have half-calf bindings and marbled end-boards, each volume being 11 1/2 inches high and 9 1/2 inches broad. Included in the two volumes of Wiltshire parishes are fourteen Berkshire parishes, and a note inside the front cover of the Berkshire volume states that these have been bound up with the Wiltshire parishes by mistake. The parishes are bound in alphabetical order, which has not, however, been strictly kept.

Each parish return consists of two double sheets, folded to form eight pages. Pages 1 and 2 are filled by the bishop’s letter (with the names of parish and deanery filled in by an official) and the list of places and times of visitation and confirmation; pages 3 to 8 contain the queries, printed on the left-hand side, with space left for the answers, and with the postscript at the end. At the foot of page 8, on the right-hand side, is the address, ‘To the officiating minister, rector, or vicar of —’, the name of the parish being filled in by an official. The whole eight pages were presumably folded, with the address outside. In some returns the bishop’s letter, with the names of the parish and deanery, is missing and the names have been written across the top of the answers, always in the same hand—presumably again by an official.

The handwriting of the answers varies greatly, ranging from small, neat, scholarly hands and beautiful italic script, through free but well formed hands, to unformed, childish scrawls. The majority, however, are clear and easy to read. There is little variation in the spelling and few spelling mistakes, but certain archaic forms are used by most of the clergy. Some returns have no signature, and a considerable number of those that were signed by curates do not name the incumbents.

EDITORIAL METHOD

The returns printed below are confined to Wiltshire, and omit all those for Berkshire. Each parish has been given a serial number, printed before the name of the parish in bold type. Following the name of the parish are the
number of the folio on which the return for the parish begins and the name of the rural deanery. The bishop’s letter and the queries are printed at the beginning of the text, and are not repeated in each return; for ease of understanding the returns, the queries have also been printed at the back of the volume on a sheet which folds clear of the other pages. The more complex queries, and where appropriate the answers to them, have been subdivided with letters in square brackets, for greater clarity.

The text has been edited by extending some abbreviations, by adopting others as standard even where they are not used in the manuscript, and by rationalizing the spelling, the use of initial capital letters, the expression of sums of money and of dates giving the day of the month, and, where possible, the punctuation. The inconsistent use in the manuscript of figures and words to express numbers has been left unaltered other than in sums of money and dates, partly because of the impossibility of achieving a consistent usage that would retain the actual words (as distinct from the written symbols) of the original returns. Words underlined in the manuscript are printed in italics.

The spelling of surnames and place-names has been kept as in the manuscript, except in the headings to each return. In those headings a form in the manuscript that is markedly different from the modern form is given in brackets. The deanery names are also printed in their modern forms; the manuscript usually omits an ‘e’ from Chalke, Malmesbury, Potterne, and Wylye.

Other editorial additions and corrections to the text are enclosed in square brackets.

Footnotes are used to indicate the absence of the bishop’s letter from the beginning of a return, to supply missing names of curates and incumbents, and generally for purposes of identification, explanation, and cross-reference. The missing names are taken from the Clergy Books for 1783 in the Diocesan Record Office; the names of colleges and dates of matriculation enable the reader to refer to the relevant entries in J. Foster’s Alumni Oxonienses and J. and J. A. Venn’s Alumni Cantabrigienses.

THE BISHOP

Shute Barrington was one of the aristocratic bishops who were increasing in number in the second half of the 18th century. He was the youngest son of the first Viscount Barrington, and his eldest brother, the second viscount, was Secretary at War during the war of American Independence. After Eton and Oxford he became, through his brother’s influence, chaplain in ordinary to George III at the age of twenty-six, and a canon successively of Christ Church, Oxford, St. Paul’s, and Windsor. He became bishop of Llandaff in 1769, was translated to Salisbury in 1782, and in 1791 to Durham, one of the richest sees, which he held until his death at the age of ninety-one in 1826.

1 The following account of Barrington’s career is based on D.N.B.; George Townsend, ‘Memoir of the late Bishop of Durham’, prefixed to Theological Works of the first Viscount Barrington (1828); C. J. Abbey, The English Church and its Bishops (1887), ii. 220–3.
During his nine years at Salisbury he seems to have been an efficient and energetic bishop. The importance he attached to confirmation can be seen in his letter to the clergy sent out with the visitation queries in 1783, enclosing copies of 'a few plain questions and answers on the subject of the sacred rite' to be distributed by the clergy among their parishioners. His visitation charge, later printed, is refreshingly sensible and direct. 'My resolution,' he said, 'is never to select any curious topic of speculation, unconnected with the purposes of these meetings; ... Little solicitous about the elegance of composition, I am anxious in the extreme to deliver my sentiments with simplicity and freedom.' He stressed the importance of a clergyman's own personal behaviour, as well as diligence in carrying out his duties, especially in a period when 'shameless profligacy, avowed libertinism, infidelity and superstition in every shape are making a most alarming progress.' He enlarged upon the vital importance of residence or, where economic circumstances made this impossible, a wise choice of curates and emphasized the rule that no one should employ a curate from another diocese without informing the bishop. He urged the necessity, in the interest of the clergy themselves, of having clear terriers, and evidently sent out directions prescribing the form in which they should be drawn up. The whole tone and content of the charge is simple, evangelical, and practical.2

Barrington spent large sums of money on improvements to the bishop's palace at Salisbury, employing the architect James Wyatt. Draining operations were undertaken to make the palace less damp, and the cathedral churchyard, described by a visitor in 1782 as 'like a cow common', was also drained and levelled and part of it enclosed in the palace grounds. Unfortunately Wyatt's alterations to the cathedral were less happy, involving much destruction, roundly denounced at the time and since. 'These important alterations (by some called improvements)', wrote Sir Richard Colt Hoare in 1824, 'called forth the pens and just animadversions of various lovers of antiquity', including Horace Walpole.3 The bishop seems to have been on good terms with Salisbury corporation, co-operating in their plans for the rebuilding of the Council House, involving the demolition of the bishop's guildhall, in 1785,4 and he is said to have done much for the poor in the diocese.

As a churchman Barrington was a staunch Protestant of the evangelical school. He was a friend of Hannah More, who often visited him at his country house at Mongewell, near Wallingford. He was much opposed to any further concessions to Roman Catholics which might result in their return to political power, and he considered that the corruption of the Church of Rome was one of the main causes of the French Revolution. Nevertheless he was ready to allow Catholics toleration short of political power, and offered hospitality

and financial help to French bishops and clergy fleeing from the revolution. He published various tracts and sermons, several attacking Catholic doctrine, but he was in no sense a scholar. George Townsend, his chaplain in his old age, considered that 'his published works were characterized by sound judgment, clearness of expression, and fervent piety' and that he was 'more distinguished for the exemplary discharge of his duties, for piety and well-regulated benevolence, than for eminent talents or extensive knowledge.' Though not, perhaps, a very interesting person, Barrington seems to have been widely respected by his contemporaries. 'He has been unfortunate in that his steady progress up the ladder of preferment is remembered when his blameless character and unaffected piety are forgotten.'

PREPARATIONS FOR THE VISITATION

Barrington was confirmed as bishop of Salisbury in August 1782, and by the following May preparations were being made for his primary visitation. The visitation was to be combined with a confirmation tour, and the registrar, Joseph Elderton, urged the necessity of having gaps between the confirmations at the various centres, to avoid too great a strain upon the bishop. Barrington considered this unnecessary but Elderton pointed out that Bishop Hume had been taken ill during his last visitation and been obliged to omit Berkshire, so that no confirmations had been held there since 1776. Numbers were therefore likely to be very large. The dean, thanking the bishop for giving the clergy in his peculiaris (which would not be visited) the opportunity to bring their parishioners for confirmation, also referred to the likelihood of large crowds, especially in Berkshire, and in the end the registrar's plans were accepted. He now set about organizing accommodation at the various visitation centres for the bishop and his officials and servants, collecting information about the state of the roads between one centre and another, and preparing for the bishop's use lists of benefices and beneficed clergy. Barrington was staying at Mongewell and on 3 July Elderton wrote to him to offer a choice of lodgings in Salisbury during the visitation there. He could stay either with 'Mr. Goddard, the grocer in the market place . . . with his commodious dining-room and bed chambers' or with Mrs. Shergold at the King's Arms. The registrar then drew up, and on 5 July sent out, letters to all the innkeepers at whose inns the bishop and his retinue proposed to stay. They were to provide not only accommodation for the bishop and his party, but also 'for the entertainment of his clergy' after the visitation. Accommodation must also be provided for the registrar and his staff, 'and likewise proper apartments for the office business of the registrar and his clerks. Your answer, acknowledging

the receipt of this letter, by the first post, is expected, and will oblige.'9 Arrangements had to be made for the visitation sermons preached at each centre by one of the clergy of the neighbourhood. Apparently the practice was to nominate three for each centre, 'so that if one is excused, two remain to be applied to.'10 Finally the notices of the places and dates of visitation and confirmation, directions about the proceedings, the bishop's letter to the clergy, with the list of questions and forms for the answers, had to be sent out to all the clergy. The visitation queries had become largely standarized by this period and Barrington's questions do not differ significantly from those sent out by other 18th-century bishops.11

CHURCH SERVICES

The returns printed in this volume give a vivid picture of the diocese, though not a complete one. All the Berkshire parishes have been omitted, and even for Wiltshire the returns are not complete. The diocese contained a number of 'peculiars' where the bishop had no visitatorial jurisdiction. In some of them the dean had such jurisdiction, in others the dean and chapter, the treasurer, or the precentor. In all, the peculiars numbered about twenty. Further, there are no returns for another nine parishes which were not peculiars. Either these returns were mislaid or, perhaps more likely, the clergy concerned, through negligence or disinclination, did not send them in.12 Nevertheless the returns are a valuable source of information about the Wiltshire clergy and their work in the late 18th century.13

The official standards set for the 18th-century clergy were not very exacting, and the Wiltshire clergy on the whole conformed to these standards reasonably well. They were weakest on the requirement laid down by the canons of 1604 to hold two services every Sunday. Of the 232 parishes making returns only 93 (about 40 per cent) met this requirement, though another 8 had two Sunday services in the summer only, and 3 more had two services every other Sunday. Wilcot had two every other Sunday in summer; and the two parishes in Cricklade, St. Sampson and St. Mary, both served by the same curate, had a system whereby there were two services every other Sunday at St. Sampson and one service on the alternate Sunday at St. Mary. On the other hand only

five parishes, all very small, fell below the standard of one service every Sunday and this must be set against the fact that fewer than half the parishes fulfilled the canonical requirement. The rest of the record is much better. A surprising number of churches had services on weekdays, especially on Good Friday, Christmas day when it fell on a weekday, and Ash Wednesday, and some also on the Mondays following Easter and Whit Sundays. Only 60 parishes never had weekday services, the reason most commonly given being that all the parishioners were working people who could not attend church on weekdays. The canons of 1604 required the celebration of Holy Communion at least three times a year, and the general standard aimed at in the 18th century was at least four times a year, on the three great festivals and after harvest. About 73 per cent of the Wiltshire parishes had four or more celebrations a year, and only two—Bremilham and Pertwood—fell below the canonical minimum of three. At Bremilham the parish appears to have been in a general state of decay and on the rare occasions when Communion was celebrated a chalice had to be borrowed from Foxley; while at Pertwood the parish was so small that the canonical number for Communion could rarely be obtained. This is a good record for a predominantly rural area. The 18th-century bishops were anxious to encourage catechizing, and in this field also the record of the Wiltshire clergy is respectable. In just over 70 per cent of the parishes some attempt at least was made, most frequently in Lent but often at other times, generally in the summer. There are, however, many references to poor attendance, to unsuccessful attempts to make the parishioners send their children, and to the small number of children able to read. In 68 parishes there was no catechizing at all, the reason generally being that 'no one attends'. In some cases the gap was filled by schools where the children were taught the catechism. But in as many as 155 parishes there were no schools of any kind and in a number of others only very small private schools or small charitable bequests for teaching a few children to read.

Comparison of the general efficiency of the Wiltshire clergy with their exact contemporaries in the dioceses of Worcester and Oxford shows a remarkably uniform picture. The proportion of churches having two services every Sunday was almost exactly the same in Wiltshire and the diocese of Worcester, but higher in Oxford, where the majority had two services. Of the Worcester churches 82 per cent had celebrations of Holy Communion four times a year against 73 per cent in Wiltshire, and Worcester also had a rather better catechizing record; but Wiltshire had a much better one for weekday services.

DISSENT

Answers to queries 7 and 8, on the numbers of dissenters, atheists, and habitual absentees from church, give the impression that dissent was not a

INTRODUCTION

serious problem except in a very few parishes; that convinced atheists were few and far between but habitual absentees all too numerous. One hundred and fifty-eight parishes claimed to have no dissenters at all. Twenty parishes had a few Catholics, generally only one or two families, only four reporting any significant numbers. Of these, Tisbury, Donhead St. Andrew, and Ansty chapel are all close to Wardour Castle, where the Catholic Lord Arundell had a chapel and a resident priest. The fourth parish, Stourton, contained Lord Stourton’s residence, Bonham House, where there was a private chapel. Protestant dissent was more widespread but again numbers were small except in the cloth-making towns of Bradford, Devizes, Malmesbury, Trowbridge, and Wilton, and the weaving village of North Bradley, where dissenters were numerous. There were also fair numbers in Salisbury, in St. Thomas’s parish but with a meeting-house in St. Martin’s, and at Marlborough. Five villages reported numbers which were perhaps large in proportion to the total population. Methodists and Moravians were present in 37 parishes. The returns tend to be vague about their numbers but, perhaps predictably, Methodism seemed to flourish in the places where Protestant dissent was also strong; for example in Bradford, Trowbridge, and Wilton. There was a large Moravian congregation and chapel at Tytherton, in the parish of Bremhill. Twelve parishes reported Methodist chapels, including Tisbury, which, for its size, was a hotbed of nonconformity of every kind. There was a tendency among the clergy to regard Methodists as unfortunate and deluded rather than wicked. The vicar of Sutton Benger referred to parishioners who attended the nearby Methodist meeting at Christian Malford as ‘regular, well-meaning, but mistaken people.’ The returns for Hedington and Stanton St. Bernard referred to ‘2 or 3 deluded people called Methodists’, and the vicar of Preshute said indulgently that some of his poorer parishioners ‘steal now and then to the Methodist meeting-house at Marlborough’. The vicar of Avebury, however, took a sterner view and considered that they were assisted by the devil in gaining proselytes.

Many clergy ignored the question about parishioners who ‘profess to disregard religion and absent themselves from the public worship of God’, and some appeared to be almost shocked by the first half of the question. ‘I do not know that there are any who professedly disregard religion,’ wrote the curate of Wroughton (80), ‘but there are many who commonly absent themselves from public worship.’ At Hilmarton ‘some do absent themselves from divine worship through profaneness and irreligion’; Enford had its share of ‘practical atheists’; Christian Malford had ‘many Sabbath-breakers’. In a large number of parishes absentees from church were numerous, despite the efforts of the clergy. The vicar of Avebury lamented the evil effects of alehouses, and condemned the ‘trifling excuses’ of absentees in his other parish of Winterbourne Monkton. Poverty and the want of suitable clothing

were mentioned as reasons in several parishes and at Rodbourne Cheney 'age and infirmities.' On the other hand many clergy praised the regularity of their parishioners and the vicar of Milton Lilborne was happy to inform the bishop that 'I have no complaint to make against any of my parishioners'.

THE PARISH CLERGY

The 262 clergy, incumbents and curates, seem to have been, on the whole, a very ordinary group of clergymen. Socially the majority came from the gentry and professional classes, though the exact proportion cannot be calculated because no information on the subject is available for some 56 clergy. There were no sons of peers; 82 at least were sons of 'gentry' and another 57 sons of clergymen. It is safe to say that over 60 per cent of them were of the gentry or professional classes. Between 70 and 75 per cent had degrees, the great majority from Oxford, and a few more had been to one of the universities but had not taken a degree. There were a few outstandingly distinguished men among them. Benjamin Blayney, rector of Poulshot, was a notable Hebrew scholar who later became Regius Professor of Hebrew at Oxford; Charles Daubeney, vicar of North Bradley, published a number of theological works said to anticipate in some ways the Tractarian movement; James Stonhouse, rector of Great and Little Cheverell, was notable both as a medical practitioner and as an evangelical preacher, and was the original of Hannah More's 'Shepherd of Salisbury Plain'. Joseph Townsend, rector of Pewsey, was a man of many parts. A geologist, he had also studied medicine, and published The Physician's Vade Mecum, theological and travel books, and Free Thoughts on Despotic and Free Governments (1781). With five other clergy he was a member of the Committee of Correspondence set up in Wiltshire, as in most English counties, in 1780 to support the county petitions criticizing excessive government expenditure and demanding moderate parliamentary reform.

A number of clergy were doctors of divinity, several were or had been fellows of their colleges. John Keble, vicar of Poulton, had the distinction of being the father of the eminent Tractarian; and George Wells, rector of Manningford Bruce and curate of North Newton, was clearly a 'character', who regarded the visitation queries as so much bureaucratic red tape.

The most notorious defect of the 18th-century church was pluralism, and the non-residence which resulted from it. The returns give, superficially, a bad impression of the Wiltshire clergy in this respect, but a closer examination

The other five clergy who were members of the committee were William Bowles and John Harington (Stratford-sub-Castle, 190), Henry Kent (Urchfont, 207), Richard Pococke (Mildenhall, 140), and Edward Polhill (Milston, 141).

improves the picture a good deal. Of the 232 parishes making returns, only 90 were served by a resident incumbent, but 39 more were served by a resident curate, so that a little over half the parishes were served by resident clergy.\footnote{The proportion of resident and non-resident incumbents was almost exactly the same in 1783 in Worcester and Oxford dioceses: see above, n. 16.}

A further 80 parishes were served by an incumbent or curate living not more than 5 miles away from the church, and in fact no parish was served by clergy living much more than 10 miles away.\footnote{The distances given by the clergy in the returns appear to be generally accurate, though naturally tending to minimize distances when they lived away from their cures.} The one exception was Chippenham, where the vicar, though sometimes resident, admitted that he lived most of the time in Kent because of 'very material family concerns.' He did not say what arrangements he made for services in his absence, and no curate is mentioned in the Clergy Books for 1783. Pluralism was much the most frequent reason for non-residence. Of the 262 clergy 124 were pluralists in the sense of holding or serving more than one cure. Of these, 68 were incumbents holding two livings,\footnote{This figure may be too low, as there are several incumbents the reason for whose non-residence is not certain.} 25 were incumbents serving a second church as curate, making a total of 93. In addition, 31 curates were serving two or more churches. Here, as with non-residence, the picture is not quite as black as it appears. Of the 93 pluralist incumbents, 36 held one living outside Wiltshire, all but 6 in adjoining counties. All but 15 resided on one or other of their cures. All the 31 'pluralist' curates were serving churches close to each other, but a complicated situation could sometimes arise, as, for example, in the parishes served by two brothers, James and John Evans. At Fovant the rector, Dr. Thomas Eyre, lived in the rectory, which he had made into a summer residence,\footnote{Pembroke Papers, ii. 365.} but apparently did not serve the church, and the return was made by his curate, James Evans, recently appointed master of the city grammar school in Salisbury, where he lived. He was also curate of Teffont Eviæ, about 2 miles from Fovant, where the rector was a pluralist and resided on his other living at Odstock. Evans was assisted at Teffont Eviæ by his brother John, who was curate of Hindon and of Pertwood, about a mile apart, and who lived partly at Hindon and partly at Fovant. A study of the times of services at the various parishes suggests that the Evans brothers, and especially John, led a strenuous life on Sundays. John took morning service at Teffont every Sunday at 10.0, with a sermon every other Sunday. He then had a journey of 4 or 5 miles to Hindon, where he took a service (with a sermon) at 11.30 and an afternoon service at 3.30. Every other Sunday he took a service at Pertwood (where the parish contained only one family) at 1.0, returning to Hindon for the 3.30 service. Meanwhile James would travel from Salisbury to Fovant, 9 or 10 miles, for morning service (with sermon) at 10.30 and afternoon service at 2.0; then 2 miles to Teffont for the afternoon service there (with sermon every other Sunday) at 3.15, returning afterwards to Salisbury. As he had only recently been appointed to the city grammar school, it is to be hoped that this exhausting programme was a temporary one.
Pluralism was not the only reason for non-residence. In some parishes there was no parsonage house, in others it was too small, dilapidated, damp, or in an unhealthy situation.\textsuperscript{31} Bremilham, where 'my parsonage house is made a pig-sty of by Farmer Bennet of Cowitch', was an extreme case. Other clergy pleaded ill-health, their own or of members of their family, this being often combined with complaints about the house. The rectors of All Cannings and of Castle Eaton both found the damp situation of their parsonages bad for their health and could live in them only in the summer; and the vicar of Longbridge Deverill found winter residence in Bath 'for the benefit of the waters' essential for his health. Eleven clergy were also schoolmasters, whose duties sometimes involved non-residence and therefore to some extent prevented the proper performance of their parochial duties. James Evans, curate of Fovant and Teffont Evias, as already mentioned, lived in Salisbury; so did John Skinner, vicar of Shrewton, as he was master of the choristers' school, and his parish was served by a curate. Others, for instance James Mayo, vicar of Avebury and Winterbourne Monkton and master of Calne grammar school, and Thomas Huntingford, rector of Corsley and master of Warminster school, were able to live near enough to their churches to carry out their duties reasonably well. Only three schoolmasters were complete absentees from their parishes: William Williams, vicar of Marden, and master of Blackheath grammar school; James Charters, vicar of Broad Chalke and Bower Chalke and under-master at Rugby; and Thomas Bromley, vicar of Stanton St. Bernard and assistant master at Harrow. Other reasons for non-residence were residence at Oxford or Cambridge as fellow or tutor of a college, and the holding of canonries and prebends, or other ecclesiastical offices, either at Salisbury or elsewhere.

How far was this extensive pluralism due to real economic need? The returns give no information about the values of livings, except in a few cases where the clergy mention the matter, generally to complain of the inadequacy of their incomes. A Diocese Book of the early 18th century in the Diocesan Record Office gives the 'estimated' values of livings, sometimes with later additions, and so, in many cases, does John Bacon's \textit{Liber Regis}, the 1786 edition of Ecton's \textit{Thesaurus Rerum Ecclesiasticarum}. Bacon clearly took most of his 'reputed values' from the Diocese Book, but in some cases he gives a different and rather higher figure.\textsuperscript{32} Values were rising during the 18th century,\textsuperscript{33} so that the figures in the Diocese Book must be presumed to be lower than the values obtaining in 1783. Even allowing for this, there was undoubtedly a large number of very poor livings in Wiltshire in 1783. Over

\textsuperscript{31} e.g. Heddington, 100; Lydiard Tregoze, 130; Norton, 150.

\textsuperscript{32} Values quoted in this Introduction are from the Diocese Book, repeated by Bacon, unless otherwise stated. They are generally the gross annual values. Ecton's work also gave the patrons of livings, and the many later editions were much consulted by clergy in search of preferment. See, for example, \textit{Diary of Thomas Wilson, 1731–7 and 1750}, ed. C. L. S. Linnell (1964), p. 182.

\textsuperscript{33} Some livings improved as a result of inclosure; a few (e.g. 201) became poorer. Further details of most of the inclosures mentioned in the answers may be found in \textit{Wiltshire Inclosure Awards}, ed. R. E. Sandell (Wilt. Rec. Soc. xxv).
INTRODUCTION

a hundred were probably worth less than £100, many of them £50 or less. In the returns themselves North Newton and Poulton were each said to be worth only £20, and Winterbourne Earls only £10. Twenty-five livings were worth more than £200, four were worth more than £300. In the early years of the 19th century, when ecclesiastical reforms were being carried out, £150 was usually regarded as the dividing line between modest comfort and poverty. Judged by this standard, pluralism in Wiltshire was being used to supplement an inadequate income by 41 of the 68 incumbents holding more than one living and by 17 of the 25 incumbents serving a second parish as curate. There is little information in the returns about curates’ stipends, but the 31 curates serving two cures undoubtedly did so to avoid financial hardship. Thus out of the total 124 cases of plurality of all kinds, 89 can be regarded as the result of economic necessity, and in some cases pluralism would still barely produce an adequate income. Thomas Meyler, for example, remarked of his two livings, Preshute (£80) and Marlborough St. Peter (£30), that one provided bread and cheese and the other a place to eat and sleep. Even if the figures were under-estimates, the livings can hardly have provided much more, particularly as he employed his son as curate to assist him at Marlborough, where the standard of services was exceptionally high.

There is, however, another side to the picture. Nine incumbents held two livings each of which was worth over £150, and of the 25 livings worth more than £200, 12 were held by pluralists. Some of these provide excellent examples of the importance, as a means of ecclesiastical advancement, of family connections, chaplaincies to peers, or tutorships to their sons. Perhaps the most interesting of all the Wiltshire pluralists was Nathaniel Hume, vicar of Bremhill and of West Kington, both livings in the gift of the bishop. Hume was the nephew of Bishop John Hume, Barrington’s predecessor, and his career provides a striking example of the ladder of preferment available in the 18th century for those with an influential patron. He became rector of St. Lawrence Jewry, London, in 1762 and a prebendary of St. Paul’s the following year, his uncle then being dean of St. Paul’s. The uncle became bishop of Salisbury in 1766 and in 1776 the nephew, still keeping his London living, became prebendary and vicar of Winterbourne Earls and for a few years master of St. Nicholas Hospital. In 1780 he gave up his London living to hold two of the bishop’s better livings, Compton Bassett and West Kington; and in 1782 he resigned Compton Bassett and moved to Bremhill, the most valuable of all the bishop’s livings, where he remained until his death in 1804. In 1799 he exchanged West Kington for Brixton Deverill, of slightly lower value, with William Douglas, whose father, John Douglas, was by that time bishop.

35 Only four returns mention curates’ stipends: Aldbourne, £40, with house, £10; North Newton, £20 7s.; Maddington, and Stanton St. Bernard (given under Heddington), each £20: see 1; 146; 131; 100.
36 Not brother, as implied in the obituary notice of Thomas Henry Hume, the bishop’s only son, which refers to Nathaniel Hume as his uncle: Gent. Mag. (1834), i. 663. This mistake has been followed by later writers. See below, n. 39.
37 ‘About £200 clear’ in Diocese Book; £400 in Bacon.
Hume was a canon of Salisbury and became precentor in 1774. The return for Bremhill was made by himself, in a neat and scholarly hand. He resided partly at Bremhill and partly at Salisbury and kept a curate. West Kington was served as curate by the rector of the adjoining parish of Nettleton. Hume's obituary notice in the Gentleman's Magazine described him as 'a gentleman endeared to all who knew him by the long and constant exercise of all the milder virtues, and whose loss is generally regretted.' His brother John, who had succeeded him as master of St. Nicholas Hospital, held West Lavington, another of the bishop's livings, served for him by a curate, till 1783, when he exchanged all his English preferments for the deanery of Derry with his former schoolmate at Westminster, Edward Emily.

The bishop had in all 20 livings in his gift in Wiltshire and was by far the largest ecclesiastical patron in the diocese. Of his other Wiltshire livings, Aldbourne was held, non-resident, by the son of the diocesan registrar and another five were held by various diocesan and cathedral officials; Potterne and Brixton Deverill by Arthur Coham, archdeacon of Wiltshire, who divided his time between the two and kept a curate at the latter; St. Edmund's, Salisbury, by the sub-dean, who resided; Shrewton by John Skinner, master of the choristers' school, and Idmiston by Edward Moore, formerly master of the city grammar school, both of whom were vicars of the cathedral. Shrewton was served by a curate, but Moore managed to serve Idmiston in combination with his duties at the cathedral. Monkton Farleigh and Warminster, each worth less than £100, were held by pluralists with adequate but not rich livings elsewhere; and Boscombe, the two Chitternes (All Saints and St. Mary), Littleton Drew, and Marlborough St. Peter, all poor livings, by pluralists whose incomes would otherwise have been very inadequate. Of the remaining bishop's livings—Compton Bassett, Inglesham, Poulshot, and Fisherton de la Mere—only the last was held by a non-resident. Most of these appointments had been made by Bishop Hume and they compare favourably with Bishop Hurd's use of his patronage in the diocese of Worcester at about the same period.

Apart from the Crown, the most important lay patron in Wiltshire was the earl of Pembroke, as a result of the acquisition of Wilton Abbey by his family at the Dissolution. The most valuable of his 10 livings, Bishopstone (deanery of Chalke), for which there is no return, was held by his cousin, William Neville, non-resident and rector of Burghclere, Hants. Two of the better Pembroke livings, Chilmark and Fovant, were held by Dr. Thomas Eyre.

39 See 123. In the Cartulary of St. Nicholas Hospital, ed. C. Wordsworth, John Hume is described as the bishop's son and Nathaniel Hume as the bishop's brother, and incorrect dates of death are given for both of them. Both were the sons of James Hume M.D., of Oxford, brother of Bishop Hume: Record of Old Westminsters, i. 493; Alum. Oxon.; London Magazine (1766), p. 688.
41 Clergy Books, 1783; Pembroke Papers, ii. 80. Bacon gives £300 as the value.
Lord Pembroke's chaplain and adviser on patronage matters. Returns for both these parishes were made by curates. Four more of the Pembroke livings were held by members of the Hawes family, relations of Henry Hawes, former rector of Wilton and 'much in favour' with Lord Pembroke's father. Fugglestone and Wilton were held by John Hawes, whose health appears to have been poor, and both were served by curates, Fugglestone by John's son Henry. This Henry Hawes was himself vicar of North Newton, another Pembroke living, and of West Knoyle, a chapel appendant to it, both of them served by curates. Another Henry Hawes, son of the former rector of Wilton, held the Pembroke living of Little Langford. This was served for him by a neighbouring clergyman, Hawes himself being resident curate of Box. Lord Pembroke's three remaining livings were all held by men connected with the education of his son. Henry Hetley, vicar of South Newton, had been Lord Herbert's tutor; Thomas Bromley, vicar of Stanton St. Bernard, had been his housemaster at Harrow, where he was still an assistant master; and the rector of Wylye, John Dampier, was the son of Thomas Dampier, formerly lower master at Eton, who had recommended the historian William Coxe to accompany Lord Herbert on a European tour. Hetley served South Newton himself, though resident in Salisbury; Stanton St. Bernard and Wylye were both served by curates.

Finally, it must be emphasized that the returns are particularly valuable for the vivid impression they give of many individual clergy and their personal problems. James Mayo, vicar of Avebury, is a well-meaning bore who becomes human in his anxiety lest the new bishop should disapprove of his residence at Calne as master of the grammar school, a job that is tedious to him but necessary for the support of his fourteen children; 'many of them are young, and must, without an uncommon interposition of the divine providence, be left unprovided for' when their father dies. Algernon Frampton, rector of Tockenham, is worried about his health and about a disagreement with his parishioners over tithes which renders it impossible for him to draw up a new terrier. He is most anxious that the bishop should understand his difficulties. James Stonhouse, rector of Great and Little Cheverell, is unable to give the exact date of his institution because 'having been obliged to pack up that with many other papers of importance, letters, etc. in boxes on account of the number of workmen in my house; therefore cannot without very great inconvenience unpack and sort such a multiplicity of papers at present.' Timothy Meredith, vicar of Wootton Bassett, would like the bishop's opinion.

\textsuperscript{42} Pembroke Papers, ii. 353, Dr. Thomas Eyre to Lord Herbert, 5 July 1787. In the same letter Fugglestone was said to be worth £300, Wilton £170, and Little Langford £100. The corresponding values in the Diocese Book are £200, £160, and £80.

\textsuperscript{43} Pembroke Papers, ii. 46, 82; Eton College Reg. 1753–90, ed. R. A. Austen-Leigh, p. 145. Coxe himself later became rector of Fugglestone. The whole subject of Lord Pembroke's ecclesiastical patronage, especially in North Newton and Stanton St. Bernard, where prebends were involved, is one of considerable complication and interest, which the present editor hopes to study further.

on the situation of one of his parishioners, Mrs. Mary Stanley, whose husband was transported for fourteen years, and 'no intelligence having been received . . . for upwards of seven years, the said Mary wishes to know if she is at liberty to marry another.'47 A rather different matrimonial problem weighs upon the mind of John Eyre, curate of Wylye; two of his parishioners, whom he refused to marry because one might be the son of the other's half-sister, have got married in the next parish. What can he do about it? He is also worried about the 'profanation of the Lord's day in my parish' by the sale there of the Salisbury Journal on Sundays, and by the obstinate refusal of the recipients of a parish charity to wear the prescribed badges.48 Thomas Huntingford, rector of Corsley, deplores the use of the communion table 'for the transaction of parish business at vestries,' and other deficiencies in church equipment;49 and James Neale, curate of Aldbourne, a disappointed man, 'next March 1784 a curate 40 years', tried to start a school for poor families, but has had to give it up and has 'brought trouble on myself by the undertaking.'50 Some of the returns have an air of self-righteousness;51 but by and large they present a picture of simple, worthy men doing their best, often in very difficult conditions. Even the rich pluralists were, with some exceptions, doing their duty in at least one of their livings, though in vastly more comfortable circumstances. Some seventy-five years separate the returns from Trollope's Barsetshire novels, but they provide precursors both of Mr. Crawley of Hogglestock and of Archdeacon Grantley.

The bishop's letter sent, with the list of places and times of visitation and confirmation, to each parish.

To the officiating minister, rector, vicar, or curate of the parish of —— in the deanery of —— and diocese of Salisbury.

Reverend Sir,

I desire you to return written answers to the following queries, on the blank spaces near or under them, and deliver the same, signed with your name, and sealed up, to my chaplain, at my ensuing visitation.

I have caused articles of enquiry to be sent to the churchwardens of your parish, as a rule and direction by which they are to make their presentments; and I request you to put them in mind of the obligations they are under to do it, in a religious conformity to the oath they have taken.

As I purpose to confirm, in the course of my visitation, such young persons as are of the age of fifteen years or upwards, and duly qualified for that rite, you will give notice of such my intention in your parish church, on the Lord's day after you receive this letter; and also, at the same time, you will read an exhortation which accompanies this; and repeat it on the Lord's day immediately preceding the confirmation. You are likewise desired to distribute among those who are to be admitted to confirmation the few plain questions and answers on the subject of the sacred rite, of which I have sent what I hope will prove a sufficient number for your young parishioners. I earnestly recommend it to you to instruct them in private, as well as in public; and to exhort them to entertain a due sense of the obligations they are under to fulfil their baptismal vow; and of the happiness they will enjoy in this life, and be entitled to in a better, from a conscientious performance of those duties which necessarily result from a religious observance of the promises made at confirmation.

Acquaint those who are to be confirmed that it is expected they come to church with such dispositions as may lead them to behave with decency during the whole of the service; and to make the proper answers as directed in the liturgy; to depart orderly; and to return to their respective places of abode as early in the day as possible.

You will prepare a list of those persons whom you think qualified to partake of this rite, and deliver the same to my chaplain, before eight o'clock on the morning of the confirmation; and to each person in your list you are desired to give a ticket with his or her name written thereon, together with the name of your parish, in the following or like words, subscribed with your own name; Examined and approved - A.B. rector, vicar, or curate of —— which
ticket each person must bring with him to the church; and without it none will, on any account, be admitted to confirmation.

There will be no prayers before the confirmation; but you are requested to attend yourself, with your parishioners, by eight o’clock in the morning, in some convenient place near the church, till the name of your parish be called; which will be done alphabetically.

I am, Reverend Sir,
Your sincere friend and brother
S. Sarum

It would be an additional satisfaction to the bishop, if his clergy, at the end of these queries, would write the dates of their collation, or institution; of their deacon's and priest's orders; and their degrees.
1 ALDBOURNE

1. The stated service on the Lord's day is prayers and sermon that begin at half past ten in the morning—second prayers in the afternoon. Service begins at three. But at my commencing curate I observed that the servants who could not attend in the morning were numerous, and hearing that formerly there used to be an afternoon sermon for which I was told £20 a year was allowed, I have constantly preached twice but never received any stipend.
2. On some holidays there is service performed, as in the weeks of the three great festivals. On Ash Wednesday and Good Friday I usually preach.
3. As curate. Stipend £40 a year out of which the curate pays the window tax. The vicarage house is considered as £10 a year.
4. I serve no other parish. I never thought myself adequate to the duty of one parish.
5. Every month, on the first Sunday, and on the three great festivals.
6. Above an hundred. At Easter last I believe we had eighty, more or less. I think the communicants are decreasing.
7. We have no papists or popish chapels.
8. We have no dissenters. No meetings whatever, in licensed houses; but I believe in one house a journeyman weaver called a Methodist reads to a few people, perhaps ten or a dozen, who all come to church. We have persons who may be said to be practical atheists, and we have a number of ragged poor who will not come to church unless they have decent apparel.
9. I cannot induce them to send young people to be instructed. I have vainly attempted it. The season for catechizing is the six Sundays in Lent. I have duly catechized, till this last Lent. As I proposed during the summer once more to endeavour to instruct them effectually by collecting them, if I could, in the vestry on week days, I omitted the Lent catechizing. I used no exposition but my own in the afternoon sermon.
10. The register is duly attended. The returns made regularly. The register goes back as far as 1636.
11. There is.
12. No chapels of ease.
13. Mr. Elderton has a terrier. According to orders I drew up an exact terrier and sent it with the approbation of parishioners to the registrar to be signed by his son and to have a duplicate with the parish register, but [it] has not been returned.
14. There is a school over the church porch. Now disused. If any endowment it's lost. There is a benefaction of [blank] annually from Upham farm to be distributed by churchwardens. But I believe irregularities attend the distribution.

2 Two separate letters, one addressed to 'Aldbourn' the other 'Aldbourne'. The return to the first, 1, is made by the resident curate, to the second, 2, by the vicar, resident in Bath, and also signed by the curate. The curate's return has a sad and disappointed tone; the vicar's is more cheerful and praises the curate's zeal. There are no serious discrepancies between the two returns.
15. The minister chooses one, the parish the other churchwarden annually in Easter week.
16. None. The brutal ignorance of the labouring people induced me to attempt to found and endow a reading, writing, and working school for poor families. I began a building, but I had not powers to finish my design, but brought trouble on myself by the undertaking.
17. I have constantly resided in the vicar's house.
18. We never have a farthing given, neither can I persuade the officers of the parish ever to approach the communion.
19. I have many. But I doubt my judgement with respect to propriety.

29 October 1783. James Neale of Pembroke Hall, Cambridge
Next March 1784 a curate 40 years.

2 ALDBOURNE f.9 D. Marlborough
1. The customary service is prayers and sermon in the forenoon half past ten; in the afternoon prayers only at three; there used to be £20 a year formerly allowed by the parish for a sermon in the afternoon, but the present curate who hath resided for eleven years last past hath voluntarily preached a sermon in the afternoon (as well as the forenoon) without any stipend or allowance for the same.
2. The present curate ever since he came to Aldborne hath performed divine service and preached sermons on Christmas day, Good Friday, and Ash Wednesday, and performed divine service (without a sermon) on two other days in Christmas week, Easter week, and Whitsun week.
3. The present curate performs divine service as curate and has resided eleven years in that capacity in the vicarage house.
4. He serves no other cure; hath no particular licence to serve this cure; hath been in priest's orders and officiated for about thirty years.
5. The holy sacrament of the Lord's Supper is duly administered in this parish church on Christmas day, Easter day, Whitsunday, and the first Sunday in every month of the year.
6. There were only thirty communicants when the present curate entered on this cure, but now and for ten years past there have been and are one hundred communicants and upwards; though it so happened that a less number, not many more than eighty, communicated last Easter.
7. There is not one papist or reputed papist known of in this populous parish.
8. No professed sectary or dissenter from the established church is at present declaredly so in this parish: about 23 years ago there was a congregation of Independents; their place of divine worship was then burnt down and never was rebuilt. The members came to the parish church and have continued to do so. There are numbers of the poor who refrain from attending the public

service from want of raiment—some who are habitual Sabbath breakers. The farmers and people of good condition, in point of circumstance, are constant frequenters of the public service.

9. The parishioners do not duly send their children and servants who have or have not learned their catechism to be instructed. The curate occasionally expounds the catechism in an afternoon's sermon; during the six Sundays in Lent, the children of the parish are catechized, agreeable to the rubric, in the vulgar tongue.

10. There is a parish register book of births and burials duly kept in the parish church and in good preservation, and due return is made of births and burials into the registrar's office. The register books go back as far as 1636.

11. There is.

12. There is no chapel of ease or ruined chapel in this parish.

13. Knows of no terrier in parish preservation but there is a full and perfect terrier, or terriers, in the bishop's registry.

14. Over the church porch there is a room, with a fireplace and forms, where, formerly, a school used to be kept; but there is no trace of any endowment thereof, if such there ever was.

15. The churchwardens in this parish are chosen every year in the Easter week, one by the minister and the other by the parishioners.

16. There is no public or charity school in this parish.

17. The present curate constantly resides in the vicarial house, and has resided therein for eleven years last past. The vicar resides at Bath, and serves the cure of Monkton Farley, near Bath, in the diocese of Sarum, for Mr. Peter Gunning, the rector.

18. Although there has been so considerable an increase of communicants since Mr. Neale came to this parish, there has been no offertory; and he is sorry to mention that the farmers in general, or very few of them, or the churchwardens, do not accustom themselves to receive the sacrament.

19. None that occurs materially to the recollection.

20. The nearest post town to Aldbourne is Ramsbury near Marlborough.

8 ASHTON KEYNES f.65 D. Cricklade

My Lord,

As the Rev. Mr. Thomas, the present curate,^5 has lately been at Oxford to keep terms for his degree and is obliged to go from thence to Wales on business, have taken upon myself to answer the following queries according to the best of my knowledge, from information I have received from him and the parishioners.

I am, my Lord, your most dutiful son and servant

T. Wickes.

1. Prayers and preaching are performed every Sunday morning at 10 o'clock and prayers every Sunday afternoon from Lady day to Michaelmas. Prayers and preaching also at the chapel of the Leigh once every Sunday throughout the year.
2. Divine service is performed in the church upon all holidays and festivals.
3. Divine service is performed by the Rev. Mr. Thomas, curate.
4. He serves no other cure and is not licensed, as he intends to leave it soon.
5. The sacrament of the Lord's Supper is administered four times in the year.
6. There are generally between 20 and 30 communicants.
7. There are no reputed papists in the parish.
8. Nor Presbyterians, Independents, Anabaptists, nor Quakers but great numbers who absent themselves from all public worship.
9. The curate catechizes all such children and servants as are sent to him for that purpose every Wednesday and Friday in Lent.
10. There is a parish register book of births and burials.
11. And also a register book for marriages, according to the Act of Parliament.
12. There is one chapel called the Leigh; prayers and preaching are performed there once every Sunday throughout the year by the curate of Ashton Keynes.

It is one computed mile distant from Ashton Keynes.
13. I have an attested copy of a terrier made in the years 1683 and 1704, taken

^5 Clergy Books, 1783, give 'Mr. Campbell' as curate. Mr. Thomas appears to be only temporary: see answer 4.
from the bishop’s registry; by which it appears that there were at that time 8 tenements or houses belonging to the vicarage; all which, through the carelessness or neglect of former incumbents, have been possessed by different persons for many years, upon payment of 3 or 4 shillings yearly, though worth as many pounds; some of which have also been sold by word of mouth, and descended from father to son, without any other contract, lease, or title than the above verbal agreement. By virtue of an Act of Parliament passed in the year 1777 there was an inclosure of a large common and by which the value of the living was much augmented, and almost a general exchange of the vicar’s glebe lands, but no terrier or account of these has been yet transmitted to the bishop’s registry and it will require much time and pains to get a true account of them.

14. [a] There is no free school, alms-house, nor hospital that I know of in the parish. [d] It appears by the terrier that there was a church house belonging to the maintenance of the church, out of which was paid only 2 shillings per year to the lord of the manor; which house was taken down about six years ago by the lord of the manor and no consideration has been paid for it. There was likewise a small parcel of land belonging to the same.

15. The churchwardens of the parish are chosen every year in the Easter week, one by the minister and the other by the parishioners.

16. There is no public school nor charity school in the parish.

17. The curate constantly resides in the parish, near the church, except when he keeps terms at Oxford.

20. I reside at Tetbury in the county of Glocester.

T. Wickes

9 AVEBURY f.73

1. Divine service—prayers and preaching—once every Lord’s day alternately with the church of Winterborne Monkton, united to Avebury per favor of the Lord Chancellor Hardwicke, the patron of both, and Dr. Sherlock, diocesan—at the expense of the present incumbent (near £100) about the year 1747—both churches being so situate—at the distance of 3 quarters of a mile from each other—that the inhabitants of both parishes may conveniently attend the services of both churches—the present bishop of Bath and Wells—then rector of Compton—being one of the commissioners.

2. Prayers and homilies read on weekdays after the three principal festivals—as also on some other holy days. [Continues on a separate sheet attached to the return.] To be added to A. 2nd. About the year 1740 Whitfield and the

6 17 Geo. III, c. 139.
7 Thomas Croome Wickes, patron and incumbent; Pembroke Coll. Oxford 1743.
Wesleys broke forth from the University, and—compassing heaven and earth to gain proselytes—maintained, among other things, in their preachings, that the Church of England, or rather the clergy of the Church of England, had totally departed from the pure doctrine of the Gospel, and particularly those that were contained in her homilies—which, as they and their followers asserted, were wholly laid aside and absolutely sunk into oblivion—to obviate which objection, as far at least as respected myself, the obsolete usage or practice or custom of reading homilies, on certain occasions, in the church, was revived, with good effect, by me, who was then curate to my father, at Avebury—an essential blow being thereby given to the growth and establishment of Methodism in that parish. James Mayo, vicar, 28 July 1783.

3. I perform the divine service of this church as incumbent.
4. I serve no other church or cure but the united church of Winterborne Monkton as above mentioned.
5. The holy sacrament is administered in this church four times in the year viz. Christmas, Easter, Whitsuntide, or the next Sunday after according as the alternate service happens, and the nearest Sunday to St. Michael, before or after.
6. The number of communicants in this parish is generally about 40—which was nearly the number at Easter last—and has been nearly the same during the course of 40 years last past.
7. There are no reputed papists in this parish—there have been no persons lately perverted to popery—no place in this parish where papists assemble for divine worship—no popish priest—no popish school in this parish.
8. There are no Presbyterians, Anabaptists, or Quakers in this parish—two or three families (one of the rank of farmers, the others poor) who may be said to be of the Independent denomination who would have dwindled and sunk to nothing long before this time had it not been for the unseasonable encouragement and support unfortunately given them, some years ago, by that arch-miser old Caleb Bailey of Barwick, in this neighbourhood, who, when he could keep his unrighteous Mammon no longer, by his last will and testament, bequeathed all his personals, to a considerable amount, in trust for the purpose of supporting meeting-houses of the Independent denomination, particular regard being had to this at Avebury. The present teacher's name is Davis, an inhabitant of the town of Marlborough—whether licensed or not I cannot learn. There is also one other unlicensed house occasionally made use of for preaching by a person whose name is Winter, who is also an inhabitant of the town of Marlborough—some years ago, if I mistake not, expelled from some hall in Oxford—of the sect called Methodists, who maintain that they are predestinated and elected and therefore must and shall, most certainly and unconditionally, be saved without works or without any labour or application of their own—the great enemy of souls of course assisting them in gaining proselytes—yet am happy to inform your Lordship that of this sect the number is far less than formerly, owing, I trust, in some measure to my

1 Bequest in 1749 to help those 'who shall preach or study to be fit to preach to congregations of the Presbyterian, Baptist, or Independent denominations': V.C.H. Wilts. iii. 123.
2 Cornelius Winter, a convert of Whitefield's: V.C.H. Wilts. iii. 131 sqq. See 136.
attending to the advice of Dr. Sherlock, when my diocesan, concerning these men. viz. that we should refrain from them and let them alone, rather living than preaching against them—'giving none occasion to the adversary to speak reproachfully, and taking diligent heed, in all things, that the ministry be not blamed.' There are 4 persons in this parish who, though not professedly, yet by their life and conversation, disregard religion, and who therefore commonly absent themselves from all public worship, viz. one who was formerly an alehouse-keeper or landlord, and 3 others who now live in that abandoned state and who, as we may suppose, are against all religion because all religion is against them—which remarkable instance plainly evinced the truth of the observation, often made, namely that alehouses are the bane of the nation, both with regard to the spiritual as well as temporal estate of the inhabitants thereof—as the keepers of them must, of necessity, be the patrons and promoters—the examples, abettors, and encouragers of all irreligion and iniquity in order to support themselves and families. What a pity it is then that the government of so good and pious a prince, whose rectitude of mind and integrity of heart must make him abhor and detest all manner of vice and wickedness, cannot be supported without giving so much countenance to the enemies of religion, by granting so many licences to public houses.

9. Finding that those of my parishioners who keep servants could not be prevailed on so far as to use their influence and authority as to cause them to attend on catechizing, I have been obliged to content myself with instructing children only—after the second lesson in the afternoon, on the Lord's day, in the summer season, making use of no printed exposition, but expounding and explaining extempore, or rather memoriter from Archbishop Wake, Bishop Burnet, etc. and endeavouring to lead them to an understanding thereof by means of the Catechism broke into Short Questions, the author of which was—as I think I have been informed—a clergyman of this neighbourhood.³

10. A register book of births and burials is duly kept, and returns regularly made of births and burials into the registrar’s office—or at least at the visitation—but not always so well authenticated as they ought to be by being signed by the minister and churchwardens, as the canon, I think, requires—and without which they are of no great weight in a court of justice.

11. A register book, according to the directions of the Act of Parliament against clandestine marriages, is duly kept.

12. There are no chapels of ease in the parish.

13. The copy of a terrier of the house, lands, tithes, etc. belonging to me, as the minister of this parish, extracted out of the registry of the lord bishop of Sarum, bearing date 5 May 1682, is now in my possession—but as there have been some alterations and improvements made in the lands of late years,

² Two widely used expositions of the Catechism, William Wake's Principles of the Christian Religion explained, in a brief commentary on the Church Catechism (1700), and Gilbert Burnet's Exposition of the Church Catechism for the use of the diocese of Sarum (1710), are frequently mentioned in the answers to this query. The Catechism broke into short questions was perhaps by James Stonhouse, rector of Great Cheverell and author of a number of religious tracts. See 123. 13.
by means of an exchange, a more true and perfect terrier shall be transmitted to the registry as soon as it can be prepared.

14. There is no free school—properly so called—no alms-house, no hospital, or any other endowment of that sort, in this parish. No lands or tenements left for the repair of the church—or any other pious use.

15. The churchwardens, in this parish, are generally chosen every year in the Easter week, with very few exceptions for many years past, one by the minister, the other by the parish.

16. There is no public school, properly so called, in this parish, only a small charity school, supported partly by voluntary subscriptions, partly by a settled endowment—the whole about £8 per annum—for 8 boys and 8 girls—or rather 16 children whether boys or girls—who are taught and instructed in reading, writing, and in the grounds and principles of the Christian religion—care being taken, by the master, to bring them regularly to church.

17. After spending the greatest part of my youth, for near twenty years, in a constant residence at Avebury, I have, by the indulgence of my diocesans, particularly Dr. Thomas and Dr. Hume (which indulgence I now humbly pray for a continuance of from your Lordship) resided, for some years past, in this town of Calne, in consequence of my being honoured with a nomination or appointment to an endowed school here (salary £50 per annum) of which Lord Shelburne, Sir Edward Bayntun, Sir James Long, Mr. Ambrose Goddard, Mr. Heneage, etc. are the trustees, and which I was, as it were, under an indispensable necessity of accepting, and of submitting to the laborious employment of school teaching, for the support of a numerous family, consisting of no less than 14 children. Whom God preserve! and towards whom, together with their tender and affectionate mother, I humbly presume most earnestly to entreat your Lordship to look hereafter with a charitable and compassionate eye—when it shall please God to remove me from them—as I am advancing in years—as the high price of provisions and the great burthen of taxes render my income comparatively small—as many of my children are young, and must, without an uncommon interposition of the divine providence, be left unprovided for—my present income being scarce adequate for the most economical disbursements.

18. The money given at the offering is disposed of by the minister, chiefly to the aged poor and needy, particular regard being had to those who frequent the communion—not absolutely excluding the sick, at the same time. Who appear to be in great distress though perhaps they may not have been communicants—especially if they are disposed to become such during their illness.

19. If any other matter relating to this parish should hereafter occur of which it may be proper to give your Lordship information, the opportunity and encouragement intimated in this query of communicating the same to your Lordship, from time to time, and in due time, will be thought an honour by, my Lord, your Lordship's most dutiful and most faithful humble servant, James Mayo, vicar of the united churches of Avebury and Winterborne Monkton

Calne, 24 July 1783

First instituted to the vicarage of Avebury in the year 1746—but proceeding no further in the university than the degree of B.A.—consequently not being qualified to apply for a dispensation—the vicarages of Avebury and Monkton united being at the same time considered as above value in the King's Book—was re-instituted to Avebury with Monkton—on a cession or rather avoidance, occasioned by my possessing myself of the small rectory of Ditchridge, otherwise Ditchbridge—by instrument bearing date 1 July 1767. 16 BIDDESTONE f.137

The Visitation at Chippenham, Wednesday 30 July.

1. At eleven o'clock and three alternately. This service has always been usual, the benefice very small.

2. Only the greater festivals, and that since my own incumbency, the inhabitants being engaged in their daily labour.

3. As incumbent.

4. I serve another small cure, my own likewise at about 4 miles distance, viz. Littleton Drew.

5. At Easter, Whitsuntide, Michaelmas, and Christmas.

6. About twenty. They are increased nearly double.

7. No.

8. Few or no dissenters but more who absent themselves.

9. In general they do. I expound to them myself in the mother tongue yearly between Easter and Whitsuntide.

10. The register books are regularly kept and the returns regularly made by myself. The oldest register of Bidstone I know goes back to the year 1688. That of Slaughterford to 1700.

11. There is.

12. No chapels of ease. Two ruined chapels, one at Bidstone St. Peter, the other at Slaughterford.

13. I have with the assistance of the respectable part of the parishioners obtained (I believe) a much more certain terrier than any preceding and which is here sent. But some deficiencies remain with respect to the discrimination of the distinct (though indeed inconsiderable) parish of Bidstone St. Peter. No augmentation, though till I took to it the whole hath not exceeded in general £35 per annum. It is since raised, during a temporary agreement.

14. None.

15. Yearly at Easter. One by the minister, the other by the parishioners.

16. No.

17. There is no parsonage house but a cottage set forth in the terrier. I reside

about a mile distant at Corsham alms-house, where I read daily prayers to
the almspeople (in number six) and attend to instruct such a limited number
of free boys as shall offer my salary—£20 per annum. But the better sort of
people are above the charity and the lower unable to afford the loss of their
children’s labour.
18. These offerings were introduced here by the present incumbent who
distributes them in beef to 20 poor families at Christmas.
19. Not that I now recollect.

17 BISHOPSTROW f.145

1. Divine service is performed twice every Lord’s day unless anything very
particular happens to prevent it. Prayers in the morning at half past ten,
prayers and preaching in the afternoon about half past two.
2. Divine service is generally performed in my church on holidays, if a
sufficient number appear to make a congregation; which does not always
happen as I often meet only the clerk at the church. Passion week is regularly
observed, with a sermon on Good Friday.
3. I perform divine service as incumbent.
4. I do not serve any other cure.
5. The holy sacrament is administered four times in the year: Christmas day,
Easter day, Whitsunday, and the Sunday next after St. Michael.
6. The number of communicants are generally about fourteen. I cannot
ascertain the exact number which communicated last Easter.
7. Not one reputed papist in my parish. No place in my parish in which they
assemble for divine worship. No popish priest resides in my parish, nor resorts
to it, neither is there any popish school kept in my parish.
8. There are no Presbyterians, Independents, Anabaptists, or Quakers in
my parish. No place made use of for divine service but the church, and is
generally attended by a very full and decent congregation. There are some who
do not attend the public worship so frequent as could be wished, but none,
that I know of, who profess to disregard religion.
9. They do not, but have desired them for the future duly to send them to me,
and I will do my endeavour privately to instruct them that they may be able
to make a good appearance in the public church in the time of Lent, the usual
time of catechizing. Have made use of no particular exposition, but do at
times in my sermons endeavour to explain parts of the catechism.
10. The register books of births and burials are duly kept and in good
preservation; and the returns of births and burials are regularly made into
the registrar’s office. The register goes back to the 25 March 1686.
11. There is a register book duly kept according to the direction of the Act
of Parliament against clandestine marriages.

12. There is no chapel of ease in the parish. We have only one church, which is in good condition.

13. Have no account of any houses, lands, tithes, pensions, or profits. Have now endeavoured to procure a perfect account of everything belonging to me as minister of this parish and will take care that the same be laid up in the bishop's registry.

14. We have no free school, alms-house, hospital, or other charitable endowment in the parish. We have no lands or tenements left for the repair of the church, or for any other pious use.

15. The churchwardens are chosen every year in the Easter week, one by the minister, the other by the parish.

16. There never was any public school founded in this parish; neither is there any charity school here.

17. I have constantly resided in my parish and in the house belonging to the rectory till the latter end of the year 1782 to the May following, during which time my health obliged me to make Bath my residence, being so much afflicted with the gout as to disable me from doing the duty of my church; but took particular care to have my church regularly supplied morning and afternoon by a neighbouring clergyman; and the dampness of my situation in the winter, occasioned by the water-meadows that surround me, was another reason of my absence.

18. To the poor and sick of the parish, as occasions offer.

19. I do not know of any other that deserves your Lordship's attention.

20. I reside on my living and in the house belonging to it, which is distant from Warminster one mile, a post town.

13. We have.

14. We have neither free school, alms-house, or hospital, but there was a donation of 20s. a year given by Lady Howard to buy Bibles and Common Prayers by the direction of the minister. There is £5 a year left by will by a Mr. Wickes to be disposed by the churchwardens only for teaching ten poor children to read, and £10 a year by the same gentleman for the use of the poor of the parish by the minister and churchwardens every Christmas. It has hitherto been duly paid.

1 Clergy Books, 1783, give ‘Mr. Brook’ as curate.

15. Yes. One by the minister, the other by the parishioners.
16. No other than what is already mentioned. I myself give £5 5s., the parishioners give £5 5s. more towards instructing the poor children, in reading.
17. I have regularly resided every year, since the first I was inducted to the living, some months. In my absence the curate has a bed in the parsonage house. I have another living (Wellow) in the diocese of Winchester where I perform duty when not resident at Brinkworth.
18. Money is seldom collected. When any is collected it is distributed among the poor who attend.
19. Nothing that I know of.

6. Between thirty and forty: last Easter the same, less generally at Whitsuntide.
7. No papists in my parish, none perverted to popery, no place in my parish where they assemble for divine worship, no popish school.
8. There are no Presbyterians, Anabaptists, and but four Quakers who are poor people. There is a place erected for their worship to which they resort from other places. There are no persons who profess to disregard religion, but too many who in works deny it and absent themselves from all public worship in common with the rest of the kingdom.
9. The generality of the parish are so poor as not to be able to afford time to have their children instructed in reading; as soon as they are old enough, they are sent out to plough or spin for their living; so that I have been obliged to distribute halfpence every Sunday to these poor children to bring them to church, by which means they have learned by memory the Lord's Prayer, the Creed, and the Ten Commandments.
10. The register books are duly kept and returned. They go back to the time of the Reformation.
11. There is.
12. None.
13. I have a true and perfect account of houses, lands, tithes, and profits which belong to me, a duplicate whereof I am told is laid in the bishop's registry. There has been no augmentation since.
14. There is an alms-house supported by Sir Edward Bayntun at his own pleasure; no lands or tenements left for repairs but by a church rate.
15. Chosen in Easter week, one by the minister and the other by the parishioners.
16. There is no public school or charity school but two or three private ones.
17. I constantly reside upon this cure and in the house belonging to it. I now am never absent nor have been one whole year put together these forty-five years; and then I have taken care to have it supplied when secular affairs have forced me to London.

8. There are in this parish Presbyterians, Independents, Anabaptists, Methodists, Moravians, sectarists of almost every denomination, several of whom never appear at church. The rest, though occasionally coming there, are more constant frequenterers of unlicensed meeting-houses, and spend much of their time, to the great detriment and poverty of their families, in going after ignorant itinerant preachers.
9. The parishioners are negligent in sending their children to be catechized, the time usual for doing which in this parish is on the Sundays in Lent.

31 BULFORD

1. The service at Bulford is generally performed either at eleven or one but never twice on the same Sunday; it has never been customary.

11. A register is lately kept.
12. None.

35 CASTLE COMBE f.301 D. Malmesbury
1. Prayers are read at eleven o'clock in the morning, and at two in the afternoon. After the evening prayers follows a sermon.
2. Divine service is performed every saint's day at eleven in the morning, and on every other day for which an Epistle or Gospel is appointed.
3. As incumbent.
4. I serve no other cure.
5. Four times, viz. on Christmas day, on Easter day, on Whitsunday, and on the Sunday after Michaelmas.
6. Seldom more than twelve; which, I believe, was about the number last Easter. But I was at that time too ill to do any duty myself.
7. There is not one papist in this parish.

*£200 from Queen Anne's Bounty in 1723: Hodgson, p. 415.
8. We have none of any sect but Methodists; who about 20 years ago obtained from my predecessor in the manor a plot of ground, on which (contrary to their solemn verbal declarations before the execution of the lease) they built a meeting-house; which house is licensed. On this lease there are now two lives. There is no settled teacher. Some itinerant attends almost every Sunday and sometimes on a weekday. The number of attendants there is, I believe, much the same as from the beginning. There are several in my parish who, I have reason to think, commonly absent themselves from all public worship of God.

9. They never send their children for this purpose but when called upon so to do. I expound the catechism in a course of sermons. I choose the longest days in the year for this duty of catechizing, which is done in the mother tongue.

10. I answer the two first branches of this query in the affirmative; with respect to the last, here is no register that goes further back than 1653. From time to time it has been pretty regularly kept.

11. There is.

12. Here is no chapel of ease.

13. I have an authentic terrier of the lands, tithes, and profits belonging to the rector, which was taken in A.D. 1737. But whether there be a duplicate in the bishop's registry, I know not. A more full and particular terrier has just now been taken, and will be delivered in today at your Lordship's visitation.

14. See the answer to Q.16.

15. The two churchwardens are always chosen at the time mentioned, one by the minister, the other by the parishioners; this is the ancient custom.

16. There is an endowment left by one Parry, for the teaching of ten poor children of this parish, boys and girls indiscriminately, to read the scriptures. In strictness they are to be discharged at the age of seven years. The sum left by will was £100 but payment was delayed by the executor so long that the interest amounted to £20 more. For which entire sum of £120 an ancestor of mine gave a real security upon his estate here for the payment of £5 per annum for ever. This annuity has never failed to be paid punctually, either by my predecessors or myself, by quarterly payments. But the trust, I believe, has by some negligence been suffered to expire. And the nomination of the master or mistress is now left to the lord of the manor. In which capacity I do all I can to answer the purpose of the benefactor. The original deed of security is laid up in the parish chest.

17. I reside constantly upon this cure, not in the parsonage house but in the manor-house, which is equally near the church; or, however, the difference is very small.

18. It is always distributed by the minister among such paupers of the parish as he thinks most deserving and most in want of assistance.

19. Nothing more than what is expressed in the terrier.

Richard Scrope D.D. was instituted to the two rectories of Tubney and Aston Tirrold, Berks. (the former under value), 5 Aug. 1766 on the presentation of the president and scholars of Magdalen College in Oxford. And on 18 Dec. 1777 he was, upon his own petition, as patron, instituted to the rectory of Castle Combe, Wilts., having previously obtained a dispensation for holding the last mentioned rectory with that of Aston Tirrold. This last instrument bears the date 15 Dec. 1777. The said Richard Scrope was ord. D. 22 Dec. 1751 and ord. P. 24 Sept. 1752.

Richard Scrope. Castle Combe, 30 July 1783

36 CASTLE EATON f.309 D. Cricklade
1. I read prayers and preach in the morning at eleven o'clock; read prayers in the afternoon at three o'clock.
2. It is a small country parish, and no congregation would attend on weekdays, except a few particular ones.
3. As incumbent.
4. No, I serve no other church.
5. I administer the sacrament four times in the year, viz. Christmas, Easter, Whitsuntide, and about Michaelmas.
6. The number of communicants last Easter day was 23 or 24, rather more than usual.
7. None.
8. None. I know of no persons who profess to disregard religion; there are a few who too often absent themselves from the public worship of God.
9. I hear the children their catechism six Sundays in the year, beginning the first Sunday after Whitsunday and make use of an exposition printed at Oxford, which I think a good one. The author's name is not to it.
10. [a, b] Yes, and the returns duly made. [c] 1549.
11. Yes, duly kept.
12. None.
13. I have made a terrier.
14. None.
15. The churchwardens are chosen at Easter, one by the minister, the other by the parishioners.
16. None, nor any endowment or provision of that sort.
17. I reside at my living in the parsonage house the summer season, the remainder of the year at Fairford 3 miles from it, on account of its being a very low and wet place, and not agreeing with my health.
18. No collection is made, as I found no such custom.
19. None at all.

6 1749–87. Oriel Coll. Oxford 1747. He was unable to attend the visitation. 'I am still very weak, and unable to bear the least degree of fatigue, or much company,' he wrote to the bishop. 'Besides, my habit is so exceedingly relaxed, particularly in this hot weather, that I am sure I could not possibly support myself . . . Other parts of my duty I find myself equally unable to perform.' He was represented and his confirmation candidates presented by his assistant, James Pidding, rector of the neighbouring parish of Yatton Keynell, 232: Sarum Dioc. R.O., Misc. Vis. Papers, 8.
20. In my parsonage house, Castle Eaton, the summer season, in the winter at Fairford, which is the nearest post town.

37 GREAT CHALFIELD f.317

D. Potterne

Incumbent of Great Chalfield's answers to the following queries respecting his cure.

1. Divine service, viz. prayers and preaching, hath been performed, for time immemorial in my church, two Lord's days out of three; on one part of the day. Every third Lord's day it is wholly omitted. When it is in the forenoon, it begins about 10. In the afternoon at half after 2 o'clock. The reason why divine service hath not usually been performed twice every Lord's day, I apprehend, is because the rectory doth not afford the incumbent a competent maintenance.

2. Divine service hath never been usually performed on any weekday in my church.

3. As incumbent.

4. Besides my own church, I serve the cure of Holt and Atworth chapels, in the parish of Bradford; to which I am duly licensed. The former is at the distance of one mile, the latter about 3 miles from my church.

5. The Lord's Supper is administered 3 times in the year viz. Easter, Whitsun-tide, and Christmas.

6. The number of communicants last Easter and for many years past has been nearly equal, viz. 9 or 10.

7. There is no popish meeting, school, nor person of the popish communion.

8. There is no meeting-house belonging to any description of dissenters, and but one dissenter in my parish. There are none who profess to disregard religion; but some there are who too commonly absent themselves from public worship.

9. There being very few inhabitants, it hath never been usual publicly to catechize, in my parish.

10. We have such a register book, as far back as the reign of Henry VIII, from which returns are regularly made.

11. We have a register book of this description.

12. There are no chapels of ease nor ruinated chapels.

13. A duplicate of a terrier of my rectory was delivered to the registrar in the year 1671: since which my benefice hath been augmented with £400; an account of which hath been transmitted to the registry.

14. There is no charitable endowment, nor benefactions left for pious uses.

15. There is only one churchwarden chosen every Easter week by the parishioners.

16. There has never been any such school founded in my parish.

\* Letter missing.
\* In 1776: Hodgson, p. 416.
17. There is no house belonging to the minister. My constant residence is at Holt, about one mile from my church.
18. The communicants being most of them poor, there has never been any collection at the communion.
19. Nothing else proper to be communicated to your Lordship.
20. My residence is at Holt, the nearest post town to which is Bradford.

38 GREAT CHEVERELL f.323 D. Potterne
1. As I could not answer this question satisfactorily either to your Lordship or myself in so small a compass I took the liberty of explaining the nature of the duty in a letter to your Lordship;² and am much obliged to your Lordship for your very kind reply.
2. There is none, nor ever was [in] the late incumbent’s time except on Christmas day.
3. As the incumbent.
4. None but my other parish of Great [recte Little] Cheverel, which is adjoining to Little [recte Great] Cheverell.
5. At Easter, Whitsuntide, Michaelmas, and at Christmas, both in this, and likewise at my other parish. Eight times in the two parishes.

After this I speak to the audience in general for about a quarter of an hour, explaining at large and enforcing such passages of the catechism as the children have that evening repeated. [c] In spring and also in autumn for six Sundays successively. [d] In English. I give some of them Lewis’s Exposition of the Catechism³ to read at home.

16. [a] There has not. [b] In answer to this question I have enclosed Mr. Townsend’s will relating to it,4 which I procured from Doctors’ Commons, and printed, having been denied a copy of these clauses from Mr. Wadman of Imber, the executor. For many years no children have been sent there. The school-house is now in a ruinous condition, and nothing left in the will for the support of it. There are (the effect of your Lordship’s queries I presume) three children sent lately. I put twenty children to school at my own expense to a very good schoolmaster, who lives in Great Cheverell.

17. [a] I reside in the parsonage house of Little Cheverell eight months in the year. My curate, Mr. Roots, and his wife live in my parsonage house at Great Cheverell. [c] Four months. [d] Being advanced in life (now in my 68th year) and this situation at the foot of the downs being very bleak, I am obliged to remove in the winter season, and I then reside at Bristol Wells.

18. None has ever been collected, as the parish consists of cottagers, and very poor farmers.

19. If there were I should think it my duty to acquaint your Lordship.

20. At Little Cheverell; and the nearest post town is Devizes.

James Stonhouse,5 rector of Great Cheverell

I was presented to this living by the present earl of Radnor 5 Dec. 1779, and inducted on 12 Feb. 1780; but as to the date of institution I cannot ascertain it having been obliged to pack up that with many other papers of importance, letters, etc. in boxes on account of the number of workmen in my house; therefore cannot without very great inconvenience unpack and sort such a multiplicity of papers at present. I took my Doctor of Physic’s degree on 14 Jan. 1745, and was of St. John’s College Oxford.

My curate Mr. Roots6 was ordained 17 Oct. 1779 by the present bishop of Bangor, nominated to the curacy of Letterston. He was ordained priest on 24 Sept. 1780 by the present bishop of Winchester, then bishop of Worcester, being curate to Mr. Rollins of Pershore in that county,7 which was too laborious for him. He has been with me about two years, and an half. He is of Trinity College, Cambridge, but has not yet taken any degree.

20. At Little Cheverell; and the nearest post town is Devizes.

James Stonhouse, rector of Little Cheverell

I was presented to this living by the late earl of Radnor 4 May 1764, and inducted on 8 July 1764. But as to the date of institution I cannot ascertain it having been obliged to pack that with many other papers of importance, letters, etc. in boxes on account of the number of workmen in my house; therefore cannot without very great inconvenience unpack and sort such a multiplicity of papers at present. I took my Doctor of Physic's degree on 14 Jan. 1745, and was of St. John's College Oxford.
My curate Mr. Roots was ord. D. 17 Oct. 1779 by the present bishop of
Bangor, nominated to the curacy of Letterston. He was ord. P. on 24 Sept.
1780 by the present bishop of Winchester, then bishop of Worcester, being
curate at Pershore in that county. He has been with me about two years and
half, strongly recommended by the incumbent Mr. Rollins, whose duty was
too laborious for him. He is of Trinity College, Cambridge, but has not yet
taken any degree.

40 CHICKLADE f.339 D. Chalke
1. The service was but once on the Lord’s day before my residence, since
which (at present having no other cure) I have had it twice during the summer,
at 11 o’clock in the morning, and 3 in the afternoon. The sermon alternately.
2. Upon Good Friday.
3. As incumbent.
4. At present I serve no other cure.
5. Four times in the year, at Christmas, Easter, Whitsunday, and Michaelmas.
6. There are about 100 inhabitants only, including men, women, and children,
consequently the number of communicants are small, about 10 or 12 generally;
at Easter in particular there were only 10 owing to the principal family in the
parish being absent.
7. No papists.
8. None. [e] Two or three only.
9. Before I resided in the parish there was no school in it—consequently
but very few of the children as yet can say their catechism—as soon as they
have learned it I shall take care to hear them, and expound to them from
Archbishop Wake and Bishop Ken’s expositions.
10. There was no register book properly kept when I first came into the
parish in the year 1780. The parish have since provided one, and the births
and burials are duly registered.
11. Yes.
12. None.
13. The parish has been lately inclosed by Act of Parliament,9 a copy of
which Act was sent to the late bishop. The plan and award is kept in the parish
church.
14. None.
15. The churchwardens are chosen every year in the Easter week, one by the
minister and the other by the parishioners.
16. None.
17. I constantly reside upon this cure but not in the parsonage house. The
house I reside in was given me by the patron for that purpose, the parsonage
house being too small. The house I reside in is about a hundred yards distant
from the church and is in the parish. I never absent myself from my cure
above a month or five weeks, and that for the purpose of sea bathing once a
year.
18. By the minister and churchwardens to the poor.

19. I do not recollect any.
20. Chicklade. The nearest post town is Hindon.

41 CHILMARK f.353 D. Chalke

1. Divine service has been regularly performed every Lord's day; at half an hour after ten in the morning and at a quarter before three in the afternoon.
2. Divine service has not been customarily performed on any weekdays, but at the greater festivals: the inhabitants are mostly of the laborious class, and ordinary business would prevent their attendance on other days.
3. As curate to the Rev. Dr. Eyre.
4. I serve no other church, and am not licensed to Chilmark, being only engaged to serve the duty for a short space of time, till a gentleman is admitted to holy orders.
5. The holy sacrament has been always administered four times a year, particularly at the greater festivals.
6. There have been generally about fourteen communicants; last Easter, as near as I can learn, there were about 17 or 18.
7 & 8. From careful enquiries, I can hear of no persons in the parish who differ from the established church. [e] I know of no person in the parish deserving this distinction.
9. Three or four Sundays every year, but at no particular season, it has been usual to instruct the children in the Church Catechism, in the vulgar tongue. It has been continued this summer, and expounded by the assistance of Archbishop Secker's lecture; further I have taken every convenient occasion to preach on different parts of the catechism.
10. The register is duly kept, and the returns regularly made. The register commences in the reign of Charles II.
11. Such a register is duly kept and in good preservation.
12. There are no chapels in the parish.
13. There is a perfect terrier which bears the date 1704 signed by the minister and churchwardens. The living has undergone no alterations since the date of the terrier. [On a separate sheet of paper:] On the terrier: The rector is in possession of a very perfect terrier, the duplicate of which is lodged in the bishop's court. The terrier was made anno 1704, signed by the minister, churchwardens, and some of the inhabitants. Since that time the living has undergone no alterations. J. Bumpsted, curate. Chilmark, 3 Aug. 1783.
14. There is no free school in the village, or any other but a very inconsiderable day school.

1 St. Edmund Hall Oxford 1767.
2 Dr. Thomas Eyre, St. John's Coll. Oxford 1748. Rector of Fovant, 88, and chaplain to Lord Pembroke, the patron of both livings. There are many references to him and letters from him in both volumes of Pembroke Papers.
3 Thomas Secker, Lectures on the Church Catechism, published posthumously, 1769.
15. The churchwardens are chosen every Easter Monday; one by the minister, the other by the parishioners.
16. There is no public school in the parish.
17. Till within these few weeks the rector has resided in the parsonage house; since which, being on the point of resigning the cure, have not removed from the place I have hitherto resided in, viz. Wilton, 8 miles from Chilmark.
18. It has never been customary at Chilmark to collect alms at the administration of the holy sacrament.
19. Nothing that I can inform myself of.
20. I reside at Wilton near Salisbury.

Rev. Dr. Eyre, rector

42 CHILTON FOLIAT f.361

1. Divine service is performed in the parish church of Chilton Foliat, twice every Lord's day (viz.) both prayers and preaching at eleven in the forenoon, and prayers only at three in the afternoon.
2. Divine service is usually performed at Chilton upon no other weekdays but Christmas day, Good Friday, and Fridays in Lent, but this latter is at the option of the minister.
3. As curate.4
4. The present curate of Chilton serves no other church, nor is he licensed to the cure.
5. The holy sacrament of the Lord's Supper is administered at Chilton four times in the year, namely upon the three great festivals and the Sunday nearest the feast of St. Michael the Archangel.
6. The number of communicants has generally within the last seven years amounted to about 40. Last Easter their number seemed to be rather increasing.
7. None.
8. There are no professed sectaries of any denomination in the parish except one Quaker and his family consisting of nine persons. But there are many who absent themselves though not entirely yet in general from the public worship of God.
9. The parishioners do not send their children and servants to be instructed in their catechism by the curate. But there is in the village a charity school where the children of the poor are well instructed in reading, writing, and the Church catechism and brought to church every Lord's day in Lent to be examined publicly by the minister.
10. There is a register book of births and burials, but in no very good preservation, except for the last ten or fifteen years. The returns, as the curate believes, have been regularly made into the registrar's office. The first page of the oldest register extant bears date anno domini 1598.
11. There is.

* Rector, Dr. Edward Popham. See Lacock, 117, of which he was vicar.
12. [a] None. [f] None.
13. The curate humbly presumes that this quere may be more satisfactorily answered by the rector than by him. All that he can say is that the edifices upon the living are in excellent repair and the temporal interests of the church well attended to.
14. The curate humbly presumes that the answer to these queres as far as the parish of Chilton is concerned will come more properly under the 16th article of enquiry. [d] None.
15. They are. One by the minister, and the other by the parishioners.
16. There is a charity school founded for about 20 boys and girls, who are taught reading, writing, accompts, and their catechism. They are provided with books but not clothed, nor is there any other resource for them upon leaving school than their own industry. The revenues of the school which amount to something more than £20 per annum are at present under the management of Mr. Bigg, a gentleman of honour and character. And the attention and diligence of the present master make the the school more respectable than in former years.
17. The curate does not reside in the parsonage house nor within the parish but at Hungerford, something short of 2 miles distant from the cure. The reason for non-residence is that he is master of the grammar school at Hungerford.
18. The money collected at the offertory is deposited in the church chest and annually at Christmas disposed of to clothe or otherwise relieve distressed family or families who receive no assistance from the parish, at the discretion of the minister and churchwardens.
19. I know of none, my Lord.
20. Hungerford, Berks.

Divine service, both prayers and preaching, is performed once only on the Lord's day, in the morning and evening alternately. 53 COLERNE f.449 D. Malmesbury
1. Divine service, both prayers and preaching, is performed once on every Sunday at the hours of eleven in the morning and three in the afternoon, alternately. I serve the curacy of Ditcheridge once in every fortnight, and on the intermediate Sunday have frequently an opportunity of serving a friend who may be ill or absent.
2. Never except on Good Friday and Christmas day when a sermon is preached and the sacrament administered.
3. As incumbent.
4. The curacy of Ditcheridge, distant about one mile and half.
5. Four times in every year, viz. on Christmas day, Good Friday, Whitsunday, and the Sunday next before the feast of St. Michael.
6. At Christmas generally about twenty. On last Good Friday not more than eight or nine. The number has been less of late than usual.
7. No papist or reputed papist.
8. None to my knowledge.
9. No person comes to me to be privately instructed. The children are

catechized in the church in Lent or in the month of June when an exposition is read instead of the sermon for the day.
10. The register book is properly kept, and returns regularly made. It goes back to the year 1761.
11. There is.
12. No chapel of ease or ruined chapel.
14. [Blank]
15. The churchwardens have been usually nominated, one by the minister, the other by the parishioners. The same churchwardens have been tacitly continued 6 or 7 years.
16. No charity school.
17. I reside constantly at Colerne but not in the vicarage house.
18. To the poorest of the people when sick or in distress.
19. Nothing, as I believe.
20. Colerne, Bath.

54 COMPTON BASSETT f.457 D. Avebury
1. Divine service (prayers and preaching) is performed regularly every Sunday morning throughout the year, beginning usually about a quarter before eleven o'clock; and service twice a day (with prayers only in the afternoon) at 3 o'clock from the Sunday after Ascension day to Michaelmas. This has been the established practice in the parish for many years back.
2. Divine service is performed (but without a sermon) on Ash Wednesday, Good Friday, and Easter Monday in every year.
3. As incumbent.
4. I serve no other cure whatever.
5. Three times a year as follows, viz. Easter day, Whitsunday, and Christmas.
6. The communicants are generally about sixteen, but the number was considerably less at Easter last, owing to the casual absence of the two principal families from the parish, who when here seldom fail to communicate.
7. None, nor have any persons been lately perverted to popery, neither is there any place in the parish in which they assemble for worship. As to any popish priest either residing in or resorting to the parish, or any popish school kept here, I cannot learn there is either one or the other.
8. On diligent enquiry I do not find there are any of the sects mentioned in the question, neither are there in the parish any places for worship belonging to any other denomination of Christians.
9. I cannot speak with certainty to the articles of this question, having had

\(^5\) New Coll. Oxford 1766. New College were the patrons of the living. The Clergy Books, 1783, give Dr. John Oglander, warden of New College, as 'rector, without institution, by a modern Act of Parliament', i.e. 5 Geo. III, c. 11 (Priv.) 1765, 'An Act for annexing the rectory of Colerne, in the County of Wilts., to the Office of Warden of the College of St. Mary, of Winchester in Oxford'.

the living little more than a year, during the greater part of which I have been absent, obliged to it by an ill state of health and some necessary repairs wanting in the parsonage house, which have not long been finished. I will take strict care the duty of catechizing shall be duly performed in future, at the accustomed season of Lent. Bishop Wake's will be the printed exposition I intend making use of, and the examination will be in English.

10. There are two register books belonging to the parish: one, which is very old, commencing A.D. 1558 and ending about 1680, has parchment leaves, and considering its age is in decent preservation. The other is in tolerably neat condition, and begins A.D. 1681. The returns of births and burials are regularly made agreeably to the canon.

11. There is likewise a register book duly kept, according to the direction of the Act against clandestine marriages.

12. No chapel of ease whatever, nor any which is ruined.

13. On my induction your registrar sent me, pursuant to my letter for that purpose, a terrier, bearing date 22 Jan. 1704, Michael Geddes, rector. This instrument not only does not contain many particulars specified in the question and which are detailed more at large in your Lordship's instructions on this subject, but is now become in a manner useless, in consequence of an inclosure in the year 1725, whereby the lands belonging to the rectory, and which formerly lay in open common fields, were by certain allotments then made in lieu thereof very much altered both in point of quantity and local situation. The part of the glebe nearest to the house remains the same as before. Your Lordship will please to excuse my not producing a terrier this visitation, as I have not yet had the leisure to collect the proper materials, nor the information necessary to authenticate such a writing.

14. In this parish there is neither free school, alms-house, hospital, or other charitable endowment.

15. Yearly chosen in the Easter week; one churchwarden by the minister, the other by the parishioners.

16. Only a small day school (unendowed) where reading, writing, etc. are taught at a low price. The children are examined in the catechism once a week, and are otherwise instructed in Christian principles. They attend church, I believe, very constantly, at least those among the children whose parents or relations live in the parish.

17. In answer to the first article in the question, I can only say I reside (in the parsonage house) as much as my health and private circumstances will permit. My absence uncertain, it may be about 5 months. My father lives in The Grove at Highgate, where I may be heard of. In case I shall not be able to keep a longer residence, I intend to put in a resident curate, with which I hope your Lordship will be satisfied, as I am sure the parish will be. ⑨

18. The sacrament money is disposed of by the minister for the relief of the most necessitous poor in the parish.

20. [Blank]

⑨ Served by the curate of Yatesbury, 231, who lived in Calne.

55 COMPTON CHAMBERLAYNE f.465 D. Chalke

1. Divine service is performed in the church at Compton Chamberlain once every Lord’s day, alternately in the morning and afternoon; it is [not] performed twice on account of the small value of the living.
2. Divine service is [not] usually performed on weekdays, except on the more solemn occasions.
3. The cure is served by Mr. Smith,\textsuperscript{2} as assistant to R. Head, who was instituted to the vicarage 9 June 1748.
4. With Compton Chamberlain Mr. Smith serves the adjoining cure of Baverstock.
5. The holy sacrament of the Lord’s Supper is administered at Christmas, Easter, Whitsuntide, and Michaelmas.
6. At present I am not able to answer Q.6 with a proper degree of exactness; but have no reason to imagine that the number of communicants at Easter last was less than usual.\textsuperscript{3}
7. I believe there are no reputed papists in the parish.
8. I do not know of any dissenters in the parish, nor of any persons who profess to disregard religion.
9. I presume the children are duly catechized.
10. A register book of births and burials is duly kept; and I presume returns thereof are made into the registrar’s office. The register commenced in the year 1538 as I think, or at the original institution of registers.
11. A register book of marriages is duly kept.
12. There is no chapel of ease in the parish, nor any ruined chapel.
13. Two terriers of Compton Chamberlain are in the bishop’s registry. Augmentations to the value of £600 have been lately made to the living by the governors of the Bounty of Queen Anne,\textsuperscript{4} and by Charles Penruddocke Esq., the patron. These are not yet inserted in the terrier, as a purchase is in view.
14. There is no free school, alms-house, or hospital in the parish nor do I know of any other charitable endowment, except what is mentioned in the terriers.
15. The churchwardens are chosen about Easter by the minister and parishioners.
16. There is no public school founded in the parish.

17. I do not reside at Compton Chamberlain, but at Amesbury, a post town, twelve miles distant, for the convenience of serving the cures of Rowston and Durrington.

18. No money is usually given at the offertory.

19. I know of no other matter belonging to the parish of which it may be proper to give your Lordship information.

57 COLLINGBOURNE DUCIS f.481 D. Marlborough
1. Divine service is performed in my church twice every Lord’s day, very extraordinary occasions excepted, viz. at 11 o’clock in the morning and at 3 in the afternoon. Prayers and preaching in the forenoon, only prayers in the afternoon.
2. Only on principal holidays or festivals that happen on weekdays. It has been dropped on other saints days for want of a congregation.
3. As incumbent.
4. I serve no other cure.
5. Four times in the year, at the 3 great festivals, and at Michaelmas.
6. Never more than twenty, seldom as many. Most communicants at Easter. Twenty was about the number last Easter.
7. None.
8. None. I know of no persons in my parish who profess to disregard religion. There are some who too often absent themselves from the public worship of God.
9. I catechize the children in the afternoon of Sundays between Whitsuntide and harvest. To the bigger ones I give Lewis’s catechism, portions of which they learn by heart, and repeat to me at the same time.
10. I have, and the returns are duly and regularly made. The register goes back to 1653.
11. There is, and duly kept.
12. None.
13. I have in my possession a copy of an old terrier made in 1704. An exchange of lands lying in the common fields was made in the year 1775 by commissioners properly appointed. A true and exact account of the glebe lands belonging to the parsonage as settled by them will be delivered to your Lordship’s registrar, together with an account of tithes, and all dues, etc. [Written in the margin:] An account and measurement of the glebe lands was taken in the year 1748.
14. There is no free school, alms-house, hospital, or other charitable endowment in my parish. I have in my hands £11 11s. transmitted to me by my predecessor as charity money belonging to the parish; whence it came, or to what uses to be applied, I have never been able to learn. The deposit has been kept sacred in my hands, and by way of interest for it, I have for five and twenty years past put 6 or 8 poor children to school, who are taught to read, and are instructed in the Church catechism.

59 CORSLEY f.497

D. Wyle

[Written across the top of the bishop's letter:] The award for the terrier being not yet finally settled, the rector will transmit the particulars mentioned by his Lordship in his paper of directions the earliest opportunity.

[Written at the foot of the letter:] Before I had the honour of receiving this paper from his Lordship, I took occasion in my discourse on the Sunday when I read the Articles to tell my parishioners that the church would in future be more diligently attended to than it has been of late years, as his Lordship will observe in some of the answers to the following queries.
1. The church has not been served for many years back oftener than once on a Sunday, and that alternately morning and afternoon; the hours ½ past 10 and ½ past two. The reason I suppose to have been originally inattention, afterwards pleading custom, and thence concluding that because the church was served once for years back, therefore it ought not to be better served in future.
2. Only on Good Friday and Christmas day. But in future I purpose to serve the church twice in a week during Lent, all the Passion week, and the Mondays and Tuesdays in the Easter and Whitsun week.
3. As incumbent at Michaelmas next, when I shall be quit from my present engagement; in the meanwhile, the church will be served by whatever assistants I can from time to time procure.
4. At the time mentioned in the last answer it is my intention to attend entirely to this church, and serve no other, because I am of the opinion that every parish should have divine service twice every Lord's day; the neglect of this in general has been a great cause of the increase of meeting-houses.
5. Hitherto it has been administered only on the 3 great festivals: but from Michaelmas next it is my intention to administer the sacrament regularly the first Sunday in every month, and in every other respect to restore the discipline of the church as nearly to its primitive institution as the difference of times will admit of.

3 Clergy Books, 1783, give 'Mr. Huntingford' as curate of Brixton Deverill. See also 17.
6. About a score.
7. No papists in the parish, no popish chapel, nor priest. [e] None.
8. Presbyterians about 30 grown persons mostly of the lower class. Quakers none;
Methodists about 12. The Methodists are Wesley’s followers, have a licensed
house, but no regular preacher. The Baptists have a licensed house, a regular
preacher named Perrot licensed, and the Presbyterians attend a meeting-house
standing in another parish. I am sorry to say that there [are] 10 or 12 families who
live in total disregard to religion, and frequent no house of worship whatever.
9. Hitherto the parishioners have had no opportunities afforded them of
having their children and servants publicly catechized. But it is my intention
to catechize every Sunday, except on sacrament days.
10. [a] Yes. [c] To the year 1686.

the award is not yet finally settled.
14. None.
15. One churchwarden is chosen every year by the minister and parishioners
from the overseers, who the next year becomes senior churchwarden. collects
rates and pays all the church bills.
16. A dissenting minister, who preaches in another parish, keeps a school for
writing and reading.
17. I purpose to reside there two months in the year, which is as much as my
business at Warminster school will admit of. Warminster is not more than
4 miles distant from Corsley church, and so scattered are the houses of the
last mentioned parish, that I am almost as near to some of them at my house in
Warminster as if I resided at the parsonage house. Before the inclosing Act took
place the glebe of Corsley parish reached to within ½ a mile of Warminster church.
18. To the poor of the parish.
19. The communion table and appurtenances are by no means in that decent
condition which the sacredness of the place seems to require. It is not properly
set apart for religious uses, but is made use of also for the transaction of
parish business, at vestries. Neither the table, pulpit, or reading desk have
any cloth to them, which by a word only from his Lordship would be
immediately provided.5 Farmers care not for these matters, and pay very
little regard to decency in the house of God.

1. Every other Sunday in the afternoon, prayers and sermon. Divine service is served twice every Lord’s day within the two parishes of St. Sampson and St. Mary, Cricklade, and the church of St. Sampson’s is large enough to contain the inhabitants of both parishes, but the pews in general as well as the reading desk and pulpit is much out of repair, in Cricklade St. Sampson, the boards in some of them rotten and broke away from the earth, and if I have not been explicit in this particular in my presentment for Cricklade St. Sampson I wish to be so now.

4. I do not serve any other cure.
5 & 6. The holy sacrament of the Lord's Supper is administered four times in the year: on Easter Sunday, Whitsunday, the Sunday after Michaelmas, and Christmas day; and at Monckton Deverel on the Sunday after each of the above days. There are generally between fifty and sixty communicants at Deverel, and between ten and fifteen at Monckton. The same number at each place last Easter as usual.
7. There is no papist nor reputed papist in my parish or chapelry.
8. There are about thirty families who are Presbyterians or Anabaptists, all of the lower class. No Quakers. No Independents. There is no place in the parish made use of for divine worship by any sect of dissenters. The number of dissenters is rather decreased. There are too many persons in the parish who seemingly profess to disregard religion by commonly absenting themselves from the public worship of God.
9. My parishioners never send their children or servants to be instructed by me; nor do they send them to church to be examined in the catechism or hear
it expounded. I drew up an exposition of the catechism and took Archbishop Wake for my guide. I tried to examine the few children that came in Lent, but they were too young to profit by an exposition. I shall attempt it again next Lent.

10. There is a register book of births and burials duly kept, and in good preservation. The returns of births and burials are regularly made into the registrar's office. The register of births and burials goes as far back as 30 March 1682. There are some registers on loose pieces of parchment, but so defaced that little use can be made of them. They go as far back as the year 1561.

11. There is a register book duly kept, according to the directions of the Act of Parliament against clandestine marriages.

12. Monckton Deverel is a chapel of ease annexed to my living, but is a separate parish. Prayers and sermon every Lord's day in the afternoon. The estate belonging to it is mentioned in the terrier. It is distant from Deverel Longbridge about three miles. It is served by me as curate. There are no ruined chapels.

13. I have a copy of a very imperfect terrier given in by Mr. William Crofts without date. He was buried the 1 June 1683. No other terrier that I know of has been transmitted to the bishop's registry. I have kept a regular account of the glebe and tithes belonging to the living but there have been such frequent exchanges of land in the parish; and there has been a design of exchanging the tithes from land, which would make such a total change in the living that I should have deferred sending a terrier till that was completed if I had not received your Lordship's directions to send one at the ensuing visitation.

14. There is an alms-house in my parish founded by Sir James Thynne, ancestor of the present Lord Weymouth, for six poor men and two women of the parish of Deverel Longbridge and Monckton Deverel, who are to be members of the Church of England, and of the age of sixty years at least. The number of trustees as settled by the endowment are eleven and to be renewed as often as the number shall be reduced to four. The present trustees are William Buckler, Esq., John Wadman Esq., William Chaffin Grove Esq., Edmund Lambert Esq., Rev. Charles Wake, LL.D., Mr. John Bennett. The revenue is an annuity or yearly rent-charge of £80 payable out of Lord Weymouth's manor and rents of Deverel Longbridge and Monckton Deverel, which is regularly paid and constantly applied as directed by the founder. The statutes and orders are punctually observed, and the charity is in a very flourishing state.

15. The churchwardens are chosen on Easter Monday, one by the vicar and the other by the parishioners.

16. There is no public school nor charity school founded in my parish.

17. I reside in the vicarage house, when my health will permit me. My winter residence is at Bath, where I go for the benefit of the waters.9

18. The money given at the offertory is disposed of, some by the churchwardens and some by myself, to poor families where any of them are sick.

9 Clergy Books, 1783, give a curate, Mr. Goddard.
19. There is no other matter relating to my parish or chapelry of which it may be proper to give your Lordship information.

20. At Deverel Longbridge near Warminster, Wilts.

5. Four times, both at the church and chapel on the great festivals, and at Michaelmas.  
6. I am not a priest, and the rector alone has administered the sacrament. I therefore cannot ascertain the number of communicants but am informed they are about 70.  
7. There are, but no mass-house or popish priest; they go to Wardour, and no school.  
8. There are some Presbyterians amongst the yeomanry; but no other sectarists, and these I am told lessen in number. They have a meeting-house in the parish to which the Presbyterians of the neighbouring parishes resort. Their teacher’s name is Morgan, he lives at Tisbury.  
9. I was absent during the Lent season at which time the rector served the church.  
10. There is a register book of births and burials, and regular returns of each, I am informed, have been made into the registrar’s office. It commences at 1653.  
11. There is.

72 DOWNTON f.605 D. Wilton  
1. Divine service is performed, in Downton church, twice every Lord’s day; begins at ten o’clock in the morning, and at three in the afternoon, excepting once a month, when I officiate in the afternoon at Nunton chapel, belonging to this parish, then there is no afternoon service here.  
2. Only on Christmas day and three saints’ days following, Ash Wednesday, Good Friday, the Monday and Tuesday in Easter week, and Monday and Tuesday in Whitsun week.

Although over 80, Dr. Jackson set out in May 1783 to escort the young son of Lord Torrington to join his father in Brussels: Sarum Dioc. R.O., Misc. Vis. Papers, 8, Richard Jackson to Joseph Elderton, the registrar, 5 May 1783.  
2 Lincoln Coll. Oxford 1776. He succeeded his uncle as rector in 1796.
3. As curate.  
4. I serve no other cure. I had a licence for my last curacy, in the diocese of Norwich, but have served this curacy for near nine years without being required to have a licence.
5. On the festivals of Christmas, Easter, Whitsuntide, and Michaelmas; and two sacrament Sundays each festival, on account of the number of communicants.
6. About one hundred and fifty. Last Easter as many as usual.
7. There are only three or four reputed papists in this parish, elderly persons of no rank. Papists have no place of worship, priest, or school in this parish; nor does their number increase.
8. There are no Quakers in this parish, but there are some Presbyterians, Independents, and Anabaptists. I cannot exactly ascertain the numbers of each sect; but, I suppose, they may all amount to fifty. They have two meeting-houses, but have no constant and settled teachers, and a great many of them now frequently attend divine service in the church. I know of no persons in my parish who profess to disregard religion, but fear there are too many who neglect it, and who too commonly absent themselves from public worship.
9. The parishioners, by my request, send their children to church to be catechized, generally every Wednesday in Lent, when I hear them repeat and explain to them the Church catechism and ask them some questions, all in the English language; and have frequently upwards of a hundred.
10. We have a paper register duly kept, and the oldest in tolerable preservation, beginning in the year 1602. But no return has been made into the registrar's office for some years, nor required. A copy of the register is now returned for the year 1782.
11. There is.
12. The chapel of Nunton, about four miles distant from Downton, is served by the minister of Downton the first Sunday in every month, in the afternoon; and morning and afternoon, four times in the year, when the sacrament is administered. There is no estate or fund appropriated for its maintenance, but Nunton is considered as appertaining to the parish of Downton, and pays vicarial tithes accordingly. No ruined chapels.
13. I can make no answer to this question, as Mr. Lear, the vicar, is not now at Downton, for reasons assigned by him in a letter to the bishop; and do not think myself competent, as curate, to make out a new terrier, especially as I have been lame, by an accident, for more than three weeks and shall with great difficulty be able to attend his Lordship's visitation. But have no doubt that Mr. Lear will readily furnish the bishop's registry with everything required when he shall be able to return to Downton.
14. There is a free school at Downton, for twelve boys, founded by the Eyre family of Brickworth; present governors and trustees, John Eyre Esq. of Landford, Captain Eyre of Brickworth, and the steward of the lord of the manor. For the support of it are the profits of two fairs, a school house for

the master rent free, and the interest of £130; amounting in all to £25 per annum.
15. The churchwardens are chosen every year, on Easter Monday, by the minister and parishioners together.
16. There is no public school or charity school in this parish but the free school before mentioned.
17. I do constantly reside on this cure, and in the vicarage house till within these three months, as the vicarage house was intended to be thoroughly repaired.
18. Part of the money is distributed among the poor communicants at the communion table. The rest I distribute to poor objects within the parish, as they occur.
19. I know not of any.

   1. Divine service is performed in the church at Durrington once every Lord's

1. Prayers and sermon twice every Sunday unless there is a sacrament. In that case a sermon only in the afternoon.
2. Prayers every Wednesday, Friday, and Saturday, and likewise on all holidays and festivals. A sermon the first Friday in every month; one on 30 January and another on 7 September before the corporation.

7. None that I know of.
8. Two Presbyterian meeting-houses, and one for Methodists.
9. The laudable custom is impracticable, unless the incumbent could afford to keep an assistant or two; but this the uncertainty and the smallness of the income will not permit of. I distribute many little tracts amongst my parishioners, principally The Christian Monitor and Gibson on profaning the Lord’s day.⁷
10. A register book of births and burials is regularly kept.
11. Yes.
12. None.
13. There are no houses, lands, tithes, pensions, or profits belonging to the minister of this parish, but what arise from the charitable contributions of the parishioners, except Queen Anne’s Bounty £8 18s. for preaching the Friday’s sermon mentioned in the second answer, and the common surplice fees; which for so extensive and populous a parish are very inconsiderable.
14. There are 4 alms-houses. 1st Eyre’s for 6 women, 3s. 6d. per week. 2d Mr. Christopher Eyre’s for 6 men and their wives at 2s. 6d. per week.

1. Twice during the summer, and once during the winter season, at ten in the morning and 3 in the afternoon.
2. Divine service is performed on Christmas day and on Good Friday.
3. As curate. 1
4. I serve the cure of Broad Hinton and the chapel of Berwick Bassett, three mile distant from each other. I have taken no licence.
5. Four times: at the festivals of Christmas, Easter, and Whitsunday and about Michaelmas.
6. From 20 to 35; at last Easter about 35, which I believe is more than the usual number.
7. We have no reputed papists, and of course no popish school or place of worship.
8. There are at present no dissenters of any denomination. At the time I engaged the cure I understood the Methodists held occasional meetings in the parish, but they have long since discontinued them. I do not know that there are any who professedly disregard religion; but there are many who commonly absent themselves from public worship.
9. The totally illiterate seldom are sent, or come, for private instruction. Those young persons in the parish who have had the advantage of being taught to read etc. are catechized at church on Sundays during Lent.
10. The register book is duly kept and in good preservation, and copies are annually taken. The register of births and burials extends back as far as 1588.
11. Yes.
12. There are no chapels of ease etc.
13. There is a terrier, bearing date 1671, signed by the registrar. I do not know that there has been any augmentation made to the living since that time.

reading, writing, and accounts, founded by Thomas Benet Esq. of Salthrop in this parish. The endowment £20 per annum. The trustees are the owner of the land from which the endowment is paid and the incumbents of five neighbouring parishes. The salary is regularly paid to the master; and I believe the regulations concerning the school are duly observed. There is another charitable institution of £8 per annum formed from various benefactions formerly given, and applied annually to the purpose of apprenticing a child of some poor inhabitant of the parish. The trustees are A. Goddard Esq. and the vicar of Wroughton, and I believe W. Codrington Esq. and Mr. Bathe (one of the churchwardens) have been lately elected. There besides are some other benefactions, left for the benefit of the poor.

15. The churchwardens are chosen annually in the Easter week; one by the minister, and the other by the parishioners.

16. There is no other charitable institution of this kind but that mentioned under article 14. At the said school the children are instructed in the principles of the Christian religion, as explained in the Church catechism, and regularly brought to church.

17. I reside in the vicarage house.

18. By the minister, with the assistance of the churchwardens, to the most deserving among the poor; or to those in greatest distress, from illness, number of children, etc.

14. The alms-house founded by Adelais wife of Henry I, 1124, for two old widowers and two old widows of Wilton; the endowments are small, but equal to the expenses. They arise from the rent of lands appropriated to that use and preserved by the rector of the parish, who is the prior, and has the direction and management of the revenues, who carefully attends to the diligent observance of the statutes entrusted to his care.

D. Chalke

1. Once: at half after ten in the morning, and at two in the afternoon alternately. Divine service has been performed only once a day for many years past, probably owing to the smallness of the parish and its vicinity to Fonthill Gifford and Berwick St. Leonard.

2. Only on Sundays.

3. As curate. 2

4. Two others, Fonthill Gifford and Berwick St. Leonard; the latter parish adjoins to Fonthill Bishop and the churches are only half a mile asunder. Not licensed by the bishop.

5. Four times, at Easter, Whitsuntide, Michaelmas, and Christmas.

6. Generally from ten to fifteen. At Easter last near twenty communicated, a greater number than I ever remember.

7. None.

8. [a] There is only one Presbyterian family in the parish, consisting of a man and his wife, who sometimes attend the church, but generally frequent a meeting in the parish of Tisbury. [e, f] I believe there are none.

9. As there are very few children in this parish, and fewer in that of Berwick St. Leonard, and the church of Fonthill Gifford is so near, I have not catechized them separately in these two parishes.

93 GARSDON f.769

1. Divine service is performed at Garsdon from Michaelmas to Lady day at 10 o'clock in the morning and from Lady day to Michaelmas at 2 o'clock in the afternoon, and the service at Lea, which is a vicarage annexed to Garsdon, is at Lea in the afternoon for one half year, and in the morning for the other half year, according to ancient usage.
2. No.
3. Divine service was lately performed by Mr. Davies, 4 who hath lately resigned on account of ill health.
4. There was no other curacy served by him and he was licensed.
5. Three times in every year, viz. at Christmas, Easter, and Whitsuntide.
6. The stated number of communicants at both parishes is about ten, and their number for some years past has been upon the increase rather than the decline.
7 & 8. To all queries I answer in the negative, as there are no dissenters of any denomination whatsoever in either of the parishes. I wish I could add that all within their precincts live under the habits and influence of our most holy religion and attended upon the services of our excellent church more constantly with proper views and from right motives.
9. Such as used to send their children had them catechized in Lent, when the Church catechism was explained to them by plain questions suitable to their capacities; but it is to be lamented that parents and heads of families pay but little regard to this necessary duty, however they may be reminded of their obligation to it.
10. There is a register book duly kept in each parish, but neither goes further back than the year 1752 when the clerk's house was burned down and the books were consumed with it.

3 See 14.
11. There is a marriage register book kept in each parish according to the directions of the Act of Parliament against clandestine marriages.
12. To all these queries I answer in the negative.
13. A terrier is now made according to your Lordship's directions, a duplicate of which will be left with your Lordship's registrar. No augmentation hath been made to the living for time immemorial.
14. All these queries I answer in the negative.
15. The churchwardens in both parishes are chosen every year by the parishioners in the Easter week.
16. There is no school in either of the parishes.
17. The succeeding curate is to reside in the parsonage house at Garsdon.
18. There is no money collected at the sacrament.
19. I know of no other matter respecting my parishes of which I can give your Lordship any further information.
20. I reside at Weyhill, Hants, and the nearest post town is Andover.

1. Divine service, both prayers and preaching, is performed every Lord's day morning and afternoon alternately at the mother church and chapel of ease, about the hours of 11 and 2.
2. No; for this reason, that no person will attend, the inhabitants wholly consisting of labouring people.
3. As incumbent.
4. No; but see Q. 17.
5. Three times in the year; at Easter, Whitsunday, and Christmas day.
6. Generally about 8 or 10, seldom more or less.
7. I answer in the negative to all these questions.
8. There is no dissenter of any denomination in the parish; nor are there any persons that profess an open disregard to religion, that I know of; there are some few that seldom come to the parish church.
9. None have been sent to me since the latter end of the summer 1782. When they come, I expound to them myself in the vulgar tongue.
10. There is a register book duly kept and preserved. The churchwardens will make the returns of what has been neglected. The register goes back to the year 1717.
11. There is.
12. There is one chapel of ease, of the name of Plaitford, distant about 6 miles from the mother church. It is served by Mr. Watkins, who reads prayers and preaches there every Sunday, morning and afternoon alternately. It is maintained by the tithes of the parish.
13. I have the best account I could get, but no duplicate has been laid up in the registry, as some part of it has been doubted, and I fear will require a

**95 G R I T T L E T O N  f.785**

D. Malmesbury

1. Divine service is performed at eleven and two of the clock on Sundays. The sermon is always delivered in the afternoon except on sacrament days.
2. Divine service is performed on Christmas day and on Good Friday but on no other holidays or festivals.
3. The service is performed by the incumbent.
4. I serve no other cure except occasionally when I am requested so to do by my friends or neighbours.
5. The holy sacrament is administered four times in the year, viz. on Christmas day, Easter Sunday, Whitsunday or Trinity Sunday, and on the Sunday next after Michaelmas day.
6. The number of communicants is generally about ten or twelve. On Easter Sunday last I had only eight, which was owing to the absence from home of a most respectable gentleman and his family.
7. I believe no papist has resided in this parish within the memory of man.
8. There is in my parish a meeting-house for Anabaptists. It was built about twenty years ago and is endowed with the interest of some money and a dwelling house for the teacher. The present teacher's name is Mosely, who is licensed. Only one small farmer and some of the meaner persons of my parishioners are of this sect, their number about fifty. Of Quakers there are only one family which consists of three persons. I believe there are no persons who absent themselves from public worship.
9. Catechizing in the church has not been practised I believe during the incumbency of my two predecessors. Such as I catechize privately I use the Church catechism and give such comments as I judge necessary.
10. I have kept an exact account of births and burials during my incumbency.

which commenced in 1763, and returned regularly a copy to the register. I have a very distinct old register book on vellum which commenced in 1653 and ends in 1719, from which time neither of my two predecessors kept a register book.

11. The register book is duly kept as the law requires.

12. There are no chapels nor any traces of such in my parish.

13. There are three terriers of the rectory of Grittleton in the registrar's office at Salisbury but all very imperfect ones. By a decree in the Court of Exchequer in 1770 the rector is in possession of all the tithes due of common right. He has built an entire new house with suitable offices. He has therefore delivered this day to the register a terrier conformable to the directions he received with this.

14. There is no free school, alms-house, or hospital. There is £1 a year charged on lands left for ever for the repair of part of the church which is railed off with iron rails, being the burying place of a Mr. Houlton and his family. His heir, the rector, and churchwardens are the trustees. The interest of £150 vested in the 3 per cent consol. left by divers persons is annually distributed by the rector and churchwardens to such persons who most want it and have no relief from the parish.

15. The churchwardens are annually appointed every Easter Monday. The present rector has, as the majority of the parishioners are his tenants, appointed all parish officers, but this he believes is only by courtesy and that the nomination of the churchwardens is one by the rector and the other by the parishioners.

16. The is no public school. The teacher of the Anabaptists receives, I believe, the interest of £100 for the teaching of some children of that sect but under what particular conditions I do not know.

17. My only place of residence is at my parsonage house at Grittleton. I am never absent except occasionally and this so seldom that I have only been from home one Sunday in the course of the last two years. I am sometimes by connections and business in London and by property in the north of England called from home. Whenever this has happened I have always had the cure regularly attend to by some of my respectable neighbours or by a curate.

18. I always distribute bread to the amount on the following Sunday, after divine service at church to the poor who are most regular in their attendance there.

19. I do not recollect at present any circumstance worth notice. If any matter hereafter occurs I will take the liberty to apprise your Lordship of it.

20. Grittleton near Chippenham, Wilts.

I am, my Lord, your Lordship's most obedient servant,

instituted by him the day following into the rectory of Grittleton in the county of Wilts.

96 HAM f.793
1. Divine service is performed at Ham twice every Lord's day. In the morning at eleven o'clock, the morning service according to the liturgy, and a sermon. In the afternoon at three, the evening service, and no sermon.
2. Divine service is performed in the church of Ham on no weekdays, holidays, or festivals that happen on weekdays.
3. As curate.¹
4. The curate of Ham serves no other cure. He is not licensed to the cure which he serves.
5. The holy sacrament has been constantly administered at Ham four times a year, viz. on the great festivals and as near as may be before or after the feast of St. Michael the Archangel.
6. The present curate of Ham officiated there for the first time on the 4 May last. At Easter there were ten communicants; the curate is informed that the number of communicants was greater when alms were collected and distributed at the Lord's table.
7. None.
8. None of these descriptions are in the parish of Ham, to the best of the curate's knowledge and information.
9. The curate proposes to catechize such children and servants of the parishioners as shall attend, once in each month, in the English language, and occasionally to expound the catechism in his sermons according to his poor ability.
10. There is a register book of births and burials commencing 27 Nov. 1720 and none of earlier date. The only remaining book seems to have been carelessly kept and ill preserved. Of the returns the present curate can be no judge. The registrar's office will best answer that part of this question.
11. There is a marriage register but the curate presumes that the form in which the entries have been made are by no means conformable to the Act of Parliament against etc.
12. None.
13. The curate cannot find any terrier whatever. The rector of Ham proposes, with the assistance of the churchwardens and principal inhabitants, to make a true and perfect terrier and to transmit the same to my Lord Bishop.
14. None.
15. The curate is informed that the churchwardens are duly chosen every Easter week, one by the minister or his nominee, the other by the parishioners together.
16. None.
17. The present curate resides at Hungerford at the distance of near four miles. The principal reasons for his non-residence are the inconveniency of

furnishing the house and the conveniency of living near his friends. He proposes, however, to occupy part of the parsonage house before next winter.

18. The curate finds that the custom of collecting money at the offertory has been for some years discontinued. The small offertory made by the curate at Easter last was delivered to the parish clerk to be by him given to a needy person.

19. I do not recollect any other matter for your Lordship's attention.

11. A marriage register is duly kept.

12. No chapel of ease.

13. I believe there is no terrier in the parish but that there is an old one in the registry of Sarum.

14. No charitable endowments of house or land.

15. The churchwardens are chosen at Easter, one by the vicar, one by the parishioners.

16. No charity school.

4. I serve Highworth every Sunday evening at ½ past 3 and Blunsdon within 3 miles of it alternately with the chapel of Hannington. Not licensed.
5. At Easter, Whitsuntide, and Christmas I administer the sacrament at each.
6. At Hannington about 8 or 10 generally. At Blunsdon (a small place) about 12 or 14. No difference that I recollect at Easter.
7. Nothing of the sort in either Blunsdon or Hannington.
8. [a, b, c, d] The same answer as above will hold good respecting these enquiries. [e, f] None, but many that absent themselves.
9. In the present printed form of catechism once a year.
10. [a, b] The register book is properly kept, and the returns to visitations regularly made. [c] About 100 years at Hannington.
11. Yes.
12. [a, b] I mentioned above there is a chapel belonging to Hannington and how served. [c] By the will of one of the Frekes there was about £20 allowed but I rather think it was given chiefly to increase the value of the mother church. [f] None.
13. I can't with propriety answer these queries, as I don't know where the vicar is at present.
14. There is a kind of school designed for 8 poor children who are taught reading but not writing. The salary is very small, about £6 per annum, bequeathed by one of the Freke family.
15. Regularly in the Easter week they are chosen, one by the curate or vicar, the other by the inhabitants.
16. There is a sort of charity school, but I have heard the endowment (which is only £8 per annum for teaching about 8 children in reading) was improperly made, and the present owner of the estate may at pleasure overthrow it. However, at present it is kept on in its pristine fashion. They are clothed and apprenticed to different handicraft trades.
17. [a] I do not. [b] I live near at hand at Highworth, about a mile off.
18. No money is ever given.
19. None.
20. Highworth, a post town.

2. No services but on Sundays except on Christmas day and any public occasion.
3. I perform divine service as incumbent.
4. I serve another church, of which I am incumbent, about four miles from this parish.°
5. The sacrament is administered at Christmas, Easter, and Whitsuntide.
6. Not more than six communicants in general; six communicated last Easter. It has sometimes happened that I have not had one.
7. No papist in the parish.
8. No Presbyterian, Independent, Anabaptist, or Quaker in the parish. My parishioners are attentive to their duty.
9. The parish is very small; no children to be catechized.
10. The register book is duly kept, and in good preservation, and regular returns made of births and burials as the canon requires. The register book goes back to the year 1739.
12. No chapel of ease in the parish.
13. I have an account of the tithes and glebe lands belonging to the minister of the parish, but no regular terrier. The lands are so intermixed with other people's property that considerable time will be necessary to ascertain the boundaries. The moment it can be done, a terrier shall be made.
14. No free school, alms-house or any charitable endowment in the parish.
15. The churchwardens are chosen every year in the Easter week, by the minister and parishioners together.
16. No school in the parish.
17. I do not reside in the parish but at Stanton St. Quintin, four miles from it. The parsonage house is a poor cottage.
18. No money given at the offertory.
19. I know of nothing more relating to my parish necessary for your information.

100 HEDDINGTON [Headington] f.823
D. Avebury

1. This church is served alternately, divine service at 11 o'clock in the morning, and at 2 o'clock in the afternoon. The reason why the church is served but once a day is the lowness of the stipend which is but £20 a year. Another reason is the badness of the roads.
2. None.
3. As incumbent.

° Stanton St. Quintin, 184.
¹ Trinity Coll. Oxford 1767.
4. I serve the cure of Stanton only, about six miles distance. I took out a licence for this cure, when ordained deacon, and was allowed by the bishop £40 yearly and to be paid quarterly, whereas now I have no more than £20 yearly.

5. The sacrament is administered four times in the year, viz. Easter, Whit-sunday, Michaelmas, and Christmas.

6. There are generally about thirteen communicants attends, there were at Easter last fewer than usual, by reason some went to visit their relations, who live out of the parish.

7. [a] I can with pleasure and satisfaction say there are none that go under that name. [b] None. [c] None. [e] None that I can find, from the strictest enquiry.

8. [a] There are none such that go by that appellation. None. None. None. There are one or two deluded people called Methodists. [f] There are a few that seldom or ever come to church, and I believe have not been at the house of prayer for years past.

9. Yes, I expound the Church catechism to them. I make use of Dr. Secker's, late Archbishop of Canterbury's, excellent lectures on the catechism of the Church of England. I catechize all the Lent, and that in the mother tongue.

10. Yes, and I make regular return of births and burials at every visitation. My register goes as far back as the year 1539.

15. Yes. One by the minister, and the other by the parishioners.

17. No, I reside at Stanton, about six miles distance. I have resided at Stanton 20 years and upward. The reason is because the house is in a ruinous condition, and all the buildings thereunto belonging, and therefore dangerous and unfit to be inhabited. Another reason is because my wife could not enjoy her health there, and for that reason was advised by her physician to seek a healthier situation, otherwise her life would be in danger.

18. There is none collected.

2 Stanton St. Bernard, 182.

3 An Act for the better maintenance of curates . . ., 1713, 13 Anne, c. 11 (12 Anne, St. 2, c. 12 in Ruffhead), gave bishops the power to prescribe stipends for curates of £20-£50 a year, according to the value of the benefice, where the incumbent was non-resident, but the excess of curates over cures in the 18th century always made the Act difficult to enforce. The stipend of £20 was presumably paid him by the absentee vicar of Stanton St. Bernard.

1. Divine service is performed once a day, viz. at eleven o'clock in the morning in the winter season, and at three in the afternoon during the summer. 4. I serve the church of Pertwood once a fortnight, a mile from Hindon. In the intermediate space I serve Teffont Evias in the morning. I have no licence to this cure.
5. The sacrament is regularly administered, at Christmas, Easter, Whitsuntide, and Michaelmas.
6. There are in general about 20 communicants. They are increased from three or four to the number specified.
7. There is one family of reputed papists consisting of three persons, the master of which is a surgeon and apothecary. They have no public place of worship in this parish, nor is any popish priest resident in it, neither any popish school kept.
8. There are no Presbyterians, Independents, Anabaptists, or Quakers in this parish.
9. The children and servants are catechized in Lent and at other convenient times.
10. There is a register regularly kept of births and burials, in good preservation.
11. It has not been usual to marry in Hindon, the parishioners of which always are married at Knoyle.
12. This is a chapel of ease to East Knoyle.
13. There is no terrier belonging to this chapel to be found at Hindon, it being tithable to East Knoyle.
14. There is a free school endowed by William Beckford Esq. The master's name is Thomas Ransom.
15. [Blank]
16. There is no school but what is mentioned in the 14th article. It is supported by Mr. Beckford's contribution alone for poor boys and girls. They are instructed in the principles of the Christian religion.
17. I reside the major part of my time at Hindon [when the rector of T² is absent crossed out] but not in the parsonage house.
18. The minister distributes the money given at the offertory to the poor communicants.
20. Partly at Hindon and partly at Fovant. The former the nearest post town.

104 BROAD [Great] HINTON f.855
1. Once, at half after eleven in the morning, and at half after two in the afternoon alternately. The smallness of the living may probably be one reason that it has not been usual to perform divine service twice on the Lord's day.
2. Divine service is performed on Christmas day and Good Friday.

¹ Hindon was a free chapel to East Knoyle, 115.
² Teffont? See note 3.
³ Brother of James Evans, curate of Fovant, 88, and Teffont Evias, 195. For the complicated arrangements whereby the Evans brothers between them served Fovant, Teffont Evias, Hindon, and Pertwood see above, p. 9.
3. As curate.  
4. I serve the cure of Wroughton and the chapel of Barwick Bassett, each three mile distant from Broad Hinton.  
5. Four times: at the festivals of Christmas, Easter, and Whitsunday, and about Michaelmas.  
6. From 20 to 30; at last Easter the number might be about 25. I have known a greater number attend at that season.  
7. There are no reputed papists, nor consequently is there any popish school or place of worship etc. in the parish.  
8. There are no dissenters of any denomination in the parish, nor do I know that there are any who professedly disregard religion, but I fear there are several who commonly absent themselves from public worship.  
9. The youth of the parish are catechized at church on Sundays during Lent. The totally illiterate are seldom sent, or come, for instruction.  
10. The register book is duly kept and in good preservation, and copies are regularly sent to the visitation. The register of births and burials extends back as far as 1682.  
11. Yes.  
12. No chapel of ease.  
13. There are copies of terriers of different dates, the originals of which are, I presume, in the bishop's registry. I do not know that any augmentation has been since made to the living.  
14. There is a school for the instruction of the poor children of the parish in reading, writing, and accounts; founded by Thomas Benet Esq. of Salthrop Wilts., in the year 1743. The original endowment. £20 per annum. In 1751 the same benefactor gave, for the use of the master, a house and garden, and added 40s. per annum for their repairs. The trustees are the owner of the land from which the endowment is paid and the incumbents of five neighbouring parishes. The annual salary is regularly paid, and I believe the regulations made concerning the school are duly observed.  
15. The churchwardens are annually chosen in the Easter week, one by the minister and the other by the parishioners; or both by the parishioners, in the absence of the minister.  
16. In the school mentioned in A. 14 the children are instructed in the principles of the Christian religion as explained in the Church catechism; and regularly brought to the church.  
17. [Blank]  
18. By the minister to the most deserving or the most distressed among the poor of the parish.  
19. I do not recollect any.

105 LITTLE HINTON £863  D. Cricklade

2. Prayers are read on the festivals immediately following Christmas, Easter, and Whitsunday: Ash Wednesday, Good Friday, Ascension day, and the state holidays.
3. I perform divine service as curate.
4. I serve the cure of Bishopston, one mile distance, which cure belongs to the same incumbent, the Rev. Nowes Lloyd A.M.  
5. The holy sacrament is duly administered four times every year, viz. Christmas, Easter, Whitsuntide, and at Michaelmas.
6. The number of communicants in general, and at Easter last in particular, between 20 and 30.
7. There are no reputed papists nor any popish priest, or any popish school in this parish.
8. There are no dissenters of any sort or denomination, but there are several absenters, chiefly of the poorer sort.
9. The parishioners are very remiss in sending their children and servants to be instructed in the Church catechism, but, in hopes of bringing them to a better sense of their duty for the future, I have begun a familiar exposition of our Church catechism, which I purpose, please God, to go through with at all proper opportunities, particularly in the Lent season.
10. There is a register book of births and burials duly kept, and returns of them regularly made into the registrar's office, as the canon requires; and the said register is more than 200 years date.
11. A register book is duly kept, according to the directions of the Act of Parliament against clandestine marriages.
12. There are none.
13. To this, the Rev. Mr. Nowes Lloyd A.M. rector of Enbourn, Berks., who holds that rectory by dispensation with the rectory of this parish, who will attend your Lordship's visitation at Newbury, will answer.

[In another hand:] I know not of any terrier of the rectory of Hinton, and as there are only two acres of glebe land belonging to it (the income being paid in money) I presume there is no terrier. N. Lloyd, rector.

14. There is a charity school founded and endowed 7 Oct. 1777 by the Rev.

No signature. Curate, D. Williams, curate of Wroughton, 80, in which capacity he attended the visitation, and wrote to excuse himself from attending at Devizes, as the vicar of Broad Hinton was himself attending. the education of ten poor children, and the several deeds relating to the same
are kept in a chest under three locks and keys, one of which is kept by the
rector, one by the vicar of Bishopston, and one by the vicar of Shrivenham,
Berks., who are appointed by the founders [sic] trustees of the said charity.
Lands to the amount of £8 15s. per annum are properly settled.

15. The churchwardens are regularly chosen in the Easter week every year,
one by the minister and one by the parishioners.

16. There is a charity school settled by endowment, as explained in my answer
to Q. 14. The children, either boys or girls, are to be regularly brought to
church, and are to be instructed in the principles of the Christian religion, but
no provision made for them when they leave school.

17. My place of residence is at Bishopston, one measured mile only from this
parish church, where I constantly reside all the year.

18. The money given at the offertory is generally divided amongst the poor
communicants.

107 HULLAVINGTON f.879 D. Malmesbury
1. Divine service, both prayers and preaching, is performed once every Lord's day, either at ten o'clock in the morning or at two in the afternoon. And the reason it is performed no more than once is because it has not been usual.
2. Prayers are read in my church upon the principal holidays throughout the year and there is a gift sermon preached in it on St. Thomas's day.
3. As incumbent.
4. I serve the cure of Foxley, and have served it many years, which is distant from me about 2 miles.
5. Three times in the year, namely at Christmas, Easter, and Whitsuntide.
6. The number of communicants generally is about 14 or 16; but last Easter I believe there were only 12, occasioned by the illness of some of the communicants.
7. There is not any papist nor reputed papist in my parish.
8. There is not any Presbyterian, Independent, or Anabaptist in my parish; but there are a few Quakers, who have a meeting-house here, which was built about the latter end of the last century, at which time, I have been informed, there were many more of this sect in this parish than at present. There are besides a few persons who commonly, though not always, absent themselves from the church.
9. I have catechized the children of my parish many times and expounded the catechism to them, which I have usually done soon after Whitsuntide, when the days are longest and the congregation is largest.
10. There is a register book of baptisms and burials belonging to my parish, which begins with the year 1694 and which is duly kept and in good condition. There is likewise another register of baptisms and burials more ancient than the former, beginning with the year 1559, but imperfect.
11. There is a register book of marriages belonging to my parish, which is duly kept.
12. There is no chapel nor the ruins of any chapel in my parish.
13. There was a terrier taken of my vicarage in the year 1704, and delivered to the bishop's registry, as appears by the churchwardens' account for that year; but there was no counterpart of it kept by the parish that I could ever find. About twenty years since that time, there was an augmentation made of my living by a purchase of lands with Queen Anne's Bounty;9 but whether

* See 15.
9 In 1719: Hodgson, p. 417.
any account of such augmentation has been transmitted into the bishop’s registry I cannot say.

14. There is no free school, alms-house, etc. in my parish.
15. There are two churchwardens chosen every year in the Easter week, one by the minister and the other by the parishioners.
16. There is a small charity school in my parish, for teaching six poor children to read, which is supported by an annuity of £3 per annum, issuing out of an estate at Clifton in the county of Gloucester and given by Ayliffe Green, gentleman, in the year 1690, who likewise gave 20s. for preaching a sermon yearly on St. Thomas’s day in the parish church of Hullavington and 20s. more to be distributed yearly on the same day to the second poor persons.
17. I constantly reside at the vicarage house in the parish of Hullavington.
18. To the poor communicants by me.
19. I cannot recollect anything else relating to my parish of which it is proper to inform your Lordship.

I am, my Lord, your Lordship’s dutiful and obedient humble servant.

William Adlam, A.B., vicar of Hullavington

P.S. The date of my deacon’s orders is 22 Sept. 1745. Of my priest’s orders 20 Sept. 1747 and of my institution 2 Aug. 1753.

108 IDMISTON f.887 D. Amesbury

1. Divine service is performed in my church of Idmiston and likewise in my chapel of Porton once every Lord’s day. Prayers at 11 in the morning; prayers and preaching at 2 in the afternoon during the winter, and 3 in summer.
2. There is no divine service upon weekdays but when Christmas day falls on a weekday; there being hardly any besides working people, they have not been accustomed to attend the church oftener.
3. I perform divine service in the afternoon at Idmiston and Porton alternately as incumbent; the curate who did the whole duty for the late incumbent serves them alternately in the morning.
4. I serve no other cure, but perform service at the cathedral most Sunday mornings in order to be exempt from duty there in the afternoon, finding no difficulty in providing for one of my parish churches constantly and regularly every Sunday morning and not being able to provide for both once a month only, when, according to the regular course, it is my duty to officiate at the cathedral the whole day.
5. The holy sacrament of the Lord’s Supper is administered both at Idmiston and Porton at Christmas, Easter, and Whitsuntide.
6. The whole number of communicants at Idmiston is 30, and at Porton 16, which are as many as can be remembered. Nearly the whole number of each place communicated at Easter last.
7. None.

1 Oriel Coll. Oxford 1741. See also 89.
2 Clergy Books, 1783, have the entry ‘Porton Chap. Dr. —’, but name no curate.
8. There are none of any sort who dissent from the doctrines or mode of worship of the established church. All regularly attend the church, and behave decently in the performance of their duty there.

9. The children and servants have been catechized by me, and an exposition read to them from Archbishop Wake, which in future will always be done during Lent. Owing to their not having been accustomed to it, I could not get them to attend so early as the last Lent.

10. There is a register book of births and burials duly kept and in good preservation. Returns have of late been regularly made. The register begins in the year 1577.

11. There is a marriage register duly kept according to the Act of Parliament.

12. There is no chapel besides the before-mentioned chapel of Porton which is within a mile of the church.

13. I have a perfect terrier of all things belonging to me as vicar of my parish, a duplicate whereof has been delivered to the bishop's registrar, since which no augmentation of my living has been made.

14. None.

15. There is a churchwarden at Idmiston, and a chapel-warden at Porton, chosen every year in the Easter week. There being very few capable of serving the office, they have generally by agreement served in rotation.

16. There are two schools for children in the parish; in one they are taught reading, in the other reading and writing. They are likewise instructed in the Church catechism in both. Their parents (who pay for their instructions, and under whose care they are out of school hours) bring them regularly to church.

17. I reside in the Close of Salisbury (being vicar of the Close), 6 miles from Idmiston.

18. It has never been customary to collect any money.

19. I have no other matter relating to my parish to lay before your Lordship.

Edward Moore A.M.

109 IMBER f.895

D. Potterne

1. Divine service is performed at Imber at one o'clock. The reason divine service is not performed twice every Lord's day, I suppose, is its being a small parish.

4. I serve the perpetual curacy of Heytesbury, about 4 miles distant from Imber, and am not licensed.

D. Cricklade

[Written across the top of the letter:] For the lord bishop of Sarum.
1. Divine service, both prayers and preaching, is performed in the parish church every Lord's day, alternately at eleven in the morning and two in the afternoon by the parishioners' particular desire.
2. Divine service is performed on the holidays and festivals whenever any of the parishioners please to come.
3. As incumbent.
4. At present I serve no other church than my own.
5. The holy sacrament of the Lord's Supper is administered in the church four times in the year, viz. at Easter, Whitsuntide, Michaelmas, and Christmas.
6. About twenty. And last Easter there was about the same number as usual.
7. There are none of any condition whatever.
8. None that I know of.
9. I am always ready to catechize and instruct the young people of my parish whenever their parents please to send them, which I frequently exhort them to do. In particular I call upon them every Sunday in Lent, when I instruct them in the catechism, and expound it to them myself in English.
10. There is a register book duly kept and in good preservation. Copies of it are returned into the registrar's office every year at the visitation. The register goes as far back as the year of our Lord 1589.
11. There is.

† Possibly Christ Church Oxford 1766. Heytesbury, of which he was perpetual curate, was a peculiar of the dean of Salisbury.
13. I have not such a one at present but will make one and deliver it to your Lordship's register. Since I had written the above I have made a terrier according to your Lordship's directions, and will deliver it into your register at your visitation.

14. There is no charity that I know of left to the parish or church, except a legacy (from Mrs. Jane Bray) of 20s. a year; which is taken every other year in cloth, and distributed amongst the poor, in proportion to their particular circumstances and the largeness of their families.

15. There is only one churchwarden in my parish, who is chosen yearly by the parishioners.

16. There is no school in the parish; neither has there been any formerly that I have ever heard of.

17. I reside on my living in the parsonage house.

18 & 19. No money is ever given at the offertory. I expressed my surprise at this circumstance when I first came to the parish and sent the plate for the purpose of gathering, but nobody except those of my own family chose to give, and I did not think proper to press them on this head too far lest by so doing I should prevent them from coming to the sacrament.

20. The place of my residence is the parsonage house. The nearest post town is Lechlade, in the county of Gloucester: and letters are always directed to me at Inglesham near Lechlade, Gloucestershire.

I was ord. D. by Dr. John Thomas, lord bishop of Peterborough, on Sunday 22 Sept. 1754 at the chapel of Kew in the county of Surrey. I was ord. P. by (another) Dr. John Thomas, lord bishop of Lincoln, on Sunday 14 March 1756, in Conduit Street chapel in the county of Middlesex. And I was collated to the vicarage of Inglesham by the same last-mentioned Dr. John Thomas, then bishop of Sarum, 7 Oct. 1763.

[Written up the left hand margin:] I took my M.A. degree at Cambridge in the year 1755.

3. Dr. Wake as incumbent occasionally performs divine service. Mr. Russ is his curate.

4. Mr. Russ serves no other cure and resides in this parish upon his own estate.

5. The holy sacrament of the Lord’s Supper is administered in the church of Bishop’s Knoyle four times every year, viz. at Christmas, Easter, Whitsuntide, and the Sunday after Michaelmas.

7. There are no reputed papists in this parish, nor have any persons been lately perverted to popery, nor is any popish school kept in my parish.

16. Mr. Trippet, formerly rector of this parish, left by his will £100, the interest of it to be applied for the maintenance of a schoolmistress to teach 6 boys and 6 girls to read, and to learn them their catechism. Mrs. Shaw, widow of Dr. Shaw, formerly rector of this parish, left likewise £100, the interest of it to be applied to the same purpose, and for the same number of children.

17. I have constantly resided upon this cure, and in the parsonage house ever since the year 1746, and always myself performed divine service in this parish until I was a prebendary of Westminster; am now never absent for any length
of time, except when I am called upon to reside at Westminster. I was ordained deacon 1 Dec. 1744 and priest 8 May 1746 and was instituted to this rectory 14 May 1746. I took my Doctor of Laws degree 22 Nov. 1758. C. Wake.

1. Divine service is performed once each Sabbath day at half an hour past ten. Divine service is performed once only on account of the smallness of the parish and living. [Footnote at the bottom of the page:] It would be an act of injustice not to inform your Lordship that from the attention and munificence of Henry Hoare Esq., 5 who has some lands in the parish of Little Knoyle, the church is not only in exceeding good repair, but may vie in point of neatness and decent ornaments with any in your Lordship’s diocese. 1. Divine service is performed in this church once every Lord's day at a quarter of an hour after two o'clock in the evening, excepting on Sundays when the holy sacrament of the Lord's Supper is administered; then it begins at a half of an hour after ten in the morning. The reason that divine service is not performed twice here each Lord's day is that the congregation who attend prayers in the afternoon [added in the margin I mean this when divine service did use to be twice, every Sunday, when prayers and sermon in the morning and prayers in the afternoon] are but few in number, generally go to hear a sermon and prayers across the field to Market Lavington.

The whole revenue of the school at present is £40 per annum (formerly it is said to be more), £20 of which with the house and garden I have for teaching or acting as sub-master or usher. The headmaster who lives in Dorsetshire has the other £20. 7 of the poor people have 13s. 4d per quarter regularly paid them through my hands; they have also a house each to live in. The other 3 are paid 13s. per quarter each by the duke of Marlborough's steward. We have no statutes to be observed; nor have any lands or tenements that I know of been left for the repair of our church, or for any other pious use.

4. I serve no other cure.

5. The holy sacrament is administered four times in every year, viz. on Easter day, Whitsunday, the Sunday nearest to the feast of St. Michael, and on Christmas day.

6. I have kept an exact account of the number of communicants since my residence which commenced at Christmas 1777, in which time I find the greatest number of communicants on Easter day 1779, viz. 23, and the least number, on the last Easter day, was 15.

7. There are not that ever I could discover any papists or any reputed such in my parish, neither is there any Romish chapel or popish school.

8. There are no Presbyterians, nor any other sectary of any description whatever in my parish, neither is there any other place made use of for divine worship except the parish church.

Jesus Coll. Oxford 1758.

Letter missing.
9. I catechize the children and younger part of my parishioners, and expound the catechism to them in the English language after the 2nd lesson on Sunday afternoons in the summer.

10. I have a register book in tolerable preservation in which I always enter the births and burials myself and have regularly transmitted a transcript of it to the registrar’s office every year at the visitation. It consists of four volumes. The 1st, of parchment, begins anno 1609. The 2nd, of parchment also, begins anno 1653. The 3rd, of paper, begins anno 1697 and the 4th, of paper, anno 1756.

11. There is a register book duly kept according to the directions of the Act of Parliament against clandestine marriages.

12. There are no chapels of ease in the parish nor any ruined chapels, though I have been informed that some years since there was to be seen at Biddesden, a hamlet of Ludgarshall about 2 miles distant consisting of only 2 houses, the site of a chapel situated in one of the chapel closes of which there are two, and likewise a close called Church close adjoining, all of which now constitute a part of the Biddesden estate.

13. I have no terrier of houses, lands, tithes, etc. nor could I ever hear of one, either in this place or in the bishop’s registry, where I searched in the year 1778 for that purpose. Of the two former, viz. parsonage house or glebe land, there is neither, nor can I find the least traces of there ever having been any belonging to the living. Of the latter, viz. tithes, as rector I am entitled to every species, and to every species in kind, there being no modus or exemption from payment of tithes in kind in any part of the parish. I never heard of any augmentation of the living, but there is a pension or fee-farm rent payable to the king of £4 every Michaelmas out of the profits arising therefrom.

14. There is neither free school, alms-house, or other charitable endowment in the parish.

15. The churchwardens in my parish are chosen every year in the Easter week, one by the minister and the other by the parishioners.

16. There is not, nor ever was that I can learn, any public school or charity school founded in the parish.

17. I constantly reside upon this cure in a house belonging to the right honourable Lord Sydney of which he gives me the use, there being as I before observed in answer to the 13th query neither parsonage house nor glebe.

18. The money given at the offertory is disposed of by myself as minister to the poor of the parish when sick or otherwise disabled from maintaining themselves, of which distribution I keep an exact account.

19. There is no other circumstance relating to the parish worthy of your Lordship’s notice except that I think its boundaries not sufficiently ascertained on the side next Chute Forest.

20. I reside at Ludgarshall; the nearest post town is Andover, Hants, 7½ miles distant.

I was ord. D. by the late bishop of Oxford at Oxford 2 June 1776. Ord. P. by the present bishop of Oxford at Oxford 15 June 1777. Instituted to the

Thomas Townshend, created Baron Sydney 1783, nephew of George Selwyn, the famous wit, M.P. for Ludgershall and patron of the living.
rectory of Ludgarshall by the late bishop of Salisbury at Bath 17 June 1777.
Admitted to the degree of B.C.L. of Pembroke College Oxford 18 June 1783.

11. There is.
12. Nothing to be said on any of the items of this query.

9. The children are catechized in Lent.
10. We have a register book of births and burials which goes as far back as the year 1600.
11. Yes.

14. There is an sum of 10s. arising from a little ground in this parish given to the second poor.
15. The churchwardens are chosen every year in the Easter week, one by the minister and the other by the parishioners.
16. No.
17. I reside in the parish, about a quarter of a mile from the church, but not in the house belonging to this cure. I am seldom or ever absent.

130 LYDIARD TREGOZE f.1059  D. Cricklade
1. Divine service is performed every Sunday morning at eleven o'clock. It never was remembered to be performed twice a day. The people of the parish are principally dairy men, and in the afternoon are employed in their country business, which cannot be neglected.
2. On Christmas day and Good Friday only.
3. As incumbent.
4. I serve no other cure.
5. Four times in the year, at Easter, Whitsuntide, Michaelmas, and Christmas.
6. We have generally about 16 or 18 communicants. I cannot say exactly how many there were at Easter last, but the number never varies much.
7. We have none.
8. We have none.
9. We have the misfortune to have no school in the parish where the poorer sort might be taught their catechism, and was I to call on them to send their

children to church on Sundays to be catechized, I fear it would be in vain. I never could learn that any of my predecessors had succeeded.

10. Our register book of births and burials is duly kept and in good preservation; returns of births and burials have been regularly made into the registrar's office. The register books go as far back as the year 1605, but I believe they are not all perfect.

11. There is a register book, duly kept.

12. We have none.

13. I have nothing more than copies of such terriers as are to be found in your Lordship's registry at Salisbury, since which there has been no augmentation made to the living.

14. We have neither free school, alms-house, or other charitable endowment in our parish; nor have any lands or tenements been left for the repair of the church or for any other pious use.

15. Our churchwardens are chosen every year in the Easter week, one by the rector, the other by the parishioners.

16. We have no school whatever in the parish.

17. I reside at Wootton Bassett, the parish adjoining. On coming to the living I found but an indifferent house, and being a single man and having very near relations at Wootton Bassett, I found it most convenient to board with them.

18. The money given at the offertory is distributed among the poor communicants and, if any surplus, to the poor of the parish.

19. I know of none.

20. I reside at Wootton Bassett, a post town.

R. Miles, rector of Lydiard Tregoz

131 MADDINGTON f.1067 D. Wylye

1. Divine service is performed alternately at ten and three in the afternoon. Divine service is never performed in this church but once, owing I imagine to the smallness of the parish etc.

2. It has not been customary to perform any service on weekdays.

3. I perform divine service as curate. 6

4. I serve also the curacy of Orcheston St. Mary together with Shrewton. Neither of the cures are distant a mile from each other. The late bishop of Salisbury did not require me to take licences to my cures; therefore have none.

5 [recte 6]. The number of communicants are about thirty, and on last Easter day did not appear to vary from the former years. This fifth question (owing to a mistake) answers to the sixth. Q.5. How etc. The holy sacrament is administered at Christmas, Easter, and Whitsuntide.

6. This question is answered opposite Q. the 5th in the third page. 7

7 This same mistake is made in his returns for Orcheston St. Mary, 155, and Shrewton, 177.
7. There are no reputed papists, no priest, school, or chapel where they assemble.

8. There are no Presbyterians, Independents, etc., neither are there any (according to my knowledge) who absent themselves from public worship.

9. It has not been customary to catechize children at this small parish church; neither will time properly admit of it; because one or more churches are incumbent on the curate to serve.

10. I have a register book of births and burials duly kept, the register goes about so far back as 1670 both for births and burials.

11. There is a register book kept to prevent clandestine marriages.

12. There are no chapels of ease in the parish.

13. There is no terrier. Maddington is a donative and the minister's income is from small tithes (viz.) wool, etc., etc. It is about £40 per annum.

14. There is no free school neither has there been left any lands etc. for repairing the church.

15. In every Easter week the churchwardens are chosen by the minister and parishioners together.

16. There is no public school.

17. I reside in one of my parishes, and within a mile of the others; I do not reside in the parsonage house as it being too small for a family.

18. There is none given.

19. None.

20. Orcheston St. Mary is my residence and Market Lavington is the nearest post town.

I entered commoner at Queen College in Oxford where I resided about three years, and was ord. D. at Salisbury at Michaelmas in the year 1777 and ord. P. at London at Christmas by the bishop of Glocester in the year 1781.

[On a separate sheet of paper:] I have unfortunately lost the directions for describing the parsonage house etc. for the parish of Maddington; therefore have here mentioned the answers.

Q.1. The parsonage house is built of stone and brick and covered with tile, it has about six rooms in it. There is no out-houses.

Q.2. No land. There is a small garden surrounded by a wall. There are no trees in the churchyard.

Q.3. Small tithes only are due to the minister.

Q.4. The donative is about £40 per annum.

Q.5. There are no tithes due to the curate and £20 per annum is paid to him for serving the church.

Q.6. There are only three bells. The communion plate is a flagon, small cup, and plate, all silver. There [are] no books besides of Common Prayer, and Bible etc.

Q.7. There is no land etc. for repairing the church.

Q.8. The churchwardens.

Q.9. The clerk's wages is by custom; he is paid by the parish and appointed by the minister.

J. Legg, curate of Maddington

See above, p. 3, n. 2.

1. Divine service is performed twice every Lord's day. Prayers and preaching in the morning, service beginning at half an hour after ten and prayers in the afternoon beginning at two o'clock.
2. No services on weekdays or holidays.
3. I perform divine service as perpetual curate nominated by the dean and chapter of Christ's Church, Oxford.
4. I serve no other cure.
5. The holy sacrament of the Lord's Supper is constantly administered four times in the year, viz. on Easter day, Whitsunday, the first Sunday after Michaelmas, and on Christmas day.
6. The number of communicants are generally about thirty, which was nearly the number on Easter Sunday last.
7. There are no reputed papists in my parish nor is there any place where they assemble for divine worship nor any popish school kept.
8. There are no Presbyterians, Independents, Anabaptists, or Quakers to my knowledge in my parish, nor is there any place made use of for divine worship but the parish church. There are some who commonly I believe absent themselves from all public worship of God.
9. My parishioners duly send their children and servants to be catechized in the church, which is generally done for seven or eight Sundays in the summer, immediately after the second lesson at evening prayers, and in the English language; and in the course of my sermons I take care to explain to my parishioners the essential parts of the Church catechism.
10. There is a register book of births and burials duly kept and in good preservation, and returns of births and burials have been regularly made into the registrar's office for more and [recte than] thirty years past [to my knowledge crossed out] (i.e.) during the time I have served the cure of Maiden Bradley.
11. There is a register book duly kept against clandestine marriages according to the directions of the Act of Parliament made for that purpose.
12. No chapels of ease in my parish. No ruined chapels to my knowledge.
13. I know of no terrier of houses, lands, tithes, pensions, or profits that belong to me as minister of my parish. I have only £40 a year paid by the duke of Somerset as tenant to the dean and chapter of Christchurch. No augmentation has [been] made thereto during the time that I have served the cure of Maiden Bradley, which is now more than thirty years; during which time the dean and chapter have acted as visitors of my cure.
14. There is no free school, alms-house, or other charitable endowment in my parish to my knowledge. Nor any benefactions left for the repair of the church.
15. The churchwardens of my parish are chosen every year in the Easter week solely by the parishioners. But I have been informed that it was the custom formerly for the minister to choose one. But how or when this custom was altered I know not.
16. There are schools in my parish to teach children to read, who are instructed in the Church catechism, and regularly brought to church to be examined in it.
But there is no public school endowed or supported by any charity by
voluntary subscriptions that I know of.
17. I do not reside upon the cure of Maiden Bradley, there being no house
belonging to it, and though I reside at four miles distance yet I am never
absent, but in case of sickness.
18. It is not usual for any money to be given at the offertory.
19. There is no other matter relating to my parish that I know of, of which it
may be proper to give information.
20. My place of residence is Tisbury near Hindon.¹

133 MALMESBURY f.1083  D. Malmesbury
1. At one o'clock in the afternoon in one of the chapels, at three o'clock in
the church.
2. Upon every holiday but not on any weekday except in Lent.
3. As curate.²
4. [a, b] I serve the cure of Ashley about four miles distant from the other.

7. None, nor any popish priest, nor popish school kept in the parish.
8. There are many dissenters of various denominations, but the exact number
I cannot tell. I know of no other place made use of for divine worship. Their
teachers do not reside in this parish. Their number since I have resided here
I think is much the same. [e, f] None.
9. I read catechetical lectures every Lent. The children are brought upon
weekdays in Lent to be catechized.
10. The register of births and burials is in good preservation. Proper returns
are made every visitation. The register books go back to the year 1660.
11. I have not seen any.
12. [a] Two. Rodbourn and Corston. [b] They are served once every Lord's
day alternately. [c] There are no estates or funds that I know of. [d] Two
miles. [e] By me, H. Strong. [f] None.
13. There is a terrier lodged in the registrar's court. I don't know that there
has been any augmentation.
14. [a] There are two free schools and a charitable endowment of £20 which
is distributed every New Year's day. [b] Robert Cullurn. Twelve gentlemen
of the parish, I believe. [d] None.
15. They are. One by the minister and the other by the parishioners.
16. [a] Yes. Two. [b] By a settled endowment. For boys only. The one
confined to fifteen, the other free for everyone. [c] Writing and accounts.
[d] Yes. [e] They are not. [f] I know not. [g] Yes.
17. I constantly reside upon this cure.
18. The money is always distributed to the poor communicants.

134 MANNINGFORD ABBOTS [Manningford Abbas] f.1091

D. Marlborough

1. Twice every Lord’s day, viz. at ½ past 10 o’clock and at ½ past 2 o’clock; preaching only once in the day, and that alternately in the morning and evening unless prevented by occasionally assisting my neighbours.

2. On weekdays at the principal festivals only, and on Good Friday.

3. As incumbent.

4. No.

5. Four times in the year, viz. at Christmas, Easter, Whitsuntide, and Michaelmas.

6. From twenty to thirty; at Easter last fourteen, which is about the usual number.

7. None.

8. None.

9. They do not. Indeed in so small a parish (for it contains but twenty-two dwelling-houses) a sufficient number can seldom be procured to catechize in public, and few of the children have been so educated as to be able to repeat the Church catechism even in private. (Books of Common Prayer have been distributed gratis.)

10. The register of births and burials is duly kept, and in good preservation, and the returns regularly made into the registrar’s office. The old register goes back to the year 1559. That now in use begins 13 Nov. 1732.

11. A register book is duly kept according to the directions of the Act.

12. None.

13. I apprehend there is one in the office at Sarum, but none here. A new terrier is now prepared and signed, and a duplicate kept. No augmentation.

14. None.

15. Usually in the Easter week; one chosen by the minister, the other by the parishioners.

16. None.

17. I reside in the house belonging to this cure, and am very seldom absent.

18. None given.

19. No other matter that I at present recollect.

Deacon’s orders dated 2 June 1765. Priest’s orders dated 22 June 1766.

135 MARLBOROUGH, ST. MARY f.1107

D. Marlborough

1. Divine service is performed twice on the Lord’s day, both prayers and preaching, at ½ past ten in the morning and at three o’clock in the afternoon, excepting those mornings on which the sacrament of the Lord’s Supper is administered, when the sermon is omitted.

3 No signature. Curate, H. Strong. See also 7.

2. Divine service is performed on Mondays and Wednesdays in the morning, and on Saturdays in the evening, but on no festivals which fall on the intermediate days, as service is on those days performed at the other church.

3. I officiate as curate of the parish of St. Mary. 

4. I do not serve any other cure, nor am I licensed to the cure of St. Mary, as the late bishop of Salisbury did not deliver licences to those who were ordained by him.

5. The sacrament of the Lord's Supper is administered on Christmas day, Easter day, Whitsunday, Trinity Sunday, and on the first Sunday in every month.

6. In general between 20 and 30 persons communicate, at Easter last the number of communicants amounted to about 60 as usual.

7. There are no reputed papists in this parish.

8. There are about 30 Presbyterians and as many Quakers in this parish. There are no other places of divine worship than such as are used by those sects. As I have but very lately undertaken the cure of this parish I cannot affirm anything concerning the increase or decrease of the number of such sectaries from observation. I know of no persons who profess to disregard religion, or who commonly absent themselves from all public worship of God.

9. The children and servants have been generally catechized in the last quarter of the year, in English, when Lewis's catechism has been used as an exposition.

10. A register book of births and burials is duly kept, and well preserved, extending as far back as the year 1623, returns of which have, I believe, been regularly made.

11. A register book is duly kept according to the directions of the said Act.

12. There are no chapels of ease nor ruinated chapels in this parish.

13. I have an attested copy of a terrier deposited in the registry of the diocese, made in the year 1698, since which time this living has been augmented by Queen Anne's Bounty.

14. There is a free school in this parish, designed for the education of any male children born in this town; founded by King Edward VI, and governed by the corporation of this town; the master has a salary of £30 per annum besides an house. Since this school was founded, some scholarships have been appropriated to it of £15 per annum each, at Brazen-nose College Oxford and St. John's College Cambridge by a duchess of Somerset. The revenue of that part of the Green called Church Land, and also the sums arising from the renewals of the leases of a dwelling-house, and meeting-house situated on the Green, are appropriated to the repairs of the church under the direction of the churchwardens. No lands nor tenements have been left for any other pious use.

15. The churchwardens are chosen annually in the Easter week, one by the minister, the other by the parishioners.

16. No public school has been founded, nor is there any charity school in this parish.

---

6 In 1733: Hodgson, p. 417.
17. I reside in the town of Marlborough though not in the parish of St. Mary, nor in the house belonging to it. I do not intend to be absent for any considerable time in the course of the year.
18. The money collected at the offertory is distributed among the poor of the parish under the direction of the minister.
19. I know of no matter of which it is proper to give information.
20. I reside in Marlborough, a post town.

I was admitted to the degree of B.A. in the university of Cambridge in January 1778. Was ord. D. in May 1780, and ord. P. in December 1780. 

E. H. Whinfield

136 MARLBOROUGH, ST. PETER f.1115

1. Twice on every Sunday, at half an hour past ten o'clock in the morning and at three in the afternoon, but the sermon is omitted on sacrament days in the morning, agreeable to the wishes of the most constant communicants, the aged and the infirm.
2. Morning prayers are read therein on Tuesdays, Thursdays, and Fridays weekly, and also on holidays.
3. As incumbent.
4. By the help of a constant assistant, I serve my other church of Preshute—not half a mile distant from my church in Marlborough.
5. On the last Sunday in every month, and on Christmas day, Easter day, and Whitsunday.
6. At the monthly sacraments about 30 on an average. At the great festivals many more and at Easter last about 70, a number rather greater than less than usual.
7. There is a gentleman's family (of the name of Hyde) professing the popish religion. His servants are partly of the same persuasion, but the greater part of them are permitted and exhorted to resort to the church. Four or five more people of little account frequent the gentleman's house on Sundays and other days, as he keeps a reputed popish priest constantly therein. The name of the present is Butler—who seems not very zealous to pervert the servants and neighbours—of consequence no popish school is kept in the parish.
8. There are 5 or 6 Presbyterian families, including their minister, resident in this parish, but their place of worship is not in it. One of them is a gentleman professing the law, but his wife and daughter constantly resort to our communion. Two other families are in trade. One of them comes to church when there is no meeting, but his wife and children constantly. The children of the other and of the minister come to church when there is no meeting—which happens either morning or evening every Sunday. The other Presbyterians are elderly maidens. This sect is greatly reduced of late years, as by marrying wives of the Church of England, so by many of them turning Methodists, who

assemble in a former Presbyterian meeting-house in this parish, by the name of Independents, and licensed as such. This sect is supported, as I am informed, by Lady Huntingdon and an opulent tradesman of this parish, who is owner of the meeting-house. Their teacher's name is Cornelius Winter,¹ who seems to have had a liberal education, and who complains of the decrease of his hearers—I know several who used to resort to the meeting who are returned to our communion. There are 4 or 5 families of Quakers, which sect is also declining apace. I thank God I know not one in the parish who professes to disregard religion, but must lament that too many absent themselves from the public worship of God.

9. The parishioners in general duly send their children and servants to say, and be instructed in, their catechism according to my appointment, the junior part at prayer-time on Thursday mornings, and such as are of age to be confirmed, and servants, on Sunday evenings, from the first notice I receive of a confirmation to be held, to the time thereof. I examine them in the catechism according to a small tract entitled 'The Church Catechism broke into short questions', and further explain the whole to them in English, and in notes of my own compiling—when my health permits.

10. The register books have been badly kept for several years before I became incumbent, but I now pay particular attention to their correctness, and true copies thereof are returned to the registrar's office yearly according to the canon. The oldest register book I have seen belonging to this parish begins in the year 1611.

11. Yes, but rather imperfectly in my predecessor's time.

12. None.

13. I lately procured the copy of a short and imperfect terrier of the parish from the bishop's registry, but a perfect and complete one has now been drawn up, and a duplicate thereof will be delivered to the bishop's registrar at the visitation to be holden for and at this church.

14. None that I ever heard of.

15. The churchwardens are chosen every year in the Easter week, one by the minister, and the other by the parishioners.

16. None that I know or have heard of.

17. I constantly reside in the parsonage house.

18. By the minister at his discretion and on the recommendation of the communicants, to the sick, needy, and prisoners in Bridewell.

19. None.

20. At Marlborough, a post town.

137 ST. MARTIN [SALISBURY] f.1123 Sub-D. Salisbury

1. Prayers at ten in the morning, and prayers and preaching at a quarter of an hour before three in the afternoon.

¹ See 9 n. 2.

2. Divine service is performed on Wednesdays, Fridays, and Saturdays and on all holidays and festivals.
3. I perform service as incumbent.
4. I serve no other cure.
5. The sacrament is administered four times in the year viz. at Christmas, Easter, Whitsuntide, and Michaelmas.
6. The number of communicants are in general about seventy and did not appear last Easter to vary from former years.
7. There are no reputed papists in my parish, nor chapel for such to assemble in, no popish priest, nor popish school.
8. There is an Anabaptist meeting-house in my parish but those who resort to it chiefly if not altogether come from other parishes. The preacher's name is Phillips. There is also a Quaker meeting-house under the same predicament.
9. It hath not been usual for the city clergy to catechize children; in my parish there is a school under the patronage of the bishop where children are constantly taught their catechism and instructed in the principles of the Christian religion and thereby the end of the minister's catechizing is in a great measure answered.
10. I have a register book for births and burials duly kept and the returns are regularly made. The register both of births and burials goes back as far as the year 1559.
11. There is a register book according to the Act of Parliament against clandestine marriages.
12. There are no chapels of ease.
13. There is a terrier dated 1705 and a duplicate thereof in the bishop's registry. There hath been no augmentation made of my living and the minister hath no glebe except the churchyard.
14. There is no free school but that referred to in the ninth article. There are two alms-houses endowed, one founded by Mr. Bricket, sometime mayor of this city, for six poor women. Another called the Trinity for twelve poor men, the founder's name is [blank]. The alms-houses endowed are under the direction of the mayor and corporation for the time being. There are some small donations in my parish and some lands have been given, the produce of which is to be applied to apprenticing orphans and some dwelling-houses for paupers all under the direction of the minister and vestry.
15. The churchwardens are chosen every year in the Easter week, by the minister and parishioners together.
16. There is no school but that referred to in the ninth article.
17. There is no parsonage house. I reside within about a third of a mile of my church, and in the course of the year am absent about ten Sundays. The reason of such absence is on account of business or health.
18. The money collected at the offertory is disposed of by the minister and

1. As there is a chapel of ease, as well as the church, it is the custom to have only single duty at each of them every Sabbath day, which is performed alternately, at eleven o’clock in the morning and half an hour past two in the afternoon. I know of no other reason why divine service is not performed twice a day.

1 No signature. Rector, Dr. John Baker. Wadham Coll. Oxford 1757. He was said to have a good private fortune and was a protege of Lord Pembroke: Pembroke Papers, ii. 308, 353, 366.
2 Vicar, William Williams.
3 See Chitterne All Saints, 46, of which he was vicar.
2. There is divine service every Wednesday during the Lent season and on the other weekdays as directed by the rubric, at Christmas, Easter, and Whitsuntide.

3. I perform divine service as curate.8

4. I serve no other cure, nor am I yet licensed.

5. There are three sacraments in the year administered at Christmas, Easter, and Whitsuntide.

6. There are commonly about a dozen or fourteen communicants, and much the same number last Easter.

7. There are no reputed papists that I know of in the parish.

8. There are some Anabaptists and Quakers; and of late years several Methodists have sprung up, and built a tabernacle in the parish. The teacher's name is John Honeywill,9 and licensed as the law directs. I know of no other persons but the above mentioned who commonly absent themselves from church.

9. It has been usual to catechize the children annually during the summer season, which duty I am now performing, and likewise do expound to them the catechism.

10. A register book of births and burials is duly kept and the returns into the register office are regularly made. It goes back to 1568.

11. There is.

12. The chapel of ease is at Seend, about three miles from the mother church, and duty is performed, as mentioned in the first quere, by the minister belonging to the church. There are not any estates or funds particularly appropriated to its maintenance, but [it] is supported by the mother church.1

13. There is a terrier of all houses, lands, tithes, pensions, and profits belonging to the living of Melksham, a duplicate of which is, I suppose, deposited in the bishop's registry; but I do not know of any augmentation that hath been made to [the] living.

14. There is nothing of this sort in the parish of Melksham.

15. There are two churchwardens chosen every year in the Easter week, one by the minister, the other by the parishioners.

16. There is a school in the parish where boys are taught English and writing, but no charity school.

17. I constantly reside upon my cure, but not in the house belonging to it.

18. The collection made at the administration of the sacrament is disposed of by the minister to the poor.

19. I do not know of any.

142 MILTON LILBORNE f.1166
D. Marlborough
1. Divine service is performed in my church every Sunday alternately in the morning and afternoon. Divine service for many years past has not been performed twice on account of the smallness of the living.
2. Divine service has not been performed in this church upon any weekdays holidays or festivals (Good Friday and Christmas day excepted) for many years past because, I presume, the greatest part of the inhabitants being farmers and labourers it would be a great inconvenience for them to attend.
3. I perform divine service as incumbent.
4. I serve two other cures, viz. Collingbourn Kingston and Easton, a donative belonging to the right honourable the earl of Ailesbury; service at one o'clock in the afternoon. Collingbourn is distant three miles from Easton, and Easton one mile from Milton. I am not licensed to the cure of Collingbourn Kingston.
5. The holy sacrament is administered four times a year at Collingbourn and Milton, viz. Christmas, Easter, and Michaelmas.
6. I have generally in my parish of Milton about seventeen communicants, the number at Easter was nearly about that which I have mentioned.
7. There are no reputed papists in my parish, neither doth any popish priest reside, nor is there any popish school kept in the parish.
8. There are no Presbyterians, Independents, Anabaptists, or Quakers in my parish, consequently no teachers. There are none who profess to disregard religion. I am happy to inform your Lordship that I have no complaint to make against any of my parishioners.
9. I am sorry to observe that my parishioners have not duly sent their children and servants since I have been vicar to be instructed by me. I mean to enjoin all persons to send their children and servants to be catechized by me every Sunday in the Lent season in the English language and according to my own exposition.
10. There is a register book duly kept and in good preservation; returns are regularly made of births and burials into the registrar's office; goes back to the year 1686.
11. There is a register book duly kept against clandestine marriages.
12. There are no chapels of any kind whatever in my parish either in a perfect or ruinous condition.
13. There is no terrier in the parish of Milton. I have heard there are three in your Lordship's registry. I have, however, taken care to have one drawn as

accurately as circumstances will admit of according to your Lordship's directions.
14. There is no free school, alms-house, hospital, or other charitable endowment in my parish, consequently no governors etc. There has not any lands or tenements been left for the repair of the church, or for any other pious use in the parish.
15. Churchwardens are chosen every year in the Easter week, one by the vicar, the other by the parishioners.
16. There is not nor has there been (in my parish) founded any public or charity school.
17. I do not reside in the vicarage house, my place of residence is Heathy Close about two miles from Milton. I constantly serve the church myself.
18. There has not since I have been vicar, and I believe for a great many years before, [been] any alms collected at the sacrament.
19. There is nothing relating to my parish that I could wish to inform your Lordship of.

146 NORTH NEWTON [Newington als. Newton] f.1196  D. Avebury

1. Only once a day at each church, viz. at half past ten and at half past two alternately. And only once because of the number of churches in the neighbourhood to which the inhabitants may resort and hear both prayers and a sermon.

2. Prayers are read at Manningford C. on Good Friday and on the day after each of the grand festivals. Prayers used to be read at North Newton as above but omitted on account of their not being attended.

3. As rector of M.C. and as curate of N.N.

4. Answered above as to the first part. N. Newton is somewhat less than half a mile distant from M.C. The stipend, the whole sum, is for vicarial tithes amounting to £20 7s. per annum and collected with difficulty. I am not licensed to this lucrative cure.

5. At Christmas, Easter, and Whitsunday and the Sunday following each of these festivals at N.N. and in addition to these at M.C. on or about Michaelmas.

6. The communion is remarkably and uniformly well attended at M.C. and very indifferently at N.N.

7. No.

8. No.

9. In the present dearth of bread and of provisions in general few of the children of the labouring poor are sent to school or instructed to read. In consequence I do not catechize them. When I have done it has been, as is most reasonable to imagine, in the English tongue.

10. Register books are provided and regularly kept. Copies are duly made out but whether returned or not I cannot confirm. This querie would be put with greater propriety perhaps to the keeper of the office.

11. Certainly; I do not imagine there is a single parish in England without such.

12. No as to M.C. It has been said that Knoyle is a chapel to N. Newton but whether it be so or not, not having the means of information in my custody and it being moreover a matter of the utmost indifference to me, I have not inquired.

13. No. As to M.C. the want of it may very well be dispensed with, there being only a single acre of land belonging to the rectory exclusive of the Homestall. No right of common. The parsonage house and all the premises, which are very convenient, have been new built since the institution of the present incumbent. The church and chancel likewise, the first repaired at the expense of the parish, the last at that of the rector, are in such a condition as may possibly be equalled but cannot be exceeded by any parish church in the county.

6 Vicar, Henry Hawes; also vicar of West Knoyle. See below, query 12 and n. 9. For Hawes see Fugglestone, 91, of which he was resident curate.

7 Although he served as curate, he was getting the whole vicarial tithes as stipend, presumably by arrangement with the vicar. Clergy Books, 1783, give Hawes as vicar but do not mention a curate.

8 But see 7, 25, 96, 114, 133, 157, and 195, where there was either no marriage register or one in which the entries were not 'conformable to the Act of Parliament.'

9 West Knoyle, 116, was appendant to North Newton, the patron being the holder of the prebend of North Newton. In 1783 this was John Hawes (rector of Fugglestone and Wilton), the vicar's father, presented by Lord Pembroke in 1759. In his capacity of prebendary, Hawes had also presented his son to the vicarage of North Newton in 1780: Clergy Books, 1783; Liber Regis; Wilts. Inst. ii. 78, 91; see also above, p.13 n. 43.
14. No.
15. No. The churchwarden, for there is but one at M.C. who was originally nominated by the rector, having continued in office several years.
16. No.
17. I reside at the parsonage house of M.C. I am seldom, I had almost said never, absent. The parochial clergy are in a manner tied down to a single spot by a multitude of restraints, some of them very irksome and disagreeable to say the least of them. They are precluded from almost every possibility of bettering their condition; being out of the sight of those men who have it in their power to do something for them and with whom some of them have possibly formed connections, they are in consequence out of their minds; and a constant attendance on the duties of their profession like the impotence of the man in the Gospel usually puts it in the power of some other person to step before them.
18. No money is offered.

who usually go to a meeting in the neighbourhood, there being no place made
use of by them for divine worship. I know of no persons who openly profess
to disregard religion or who commonly absent themselves from all public
worship of God.

1. Divine service is performed in our church at half hour after nine in the morning once a fortnight. I can give no other reason but that of prescription why it is not performed every Lord’s day.
2. This I must answer in the negative and from prescription too. Such is the circumstance of the parish that I believe a congregation could not be formed.
3. As incumbent.
4. I serve no other cure in this diocese.
5. The sacrament is administered four times in each year at the three great festivals and Michaelmas.
6. We have but few inhabitants and the number therefore of communicants cannot be very great. I never knew more than seven or eight, but through sickness or death last Easter they were reduced one half.
7. No papist of any denomination.
8. No dissenter of any kind. No dissenting teacher or meeting-house. I know of none that profess to disregard religion, and the generality of the people are pretty constant attenders upon God’s public worship.
9. Children are sent, but it is very seldom that you can prevail for the attendance of servants. The season is some time or other in the summer, and all are catechized in the English language. I have not hitherto either expounded the catechism, or made use of any printed exposition, but in future shall be very assiduous, under the guidance, if any one, of Archbishop Secker.
10. We have a register book for births and burials, of which there is a regular return made every year into the registrar’s office. They go back to 1663.
11. We have a register book for marriages agreeable to the Act of Parliament.
12. There is no chapel standing or in ruins.
13. I know of no terrier, nor of any augmentation.
14. There is no school that properly comes under this description.
15. I believe they are chosen at that season, but always by the parishioners.
16. There is a little school endowed with £4 per annum issuing from some estate in Bristol. All the poorer children are admissible to be taught to read; I have often had experience that a proper care is taken of them.
17. I cannot, as the house would not contain my family; I reside at Beverstone near Tedbury in Glostershire, the distance from Norton is about six miles.
18. There is, nor ever was, I am told, no offertory.
19. Nothing that I can think of at present.
20. Beverstone near Tedbury, Glostershire.

Thomas Hornidge, vicar

5 Probably incumbent of Beverstone, Glos., where he resided.
The clear yearly value of the living, not exceeding £63 or £64, has always been the reason why divine service is not performed twice every Lord's day.

2. Divine service is performed only on Good Friday and Christmas day, on which days there is a sermon.

3. My church is, and has been, served by a neighbouring clergyman at about one mile distant for four of five years, my health not permitting me during that time to serve it myself; I answer these queries myself, my residence not being more than one measured mile from this church, consequently can, and do, pay a proper attention to the service of it.

4. Mr. Thring, the clergyman who officiates here, serves his own church likewise, distant only one mile. The name of Mr. Thring's own parish is Sutton Veney.

5. The holy sacrament is administered four times every year, viz. Easter, Whitsuntide, Sunday after St. Michael, and at Christmas.

6. Not more than seven or eight. This I can safely answer for as I frequently attend myself on sacrament days.

7. Not one reputed papist in my parish. No place in my parish in which they assemble for divine worship. No popish priest resides in my parish, nor resorts to it, neither is there any popish school kept in my parish.

8. There are three Presbyterians, a farmer and his wife and a miller. No Independents, Anabaptists, or Quakers. No teacher. The number of Presbyterians less, as part of the above mentioned family have left the parish. Here are none that I know of who profess to disregard religion; but here are some who do not frequent the public worship so frequently as could be wished.

9. They do not, but have desired them for the future duly to send them to me, which request if they comply with it, shall be my endeavour privately to instruct them, that they may be able to make a good appearance in the public church in Lent, the usual time of catechizing; at which time I will recommend it to my curate, if I am not able myself diligently to attend on them. I did not while I served the church myself make use of any particular exposition, but frequently in my sermons explained parts of the catechism.

10. The register books of births and burials are duly kept, and in good preservation; and the returns of births and burials are regularly made into the registrar's office. The register for births goes back to the year 1653. The register for burials to the year 1684.

11. There is a register book duly kept according to the direction of the Act of Parliament against clandestine marriages.

12. [a] There is no chapel in my parish. [f] We have only one church.

13. Have no account of any houses, lands, tithes, pensions, or profits. Have endeavoured to procure a perfect account of everything belonging to me as minister of this parish, and will deliver it to be laid up in the bishop's registry.

14. There is no free school or any other charitable endowment in my parish. There are no lands or tenements left for the repair of the church, or for any other pious use.

15. The churchwardens are chosen every year in the Easter week by the minister and parishioners together if they agree; if not, one by the minister, the other by the parishioners.
16. There is no public school founded in my parish, or any charity school.
17. I do not reside on the cure; I reside at Bishopstrow (scarce one measured mile distant from this place), of which parish I am the rector as will appear from my answers to your Lordship's queries directed to the officiating minister of Bishopstrow.
18. There is no collection; the communicants are generally very poor people, and rather objects of charity.
19. I do not know of any other matter relating to my parish of which it is necessary to give your Lordship information.
20. I reside at my living in Bishopstrow, one measured mile from Warminster, a post town.

3. As incumbent.
4. For some years I served the cure of Mynty. At present I serve, and more than two years last past have served, no cure but my own.
5. Four times, viz. Christmas day, Easter Sunday, Whitsunday, and the first Sunday after Michaelmas.
6. Owing to sudden illness the sacrament was not administered at Easter last. But on the Sunday when it was afterwards administered the number of communicants were about ten, nearly the usual number.

8. No.
9. My parishioners never send their children and servants to be instructed publicly in their catechism. I have been obliged therefore to instruct the few that will attend privately in my own house. I make use of no printed exposition, but expound to them myself in the manner which I think best adapted to their respective capacities.

17. I constantly resided in my parsonage house from the time when I was inducted to Michaelmas 1781, when I removed for the benefit of my health, and by the advice of my physician, to a neighbouring town, viz. Cirencester, distant from Oaksey about seven miles, where I resided that and the following winters. The intermediate summer I resided in my parsonage house. I am now returned to the same place, where I propose, if my health permits, to reside constantly for the future.

1. Divine service is performed in my church upon every Lord's day, both prayers and preaching in the morning at eleven o'clock and prayers in the afternoon at three o'clock, except on the first Lord's day of every month, when divine service, both prayers and preaching, is performed in a neighbouring church, at the distance of near half a mile, in the afternoon.
2. Divine service is performed in my church on Ash Wednesday and Good Friday.
3. I perform divine service as incumbent of my parish.
4. I serve no other cure.
5. The holy sacrament of the Lord's Supper is administered in my church four times in the year, at Christmas, Easter, Whitsuntide, and Michaelmas.
6. I have generally six or seven communicants in my parish. At Easter last I had five and at Whitsuntide six communicants.
7. There are eight reputed papists in my parish, one man, four women, and three children. The lord of the manor, his priest, and servants gave me a great deal of trouble for many years. They left the parish about twelve years ago. Since that time there has not been any popish priest resident in or resorting to it. There has not been any popish school kept in it. The reputed papists in my parish are all poor people.
8. There is not one Presbyterian, Independent, Anabaptist, or Quaker in my parish, nor any person who professes to disregard religion. There are three persons who commonly absent themselves from the public worship of God in my church, and I believe they do not go to any other place of public worship. I have admonished them privately many times, but without effect.
9. They do not. When there was a school in my parish for children who were old enough to learn their catechism, I used to attend it; but now there is no school for such children. The farmers have no children, and the poor people cannot afford to send their children to school when they are able to earn anything towards their maintenance.

10. I have a register book of births and burials duly kept, and in good preservation; but the churchwardens do not apply to me for a copy of it. My register of births and burials, with some defects, goes as far back as the year of our Lord 1541.

11. I enter all marriages according to the directions of the Act of Parliament against clandestine marriages, but in my small parish, in which there cannot be any clandestine marriages, I did not think it necessary to have a separate register book for that purpose. A copy will be delivered in this year.

12. Nothing under this article.

13. I have a terrier, but I am not certain that it is perfect, the authenticity of it depending upon the information I received from an old labourer when I first came into the parish. Before the inclosure of the parish takes place. I shall compare it with the terrier in the bishop's registry.

14. Nothing under this article.

15. The churchwardens in my parish are chosen one by the minister and the other by the parishioners. There is at present but one churchwarden, chosen by the minister, and sworn into his office with difficulty and at an extraordinary expense, which was owing to one of the churchwardens, leaving the parish, not delivering up the church book, and not making a presentment. It will be set right at the ensuing visitation.

16. Nothing under this article.

17. I constantly reside upon this cure, and in the house belonging to it. I am absent about a month or five weeks once in two or three years, when I visit my relations in Gloucestershire.

18. There is not any money given at the offertory.

19. Lord Radnor, the present lord of the manor, is going to inclose it. The rector to have every fifth acre of arable land, and every ninth acre of meadow and pasture. When the inclosure is completed I shall make a new terrier, and lay a duplicate thereof in the bishop's registry.

D. Wylye
1. Divine service is generally performed at a quarter before two in the afternoon and on sacrament days at eleven. It never was customary to have service here twice, owing I suppose to the smallness of the parish.
2. It has not been customary to perform any service on weekdays.
3. I perform service as curate. 4
4. I serve also the curacy of Shrewton together with Maddington. Neither of my cures are distant a mile from each other. The late bishop of Sarum did not require me to take licences to my cures; therefore have none.
5. [recte 6]. The number of communicants are about twelve, and on last Easter day about the same number. This number (owing to a mistake) answer to no. 6. Q.5. How etc. The holy sacrament is administered at this church at Christmas, Easter, and Whitsuntide.

160 POULSHOT

1. Divine service is performed once every Sunday at eleven o'clock in the morning, except every fourth Sunday, when it begins between one and two in the afternoon. This has always been customary. And the parish consisting of dairy farms, the occupations of the inhabitants, it is said, will not admit of a double attendance. The afternoon service on the 4th Sunday is calculated to facilitate holding a vestry for parish business afterwards.
2. I do not find that divine service has ever been performed on a weekday, except on Christmas day, Good Friday, and on fast and thanksgiving days appointed by special proclamation.
3. I am rector of the parish.
4. I serve no other cure.
5. Four times in the year, on Christmas day, Easter day, Whitsunday, and on the Sunday before or next after Michaelmas day.
6. The number of communicants on Whitsunday last was eight or nine. I never administered the sacrament in the church before, but am told that this was about the usual number.
7. There are no papists in my parish that I know of.
8. There are no dissenters of any kind in my parish, nor any that profess upon principle to disregard religion; although there are some who seldom, if ever, attend the public service of the church. I do, and shall as often as occasion serves, admonish such of their duty in this particular.
9. I do not find that the children or servants in the parish have been publicly instructed in the Church catechism of late. But it is my design as soon as possible to revive this salutary practice, and to expound the catechism publicly in the church at some convenient season of the year for the general benefit according to the best of my judgement.
10. The register of births and burials has been, and is, duly kept, and returns regularly made into the registrar's office. It goes as far back as the year 1627.
11. There is a register book duly kept according to the directions of the Act commonly called the Marriage Act.
12. There are no chapels of ease in the parish, nor do I know of any that ever have been.
13. I have no perfect terrier at present, but am endeavouring to make out one, and as soon as it is completed, a duplicate thereof shall be sent to be laid up in your Lordship's registry.

5 Christ Church Oxford 1728.
6 A second return for Poulshot, made by the newly-appointed rector. This form has no address across the last page and the sheets are not bound into the volume. Presumably it was sent in late. See 233, also loose.
14. I know of no charitable endowment in the parish, except a gift of £20 left by the will of one Mr. Daniel Mayo, the interest of it to be applied to the instruction of poor children of the parish, under the direction of the minister, churchwardens, and overseers of the poor. The parish have taken this money, and applied it to the repair of a parochial house, paying 20s. a year as the interest of it; but having given no security for it, I have called upon them to do so, and am taking measures for that purpose, as also for a better application of the money than has hitherto been made of it.

15. The churchwardens are chosen every year in the Easter week, one by the minister and the other by the parishioners.

16. There is at present no public school in the parish. But there is now on foot a plan for establishing one by voluntary subscription, in addition to the 20s. a year, the interest of Mr. Mayo’s legacy. All the children of the poor are designed to be taught in it gratis, if the funds will admit, and care will be taken to have them instructed in the principles of the Christian religion, and brought regularly to church. How far this charity may be extended, or what success it will meet with, is for time to discover.  

17. I mean to reside (as I do at present) upon this cure, and in the house belonging to it as long as ever I can. If the situation, which is said to be a damp one, should oblige me to reside elsewhere in the winter months, I shall endeavour to fix my residence somewhere near at hand, where I may attend to the care of the parish as much as [may] be and shall make my absences as short as possible.

18. There has not usually been any money given at the offertory till Whit-sunday last, when a small collection was made, and the sums given, and which shall be hereafter given, will be faithfully applied by me to charitable uses, for which I shall be always ready to give account.

19. To Q. 19 I reply in the negative.

20. Devizes is the nearest post town to Poulshot, the place of my residence.

Benjamin Blayney B.D. was collated to the rectory of Poulshot in the year 1783. Was ord. D. by the bishop of Worcester 22 Dec. 1751, and ord. P. by the same 20 Dec. 1752.

7. Neither papist nor reputed papist in the parish.
8. No sectaries of any denomination; but too many, as is the case of most places, who but too commonly absent themselves from the public worship of God.
9. No children have been catechized for some years past, there being no school in the parish where poor children may be taught to read, nor anybody capable of teaching. While there was a little private school, the children were usually catechized in Lent. There are but two families in the parish that have children, besides those of the poor.
10. There are two register books, the old one in bad preservation and in some places illegible; that in present use is duly kept and in tolerable good preservation, and the returns of births and burials regularly made into the registrar's office. The register of births and burials goes back to the year 1660.
11. Yes.

But I am now making one according to your Lordship's directions, which will be delivered to your Lordship's registrar at the ensuing visitation.
14. No free school or charitable endowment of any kind, or lands or tenements left for the repair of the church. The church and chancel have lately been rebuilt from the foundations, the church by the parish, and the chancel by myself.

163 POUltON
1. Divine service is regularly performed once on every Sunday, alternately in the morning a little before eleven and in the afternoon a little before two. 4. I am vicar of Coln St. Aldwin's, and serve the church there. Its distance from Poulton is mentioned above. I am duly licensed as curate of Poulton.
5. The sacrament of the Lord's Supper is administered at Christmas, Easter, Whitsuntide, and Michaelmas.
6. The number of communicants rarely exceeds ten or twelve, which was, I believe, the number at Easter last.
7. There is no papist in the parish, nor have any attempts been lately made, so far as I know and believe, to pervert any of the inhabitants of the place to popery.
8. There is one, and only one, family of Protestant dissenters. I am acquainted

with none who openly profess to disregard religion; but there are some, I fear, who seldom attend the public worship of God, notwithstanding that they have occasionally been admonished in private.

9. The young persons of the parish are examined in the catechism publicly on several Sundays in the course of the summer. I cannot say that I have hitherto delivered to them any formal exposition of the catechism. But it is my constant endeavour in my sermons to explain the doctrines and the duties of the Christian religion, as set forth in the Church catechism.

10. There is a register book duly kept, and returns are annually made into the registrar's office. It goes back so far as to the year 1695.

11. There is also a register book of marriages duly kept.

12. There is no chapel in the parish.

13. There is no terrier, for—alas!—there is no house, land, or tithe belonging to the curacy. The whole stipend is the sum of £20 10s. paid by the impropriator. Perhaps at some future time an augmentation may be hoped for from the governors of Queen Anne's Bounty.

14. There is no free school in the parish, or charitable endowment of any kind, except a small legacy of money to be given to the poor annually upon old Christmas day.

15. The churchwardens are chosen annually, in the Easter week, one by the minister and the other by the parishioners.

16. There is no charity school.

17. There is no house belonging to the incumbent.

18. The communicants being for the greater part persons in indigent circumstances, it hath not been customary to collect any money at the offertory.

19. If anything more relating to the parish of Poulton should occur worthy of your Lordship's notice, I will take the liberty to communicate it; I have the honour to be, your Lordship's most obliged and dutiful servant, 

John Keble.

164 PRESHUTE f.1326 [misfoliated] D. Marlborough

1. Divine service, both prayers and preaching, is performed once only every Lord's day, alternately in the morning at half an hour past ten o'clock and in the afternoon at three; and were prayers only to be read there the other part of the day, a congregation would seldom be mustered here, as the church stands so near to Marlborough St. Peter's, where they may hear a sermon also, together with the music of an organ erected there of late years.

2. On Christmas day and Good Friday there are performed herein both prayers and preaching.

3. As incumbent.

4. I serve also my church of Marlborough St. Peter's, not half a mile distant herefrom.

5. Four times, on, or near, Christmas day, Easter day, Whitsunday, and Michaelmas day.
6. The number of communicants continue about twelve, sometimes more, sometimes fewer.
7. One reputed papist, landlord of the Castle inn, lives in this parish, whose family are all members of the Church of England; consequently there is no place of papists assembling for divine worship, no popish priest, no popish school kept in the parish.
8. I know of no dissenters of any denomination in the parish, but am informed that some of the poorer inhabitants steal now and then into the Methodist, or Independent meeting-house at Marlborough.
9. I am sorry to accuse my parishioners of great remissness, in this part of their duty. Some plead their poverty, others their distance from the church, as their excuse; I hear those that come say their catechism in English on 6 or 7 Sundays in the summer season and explain the catechism to them from notes of my own compiling, when able to attend myself.
10. Yes. The earliest register of births and burials begins in the year 1607, those prior to that year having been burnt in vicarage house, which then stood in a part of the present churchyard.
11. Yes.
12. None.
13. I have received from the bishop's registry at Sarum copies of different terriers of different dates, as also of an instrument of augmenting the vicarage of Preshute, and of a composition respecting some of the tithes mentioned in the instrument of augmentation, from all which I hope to be able to draw up a true and perfect terrier of all lands, tithes, pensions, and profits which belong to me as minister thereof, whereof a duplicate will be delivered to the registrar at the visitation to be holden at Marlborough St. Peter's 28 July 1783.
14. A cottage, garden, and four acres and two roods of land (called Mosses) lying and being in the hamlet of Manton in this parish (formerly occupied by one Hitchcock) now by John Braithwaite Esq. at £6 per annum is left for the repairs of the church for ever. Which rent is received and accounted for yearly by the churchwardens. Twenty marks, the gift of Mr. John Coleman of Dinton (the interest whereof was to be laid out in apprenticing poor children of the parish) on 20 April 1750, were put at interest in the hands of Mr. John Neate senior then renter of Barton farm in the parish, who by the parish book appears to have paid the interest thereof up to the 20 April 1762. But he, as appears, dying insolvent in the year 1782, both the principal and interest are likely to be lost and sunk for ever; when in good credit, he left off his business to an only son.
15. Yes, one by the minister when he chooses to interfere, and the other by the parishioners.
16. None.
17. The house belonging to the vicar of Preshute having been destroyed by fire in, or shortly before, the year 1607, and never since rebuilt, I constantly reside at the parsonage house of Marlborough St. Peter's, not half a mile from Preshute church; and as the last and present incumbents have enjoyed both
benefices, it is to be wished that all future bishops will confer them on one and
the same person, as one will furnish him with bread and cheese, and the
other with a place to eat and sleep.
18. By the minister to the poor and needy, at the discretion of the minister
and the recommendation of the communicants.
19. None, unless it be whether John Neate junior can be compelled to make
up the loss of the charitable donation before specified, ans. 14th.
20. At Marlborough, a post town.

[Written under the address:] Thomas Meyler M.A., was ord. D. 20 Sept.

165 PURTON f.1334 D. Cricklade
1. Twice a day, prayers and sermon at 11 o'clock in the morning, and prayers
only at half after 3 in the afternoon.
2. Good Friday and Christmas day, and Easter Monday.
3. As incumbent.
4. None.
5. Four times. Easter day, Whitsunday, Christmas day, and the Sunday after
New Michaelmas.
6. Generally between thirty and forty. Easter last, number 34.
7. None.
8. [a] None. [f] There are some few of this latter class, i.e. who seldom appear
at divine service.
9. I catechize the children during Lent, and make use of Archbishop Secker's
lectures on the subject.
11. Duly.
12. None.
13. The last terrier was taken in the year 1711.
14. This question answered on the opposite side [i.e. under no. 16].
15. One of the churchwardens is chosen by the vicar, and the other by
the parishioners, on Easter Monday, annually.
16. There is a charity school, for teaching reading and writing to twenty poor
children, founded by Mrs. Miriam Stevens; took place about four years since,
the stipend, £17 10s. per annum, charged on a freehold estate in this parish.
The trustees are the vicar of Purton and the rectors of the two Lydiards,
adjointing parishes.
17. Constantly resident.
18. By the minister to such of the poor inhabitants as are occasionally in the
greatest distress.
19. [Blank]

A proposal by Bishop Barrington to unite the two benefices of Preshute (in the gift of the
Choristers' School) and Marlborough St. Peter (in the gift of the bishop) was approved by
legal advisers to the school in 1786, but nothing seems to have come of the proposal:

166 RODBORNE CHENEY f.1350  D. Cricklade

1. [a] Once, alternately at eleven and three; i.e. both prayers and preaching are once each Lord’s Day. [b] Because it has been no oftener of ancient use.
2. No; for no one attends; and it is very difficult, in a parish consisting chiefly of farmers and labourers and farmers, to assemble a congregation even on Ash Wednesday or Good Friday.
3. As incumbent.
4. At Little Bluntesdon, 9 about two miles distant. Never imagined a licence was necessary for so small a cure.
5. Easter, Whitsuntide, Michaelmas, and Christmas.
6. Eight or nine generally. Last Easter, eight; last Whitsuntide, ten.
7. Certainly no.
8. No. Some few perhaps are absent through age or infirmities.
9. The children are sent, and I have expounded to them myself. Lent is the usual time. The young people understand no language but English.
10. Yes. The register professes to begin according to an Act of Parliament bearing date 24 Aug. 1653, 1 in which year one birth and one burial are mentioned prior to the Act.
11. Yes.
12. No.
13. There are three terriers in your Lordship’s registry, the last is dated about 100 years past: I had copies of them from your Lordship’s registrar this present year, but they are at present under examination, and I can give no further account of them. There is likewise an endowment which I have not yet seen, but I believe it will be necessary. There has been no augmentation.
14. No.
15. The churchwardens are chosen one by the minister, the other by the parishioners, yearly at Easter.
16. An attempt was made to found a charity school by one of the late incumbents, but failed through the invalidity of his will by which the support of it was bequeathed, and I believe partly through the inability of his heirs.
17. Constantly.
18. Nothing is ever given at the offertory.
19. None that I know of.

167 ROLLESTON [Rolston] f.1358
D. Wylye
1. Divine service is performed in the church at Rowlston once every Lord's day, alternately at 11 o'clock in the morning and at 2 in the afternoon; it is not performed twice on account of the small value of the living.
2. Divine service is not usually performed on weekdays, except on more solemn occasions.
3. I perform divine service as incumbent, having been instituted in the year 1758.
4. With Rowlston I serve the cure of Durrington, 5 miles distant, to which I am duly licensed.
5. The holy sacrament of the Lord's Supper is administered at Christmas, Easter, Whitsuntide, and Michaelmas.
6. The number of communicants at Easter last was, as has been usual, about eight or ten.
7. No reputed papists are in the parish.
8. I do not know of any dissenters in the parish, nor of any persons who profess to disregard religion, but it is to be wished that some were more constant in their attendance at the public worship of God.
9. The children have been called upon to be catechized, but none have attended.
10. A register book of births and burials is duly kept, and returns have been made into the registrar's office as often as called for. The register commenced in the year 1653.
11. A register book of marriages is duly kept.
12. There is no chapel of ease in the parish, nor any ruinated chapel.
13. There is what appears to be a true terrier of the parish; but I do not know whether a duplicate thereof is in the bishop's registry nor do I know of any augmentation being made of the living.
14. There is no free school, alms-house, or hospital in the parish. In the year 1704 £10 per annum were given by Mrs. Anne Estcourt to put out poor boys to be bound apprentices, which benefaction is under the direction of the minister and churchwardens.
15. The churchwardens are usually chosen about Easter, one by the minister and the other by the parishioners.
16. There is no school in the parish.
17. I do not reside at Rowlston, but at Amesbury, a post town, five miles distant, where I am very near to Durrington, which is by far the most extensive cure.
18. No money is usually given at the offertory.
19. I know of no other matter relating to the parish of which it may be proper to give your Lordship information.

Roude near Devizes, 4 Wilts. William Higginson vicar.

3. As incumbent. 
4. I serve no other cure. 
5. The sacrament is administered four times every year, Christmas, Whitsun, Easter, and Michaelmas.

6. About six or eight; at Easter, six.

Letter missing. The form has been addressed to the rector etc. of Rowde, crossed out and Corsham substituted. Although the wording of the return suggests that it was made by the curate, the handwriting is the same as the return for Rowde and is presumably that of the vicar of both parishes. Perhaps he sent in both returns together, and Corsham was thus bound up in the wrong alphabetical order.

See 168.

Corsham was one of the very few places on which the privilege of a peculiar or consistory had been conferred, giving the vicar certain episcopal privileges within the parish. The peculiar was abolished in 1857: W.A.M. xliii. 526.

174 SHORNCOTE [Sherncot] f.1436

D. Cricklade
1. Once on every Lord’s day, at 2 o’clock in the afternoon; and as the inhabitants are so few in number, divine service never was performed there but once on every Lord’s day for time immemorial.
2. No.
3. The church is at present served by Mr. Eddy, curate of South Cerney, but should my health be restored I intend to serve it myself, at least occasionally.
4. I lately served the curacies of Malmsbury and Garsden, to the former of which I was licensed by the late Dr. Thomas of Winchester, when he was bishop of Salisbury, but I have now quitted both on account of ill health.
5. Three times in every year, viz. at Christmas, Easter, and Whitsuntide.
6. As the parish is small, the number of communicants is consequently small and incapable of much increase. At Easter last there were only three, and much the same as usual.
7 & 8. To all these queries I answer in the negative, as there are no dissenters of any denomination whatsoever in my little parish. I wish I could add that all within it lived under the habitual influence of our most holy religion, and attended upon the service of our excellent church constantly with proper views and from right principles.
9. Such as send their children have them, I believe, catechized in Lent, when the Church catechism is properly explained to them; but it is to be lamented

that parents and heads of families pay but very little regard to this necessary
duty, however they may be reminded of their obligation to it.
10. There is a register book for births and burials in pretty good preservation.
It goes as far back as the year 1633.
11. There is a separate marriage register book according to the directions of
the Act of Parliament against clandestine marriages.
12. To all these queries I answer in the negative.
13. There is a true and perfect terrier bound up with the old register book,
a duplicate whereof will be left with your Lordship's registrar. There has been
no augmentation to the living; but a late Act of Parliament respecting the
inclosure of Ashton Keynes common has assigned lands in lieu of the tithes,
which were due to me from some part of that parish.
14. All these queries I answer in the negative.
15. The churchwarden is chosen every year by the parishioners in the Easter
week.
16. I never heard of any school in the parish, and therefore I must answer all
these queries in the negative.
17. I do not reside upon this cure as the living is so small, and the house is so
very inconvenient for my bad state of health; but I reside at Malmsbury
which is about seven or eight miles distant from it, where I have a house of
my own and can be much better attended in my affliction.
18. There is no money collected at the sacrament.
19. I know of no other matter respecting my parish of which I can give your
Lordship any further information.
20. I reside at Malmsbury, which is a post town.
I was instituted to this living on the 3 Jan. 1765. I was ord. D. on the
13 Aug. 1758, and ord. P. on the 15 June 1760. I was bred at Oxford but have
taken no degree.

175 SHERRINGTON f.1444
D. Wylle
1. My lord, twice a day, morning and evening, at the hours of half after ten
in the morning, and of two in the afternoon; prayers and preaching.
2. Yes, constantly, upon holidays and upon the yearly festivals. Constantly
also, upon the eves before the sacrament.
3. As incumbent.
4. None.
5. None.
6. Four times. At Christmas, Easter, Whitsuntide, and at Michaelmas.
7. Not many, my parish being but small. Easter last, we made seven; some-
times more, sometimes less. Not so many at any time as we ought.
7. We have no papist, reputed or real. And therefore have no place here where
they assemble for divine worship, nor any popish school kept in the parish.
8. Presbyterians. Independents, Anabaptists, Quakers, there are none of

17 Geo. III, c. 139.
them here. Neither, I thank God!, any profane persons. Few as we are, absenters are too common, and too many. Not without care on my part to make them otherwise. The plea is children and want of clothing.

9. I catechize every year, in Lent. At the same time I make a present to them of some well approved exposition, Lewis etc., as well to the servants as to the children. Parents and masters, neither of them as they are bound in duty to be, are not so exact nor careful here.

10. Yes, duly kept, and in good preservation. I deliver out a copy of it yearly at the time of the visitation. Our register contains the present century to this present year '83, and goes as far back in the former as to the year '77,—1677.

11. Yes my Lord.

12. None. Neither are there any ruined chapels, nor chapels in the parish of Sherrington.

13. My terrier is in the bishop’s registry. There hath been no augmentation made to my living since it was there deposited. For my own part, I found no terrier left behind for me by the former rector, nor that he had any to succeed to when he was made incumbent himself. No doubt there is a fault. And we are thankful to your Lordship for your paternal care as to this matter.

14. The parish of Sherrington hath no such thing of any kind in it. We have not, neither, any lands nor tenements left for the repair of our church, nor for any other pious uses, except only a gift of charity to the poor of Sherrington, to the amount of £67, now deposited in the hands of Edmund Lambert Esq. of Boyton, at the yearly interest of £4 for an hundred, under bond. I distribute it yearly myself to the poor at Christmas.

15. Every year in the Easter week. The parish being small, and but few principal inhabitants, we content ourselves with one; and with him, as quite sufficient for his office. He is chosen at Easter, by myself and the vestry together.

16. We neither have, nor have had, any public or charity school in this parish.

17. I reside constantly upon my cure, and in the house belonging to it. Having no dignity myself, I have no title to the allowed absence for such as have.5

18. The offertory money is disposed of by myself, to the widow and aged poor. Especially if they make one at the altar.

19. None.

I was instituted to the rectorcy of the parish church of Sherrington 3 Jan. in the year of our Lord 1778. I was ord. D. at Oxford in year 1738, 14 Jan. I was ord. P. at Oxford 17 June 1739. My degree is M.A.

Thomas Wilmot Case,6 rector of Sherrington

176 SHERSTON [Great Sherston] f.1452 D. Malmesbury

1. I have the care of two churches, and the duty at each is alternate. I read

---

5 Presumably he had in mind Canon XLIV of the Canons of 1604, which allowed prebendaries and canons to be absent from their benefices with cure for not more than one month in the year.

prayers and preach at both of them once every Sunday; the hours at the
former are ten, or between ten and eleven in the morning, and two or half an
hour after two in the afternoon; at the latter, half an hour after ten in the
morning, and between one and two in the afternoon.
2. I generally read prayers Monday and Tuesday in the Easter and Whitsun
weeks, and would gladly do it on other festivals or fasts if my parishioners
could be prevailed on to attend them; it is a constant rule with me to preach
upon Christmas day and Good Friday at both my churches.
3. As incumbent.
4. [Blank]
5. The sacrament is regularly administered, at each church, on the three great
festivals of Easter day, Whitsunday, and Christmas day, or the Sundays
following, and on the two Sundays immediately after Michaelmas.
6. The communicants at each church are in general from 14 to 18, the number
that communicated last Easter, viz. 18 at Sherston, 14 at Alderton. I have
endeavoured both by private and public exhortation to increase that number,
but not with the desired success.
7. [Blank]
8. We have no dissenters. It is with concern I acknowledge there are some
persons under my care who, if they do not profess to disregard religion,
evidently discover by their practice a total neglect of its important duties.
I should with pleasure adopt any means which might have a tendency to
bring them to a sense of their unhappy condition; it is not to be wondered at
if such persons wholly absent themselves from the public worship of God;
butsides these, I have several in my parish who, though not so dissolute
as the former, are far from being constant in their attendance on the service
of the church; I will continue my endeavours to bring them to a more regular
discharge of this great duty.
9. My parishioners have not sent their children and others in a regular
manner to be instructed by me; but I have already given directions for that
purpose and intend, in future, to catechize them every summer; after they
are perfect in their catechism, I design putting into their hands a short,
familiar exposition.
10. The register books of baptisms and burials, in each parish, are in good
preservation; the entries are properly made, and returns regularly transmitted
at the respective visitations. The register for Sherston commences the 23 Jan.
1653, for Alderton the 25 March 1653.
11. The marriages are constantly registered in a book for that purpose
agreeable to Act of Parliament.
12. The chapel of ease annexed to this parish is Alderton, at the distance of
two miles: I receive £30 yearly for the care of it from the dean and chapter of
Glocester who are the patrons of this living.
13. In the bishop's registry are three terriers which belong to this parish;
the last contains a particular statement of the glebe, tithes, etc., and bears
date the 5 of Jan. 1704; of this I have a duplicate. As no augmentation has
taken place since that time, I apprehend a new terrier is unnecessary.
14. [d] The present annual rent of the lands and tenements which belong to
the church of Sherston-magna is somewhat more than £12; this is regularly paid to the churchwarden appointed by the parish, who delivers in his account of receipts and disbursements every Easter to be inspected, approved, and signed by the minister and parishioners then present.

15. The churchwardens are appointed every year on Monday in the Easter week, the one by the minister, the other by the principal parishioners.

16. In the parish of Sherston are two small day-schools, for instructing young children of both sexes in reading, spelling, and the Church catechism; they are each of them supported by a settled endowment; the one belongs to the parish in general, the other to a particular hamlet; in the former the number instructed at a time is five, in the latter six. When the children can read with ease and are perfected in their catechism they are discharged, and others admitted in their room.

17. I have been constantly resident since the time of my institution, reside at present in the vicarage house, and am never absent, unless on occasional visits to my friends. I beg leave to inform your Lordship that when I first entered upon my living I found the house and the other buildings in so ruinous a state it was impossible to repair them in such a manner as to make them in any degree comfortable and convenient; and my predecessor having died insolvent, no sum could be recovered for dilapidations. Under these disadvantages I at last came to a determination to rebuild the whole, and for that purpose solicited some assistance from the dean and chapter of Gloucester, who granted me a benefaction of £80. In the execution of my design I have, exclusive of this sum, expended not less than £420. My vicarage (including the chapel annexed), after deduction of taxes etc., does not clear me more than £80 per annum. This is principally occasioned by a modus for milk, which custom has established in the parish; with the view of setting aside this modus, I once took the opinion of the present Lord Chief Baron of the Exchequer who, after a mature consideration of the circumstances, recommended it to me not to proceed.

18. It has never been usual, at either of my churches, to receive offerings at the celebration of the Eucharist; and as the communicants are in general poor, I have not thought it prudent to introduce the custom.

19. I hope to be forgiven by your Lordship, if I mention that with the income arising from my living as above-stated, and a small addition to it, I am obliged to support a very large family.

20. Sherston near Tetbury.

My institution is dated the 19 Jan. 1770. Deacon's orders 23 Feb. 1766, priest's orders 28 June 1767.

Thomas Turner A.B.

177 SHREWTON f.1464 D. Wylye

1. Divine service is performed alternately at ten, and three in the afternoon. It never was customary to have service here twice, owing I suppose to the smallness of the parish.

2. It has not been customary to perform any service on weekdays.

*7 Probably Pembroke Coll. Oxford 1763.*
3. I perform service as curate.  
4. I serve also the curacy of Maddington together with Orcheston St. Mary. Neither of my cures are distant a mile from each other. The late bishop of Salisbury did not require me to take any licence to my cure, therefore have none.  
5 [recte 6]. The number of communicants are about six and thirty, and on last Easter day did not appear to vary from the former years. This fifth Q. owing to mistake answers to the sixth. Q. 5. The holy sacrament is administered at Christmas, Easter, and Whitsuntide.  
6. This question is answered opposite Q. the fifth in the third page.  
7. There are no reputed papists, no priest, school, or chapel where they assemble.  
8. There are no Presbyterians, Independents, etc., etc., neither are there any (according to my knowledge) who absent themselves from public worship.  
9. It has not been customary to catechize children at this small parish church; neither will time properly admit of it, because one or more churches are incumbent on the curate to serve.  
10. I have a register book of births and burials duly kept; the register goes about so far back as 1640 both for births and burials.  
11. There is a register book kept to prevent clandestine marriages.  
12. There are no chapels of ease in the parish etc.  
13. There is no terrier. The vicar's income is from small tithes (viz.) hay, wool, etc. The vicar's annual income is £47.  
14. There was £10 per annum left by Ann Estcourt in 1706 for apprenticing poor boys and is now under the direction of the minister and churchwardens, but at present some difficulties have been made in regard to the payment. Some land has been left let at £3 4s. per annum for repairing the north aisle of the church; the person who left it is unknown.  
15. In every Easter week the churchwardens are chosen by the minister and parishioners together.  
16. There is no public school.  
17. I reside in one of my parishes, and within a mile of the others. I do not reside in the parsonage house as it being too small for a family.  
18. There is none given.  
19. None.  
20. Orcheston St. Mary is my residence, and Market Lavington is the nearest post town.

I entered as commoner at Queen's College in Oxford, where I resided about three years and was ord. D. at Salisbury at Michaelmas in the year 1777 and priest at London at Christmas by the bishop of Glocester in the year 1781.

3 No signature. Curate, Joseph Legg: see 131.
1. Divine service is performed twice in my church on the Lord's day, prayers and preaching in the morning, and prayers (and sometimes preaching) in the afternoon; it begins about eleven o'clock in the morning and about three o'clock in the afternoon.

2. Divine service is performed in my church on some of the principal holidays or festivals that happen on weekdays, though the congregation is very small in the morning, but is considerably increased in the evening by having prayers and preaching after their daily work is done.

3. I perform divine service as incumbent of my parish.

4. I serve no other cure.

5. The holy sacrament of the Lord's Supper is administered in my church four times in the year, viz. on the nativity of Christ, Easter day, Whitsunday, and the first Sunday after St. Michael's day.

6. I have generally about thirty communicants in my parish.

7. There is nothing of that kind in my parish.

8. There is nothing of that kind in my parish, except two men of no consequence who are called Quakers. There are some persons in my parish who commonly absent themselves from the public worship of the church, who pretend, when I have talked to them upon that subject, that they go to the Methodist meeting or some other place of public worship in some of the neighbouring parishes.

9. Some of the parishioners send their children to be catechized, and some do not. I expound to them myself in such a way as I think most suitable to their capacities, but I endeavour to follow, as well as I can, the expositions of Archbishop Wake and Archbishop Secker. I have done it at different times of the year, sometimes in Lent, sometimes between Easter and Whitsuntide, and sometimes after Whitsuntide; I find by experience the last to be the most convenient and best attended.

10. I have such a register book duly kept and in good preservation, and regularly make such returns; it goes back as far as 11 May 1707.

11. There is such a register book duly kept.

12. There is nothing of that kind in my parish.

13. I have a terrier which was left with me by the executrix of my last predecessor; it is properly drawn up and attested, and I believe there is a duplicate of it in the bishop's registry. There has been no augmentation of my living since that was done.

14. [a] There is nothing of that kind in my parish. [d] There are some lands and tenements left for the repair of the church. The rector and some of the principal inhabitants have the direction and management of them.

15. The churchwardens in my parish are chosen in the Easter week, one by the minister and the other by the parishioners.

16. There is nothing of that kind in my parish.

17. I do constantly reside upon this cure, and in the house belonging to it.

18. It is disposed of by the rector to some of the poor people who attend the holy sacrament.

19. Nothing more at present.

My Lord, I hope I have answered all your Lordship's queries to your satisfaction. I am, my Lord, your Lordship's most obedient humble servant,

179 SOMERFORD KEYNES D. Cricklade f.1480
1. Divine service, both prayers and preaching, is performed once every Lord's day, morning and evening alternately; in the morning at a quarter before eleven o'clock; in the evening at a quarter after two; oftener than which it has not been performed since I have known the parish. The vicarage upon the present footing is not more than £50 per annum clear.
2. Upon Christmas day only.
3. As curate these eighteen or nineteen years, but without being licensed.
4. Yes; the cure of Poole of which I am rector, distant from Somerford Keynes one mile and quarter.
5. Four times, Easter, Whitsuntide, Michaelmas, and Christmas.
6. Eight or nine; at Easter last, nine.
7. There is neither papist nor reputed papist at Somerford.
8. No sectaries of any denomination; but too many, as is the case in most places, who but too commonly absent themselves from the public worship of God.
9. No children or servants have been catechized for some years past, neither have any been sent for that purpose. There is no school in the parish but a little private one, where those few who are taught to read learn the catechism.
10. The register book of births and burials is duly kept, and in tolerable preservation; and the returns of births and burials into the registrar's office are regularly made. The register extends back to the year 1560.
11. Yes.
12. There is no chapel of ease in this parish.
13. There is no terrier to be found in the parish; but there is a duplicate laid up in the bishop's registry at Salisbury, delivered in by the late vicar, Mr. Turner, a copy of which is in the hands of the present vicar, Mr. Dry, since which there has been no augmentation or alteration, I believe, made in the vicarage.
14. There is no free school or charitable endowment of any kind; nor lands or tenements for the repair of the church.
15. The churchwardens are chosen yearly in the Easter week, one by the minister and the other by the parishioners.
16. There is neither public nor charity school in this parish; only a little private school kept by a poor old woman, where a few children are taught to read and instructed in the Church catechism.
17. No; I reside at Poole, one mile and quarter distant from this place.

2 Exeter Coll. Oxford (patrons of the living) 1735.

180 LITTLE SOMERFORD f.1488
D. Malmesbury
1. Once a day, between ten and eleven in the forenoon. Divine service is performed but once a day as the parish is small.
2. Divine service is not performed here on weekdays etc.
3. As curate.6
4. I serve Sutton Benger together with this church of Little Somerford. They are four miles distant from each other.
5. Four times, Christmas, Easter, Whitsuntide, and Michaelmas.
6. Generally about half a dozen. Last Easter there were seven communicants, which is nearly the usual number.
7. I know of no papists in this parish etc.
8. I know of none in this parish who totally absent themselves from church; there are amongst us some of the people called Methodists, but they have no places set apart for divine service.
9. I have not yet been able to procure a regular attendance of the younger part of the parish for the purpose of catechizing, but I hope soon to be able to do it.
10. A register book is duly kept; returns of births and burials are regularly made.
11. There is.
12. There are no chapels of ease in this parish.
13. We have no terrier, but I have drawn one out, agreeable to the best information I could procure.
14. We have no free school etc. in this parish.
15. The churchwardens are chosen in the Easter week. They are chosen by the minister.
16. We have no charity school etc. in this parish.
17. I reside here, as curate of the parish.
18. Distributed by me amongst the poor of the parish.
19. I know of none.
20. I reside here at Little Somerford. The nearest post town is Malmsbury.

The incumbent of the parish serves the church of Swindon. I received deacon's orders at midsummer 1780, and priest's orders midsummer 1782, having previous to my entering into orders taken a bachelor's degree at Oxford, where I was also ordained; the date of my degree is in Lent 1780.

John Morgan7

5 See 161.
6 Rector, William Jones. Resident in Swindon, 194, as curate assisting the vicar.
7 Probably Pembroke Coll. Oxford 1776. See also 192.
1. My church is served for the most part twice every Lord's day throughout the year; generally there are prayers only for morning service, prayers and preaching for the evening.

2. Divine service is performed only on Christmas day, Good Friday, public fast days, or other days appointed by proclamation that may happen on weekdays; the parish consisting of 3 or 4 farmers, day labourers, and poor people, who have their bread to get daily, I cannot on other days raise a congregation.

3. I perform it as incumbent.

4. I serve no other church, unless it be sometimes to assist the neighbouring clergy in cases of emergency.

5. It is administered 3 times in the year, viz. on Christmas day, Easter Sunday, and Whitsunday.

6. I have generally seven or eight communicants inclusive of my own family. I had about the said number last Easter Sunday.

7. There are no such reputed persons in this parish; there have none, that I know of, been perverted to popery; there is no such place of worship, no such priests resort hither, nor any such school kept.

8. There are no persons of either of these denominations that I know of, in this parish [nor have been for many years, crossed out] (2 Anabaptist women about 5 or 6 years ago in this place) nor is there any place used here for divine worship besides my church. I know of no persons in this parish who profess to disregard religion or who absent themselves from all public worship of God; but this I must say, that a great part of the persons who dwell in the parish scandalously and very frequently absent themselves from the public worship here, notwithstanding my frequently admonishing them both publicly and privately.

9. I frequently expound the catechism publicly in the church in the time of Lent, in the mother tongue. The exposition is partly my own, and partly that of Dr. Wake.

10. There is a register book of baptisms and burials and marriages duly kept; and I regularly make returns of all baptisms and burials and marriages once yearly at the clergy visitation. The register goes back only to the 26 Feb. 1697/8. The register before that time is long since lost.

11. There is such a register book duly kept here against clandestine marriages.

12. There is no chapel of ease belonging to this parish, nor any ruined chapel in it; no further reply therefore to this Q. necessary.

13. There is no terrier here of any kind to prove what belongs to the minister, nor can I say when there was any such instrument in being; but think it proper here to inform your Lordship that in the year 1728 the lands, which before lay in common fields, were by the joint consent of the proprietors inclosed, and the parsonage lands, which before were interspersed in small parcels, were changed and almost all laid together, whereby afterwards the living was considerably augmented, and let for £100 per annum, which before, I believe, was scarcely of half that value. I hope your Lordship will not think me
impertinent in saying here that the living has all along been highly rated, and that the outgoings are very considerable.

14. There is not any one thing mentioned in this Q. in or belonging to this parish.

15. This being a small place, there is only one churchwarden thought necessary, and is yearly chosen in the Easter week by the minister.

16. There is a small charity school in this parish for teaching seven poor boys or girls to read, supported by the duchess of Beaufort during her pleasure; which is all that is to be replied to this Q.

17. I customarily reside upon this cure, and dwell in a house belonging to the duke of Beaufort, where I have lived ever since, and before I had the living. The parsonage house is let. I seldom sleep out of my dwelling house one night throughout the year.

18. I always dispose of the money given at the offertory to the poor, at my own discretion.

19. I know of no other matter relating to this parish proper to inform your Lordship of.

20. For answer to this Q., see that to Q. 17.

182 STANTON ST. BERNARD [Stanton Bernard] f.1512 D. Avebury

1. This church is served alternately, divine service begins at 10 o'clock in the morning and 3 o'clock in the afternoon. The reason is the lowness of pay, being no more than £20 a year. Another reason is the badness of the roads.

2. There is divine service performed on all holidays and festivals throughout the year.

3. As curate.

4. I serve the cure of Heddington only, about six miles distance. I took a licence out for Heddington when I was ordained deacon.

5. Four times in the year, at Easter, Whitsunday, Michaelmas, and Christmas.

6. There are generally twenty-seven communicants attends. I can observe no difference at Easter from any other time of the year.

2. On saints' and red letter days, throughout the year, and on Fridays in Lent.

4. I serve no other cure. I had letters dismissory for priest's orders from the late bishop of Sarum at which time it was not required of me to be licensed.
5. Four times at Steeple Ashton, and the same at Semington, viz. Easter, Whitsuntide, Michaelmas, and Christmas.
6. From 30 to 50. The number of late greater than usual.
7. Not any.
8. None but Methodists, a few of whom meet at a labourer's house, not licensed; preachers, one Newborn, a weaver, and one Sly, a tailor. Their number less by some hundreds than of late years. They are of the Huntingdonian sect.

Vicar, James Lloyd. Clergy Books, 1783, have the note 'in Wales' against his name.
See 12.

Vicar, Lawrence Elliott or Eliot. Magdalene Coll. Cambridge 1743. The college owned the advowson and the vicar had to be unmarried: V.C.H. Wilts. viii. 213.
9. Those who have learned their catechism are instructed by me every Friday in Lent. I expound to them myself in the English language.
10. Yes, both at the church and the chapel. The church register goes as far back as the year 1558, that of the chapel as the year 1604.
11. Yes.
12. The chapel of Semington has prayers and a sermon every Sunday; also a sermon on Good Friday, for which the preacher receives 20s., being the legacy of Mrs. Joan Bisse. There are lands appropriated for its maintenance, of which an account will be given in the terrier. Distant from Steeple Ashton 2 miles, and served by the curate of Steeple Ashton.
13. Mr. Eliot, the vicar, is at present at Hambledon in Surrey, in a very indifferent state of health. He has desired me to mention that the terrier shall be exhibited as soon as he can attend to make it out.
14. No free school, alms-house, or hospital. Thomas Somner of Wellowe in county Somerset left 40s. annually for the schooling of two poor boys of the tithing of Semington, payable by his executors out of his estates in the said tithing to the overseers of the poor for the time being, who nominate the boys. A copy of the will, and also an account of the lands etc., will be given in the terrier.
15. Church and chapel wardens appointed every year on Easter Tuesday, two by the minister, and two by the parish.
16. No charity or public school. The schoolmaster of the private school, a very ingenious and diligent man, instructs the children under his care in the principles of the Christian religion. Teaches reading, writing, arithmetic, and the mathematics; which he has acquired merely by his own industry and application. It is reported that Mr. Flicks, who died in January last, left a legacy of £5 per annum to this school, but I believe the will is not proved.
17. I constantly reside upon this cure, but not in the house belonging to it, that being occupied by two of the vicar's servants.
18. It is distributed by the minister directly after divine service at the rate of one shilling to every poor person present at the sacrament. The overplus accounted for in a book, and reserved to buy bread, coals, or other necessaries for the poor in the winter.

3. As incumbent.
4. I do not at present.
5. Thrice, viz. Christmas day, Easter, and Whitsunday.
6. [a] Between twenty and thirty. [b] To the best of my remembrance about
eighteen. [c] Less than usual.
7. I have the pleasure to inform your Lordship that we have none residing in
the parish. There is no school for the education of papists, or popish priest
residing in our parish according to the best of my knowledge. I make no
doubt but that they have itinerant teachers, who are popish missionaries,
who hold forth in their conventicle; having had accounts of strangers very
fine teachers to perform amongst them.
8. [a] There are Anabaptists. [c] They have no settled teacher. [d] Their
number is considerably less than formerly. They are (I am informed) deserted
by their teachers. [e, f] Too many.
9. I have taken particular care of the catechizing our children. They are
catechized two or three times every week. They are catechized in the vulgar
tongue.
10. We have register books of baptisms and burials in good preservation. A
copy of baptisms and burials are regularly transmitted yearly to the register’s
office. Our registers of burials and baptisms go back to the year 1653.
11. There is a register book duly kept according to the Act of Parliament
against clandestine marriages.
12. We have no chapels of ease in our parish.
13. [a] I have a terrier of the houses, lands, tithes, and profits which belong
to me as minister of the parish. [b] I cannot tell. [c] I am not informed.
14. Lands have been left for the repair of our church, about two or three
acres in the common fields. I cannot learn the name of the benefactor.
15. One churchwarden by the minister and the other by the parishioners.
16. Out of a settled endowment of £3 a year charged on lands by a John
Hering’s last will and testament, whereof £2 10s. is appointed for the teaching
of six children of either sex, and 10s. being part of the said £3 to be equally
divided between four poor women if so many poor women attend to receive
the sacrament, or poor men if so many on failure of the said women; what is
very remarkable in the affair is the [? recte that] John Herring was a professed
Anabaptist, and the said children are to be instructed according to the forms
of the Church of England. And is further seemingly a paradox, the poor
women are to receive the holy sacrament on Christmas day at the parish
church of Stratton St. Margaret.
17. I constantly reside upon this cure and in the house belonging to it.
18. There is no collection.

John Herring’s house in Stratton Green was licensed as a Baptist meeting house in 1709:

My Lord, may it please your Lordship, I hope that my answers to the above interrogations may give your Lordship satisfaction, they are according to the best of my knowledge and belief. I am in perfect sincerity and truth your Lordship's most obedient servant,

15. Churchwardens chosen every year in the Easter week, by minister and parishioners together.
16. No public nor charity school.

1. Whilst I was able to perform duty myself I regularly did my duty at Tokenham on Sunday mornings about eleven o'clock and for many years back at Lyneham about half an hour after one. I must refer your Lordship to my letter herewith sent.

2. None in either of the two churches, as I am well persuaded none would attend in either parish.

3. At Tokenham as rector, at Lyneham as curate, being employed by the churchwardens, who have a sequestration.

4. I served Lyneham. The parish comes to my garden at Tokenham. The church is about a mile from me. I have no licence as it was not safe to take one when I last undertook the cure of Lyneham, occasioned by a lawsuit against the minister by one of the impropriators.

5. Three times a year in both parishes, at or near Easter, Whitsuntide, and Christmas.

6. At Tokenham I have but seven now that ever received the sacrament, at Lyneham ten or twelve. They are decreased at Tokenham but rather increased at Lyneham.

7. None in either parish.

8. In Tokenham none. In Lyneham a set whom we call Methodists. They have lately built at Clack, in the parish of Lyneham, a neat chapel and a small neat house for their minister. His name was Young, but having lately failed in his trade in some branch of clothing he has now left it, and I do not hear that any other has yet succeeded him. He was occasionally assisted by others, particularly Mr. Hill. I think their number rather decreases and consist chiefly of the lowest class of people. They both baptize and bury. I believe the house is licensed.

9. I do not catechize the children at Tokenham, there not being six in the parish who can read of a proper age for that duty. At Lyneham there are more, but I think they are very well served by having service every Sunday and their children baptized and the dead buried for the trifling pay the minister receives for the duty.

10. Yes. The old register goes back as far as the year 1653, in Tokenham.

11. Yes, in both parishes.

12. None in either parish.

13. I refer your Lordship to my letter.

15. The churchwardens in both parishes are annually chosen in Easter week. At Tokenham we have seldom more than one who is chosen by me. At Lyneham, one by the minister and the other by the parishioners.

16. At Tokenham none. At Lyneham a school was founded about 60 years ago by a Mr. Ralph Brome to teach not exceeding 30 poor children gratis of

3 For the complicated history of Lyneham see V.C.H. Wilts. ix. 90-104.

4 It seems likely that this in fact refers to the Providence Chapel of the Baptists, built in 1777: V.C.H. Wilts. ix. 103. A society of Whitefield's followers was founded at Lyneham in the 1740s, and the Mr. Hill referred to in the return is presumably Rowland Hill: ibid.
that parish, in reading, writing, and arithmetic and to instruct them in the principles of the Christian religion according to the Church of England. The sum given was £450. Great part of which was laid out in the purchase of lands by the then trustees. The remainder I lately paid to the earl of Radnor who is now the only trustee. The parish finds an house.

17. I have constantly resided at Tokenham in the house belonging to the living.

18. None ever given.

19. I refer your Lordship to my letter.

[Letter on a separate sheet:] My Lord, In answer to your Lordship's queries I have rather informed you how the duty of the parishes was done before my illness than how it is now done. But as your Lordship has a right to know that, I beg leave to acquaint you with the following particulars. In the month of June 1781 I was seized with a violent fit of illness which rendered me quite incapable of doing any duty. I applied to the Rev. Mr. Thomas, who lives at and serves the church of Hillmarten, and agreed with him to serve Lyneham for me till Michaelmas following. My church at Tokenham was supplied by my neighbouring clergymen. In the month of September I attempted to do my duty at Tokenham but found myself quite unable to the task, and then agreed with Mr. Thomas to serve both the churches which he has continued to do ever since, by serving Hillmarten and Tokenham alternately in the morning and afternoon and Lyneham which lays directly between the other two at about half after one, the hour I used to serve it as being most convenient for the parishioners. But I frequently do occasional duty in both parishes.

As to a terrier of Tokenham I have none, there are some in your Lordship's registry, though none of late date and by what I remember of them not explicit enough to be of any great use to the rector and I fear it is impossible to return a new one as my parishioners and myself could never agree on one. For in the year 1699 the owners of the lands thought proper to make an inclosure of the fields, which before were corn, without Act of Parliament, without faculty, and contrary to the consent of the then rector, took possession of the rector's lands in the common fields, and gave him what they thought proper in lieu thereof. The fields were soon laid down in grass and they pleaded a modus of 4d. a cow. So that the living by this means was very considerably reduced. Before the inclosure it was worth £160 per annum. when I came to it in 1744 it was let at £85, viz. glebe £40 and tithes £45. I made some little alteration in my tithes and so continued till about 12 years ago. I then considering the nature of the modus was determined to try its validity and gave notice to the tenants that I would take my tithes in kind. They applied to their landlord who lived in the parish and was possessed of full two-thirds of my little parish but he would not stand the contest, the tenants therefore agreed with me at an advance in tithes of about £20 per annum. This will explain to your Lordship why I think it impossible to make a new terrier as I will never consent to the validity of the inclosure, and the owners and occupiers of the lands will never do it without.
I have a copy of the terrier of the parish of Lyneham which was delivered in January 1704 from your Lordship's registry, which says the rights of the minister are founded by a decree of Chancery in Charles II's reign and are a salary of £13 per annum payable at Michaelmas by different sums from six different impropriators, the vicarage house, churchyard, and Easter offerings. And this is all the minister now receives or has received for 40 years past, the time I first did my duty there, though the rents of the parish are nearly £3,000 a year, and it contains about eight hundred souls. I am your Lordship's most obedient and very humble servant,

Algernon Frampton, rector of Tokenham and minister of Lyneham.

1. Divine service is performed twice every Lord's day and a sermon preached every morning of it. The hours eleven and three, sometimes sooner or later according to the season of the year.

2. Of custom no such thing hath been done, but preceding and subsequent to the great festivals I have done it.

3. As incumbent.

4. I do not.

5. Four times every year, Christmas, Easter, Whitsunday, and the first Sunday after Michaelmas.

6. This parish is but very small as to number of inhabitants and (excepting a distant small tithing of it which is very near to a neighbouring parish where they usually go to worship) contains but 42 dwellings or nearly so. They are regular people at communion and the number seldom varies very much; last Easter near 50 communicated.

8. [a] Not any. [b, c, d] There is a small house which I am informed is licensed from the bishop's court at Sarum where a few meet to worship. They have no one appointed teacher but sometimes one person sometimes another comes once a week, whether licensed or not I do not know. They call themselves Methodists, appear to me to be peaceable well-disposed people, but few in number and near the same number as usual.

9. The parishioners, I flatter myself, teach their children their catechism and I have reason to think are in general careful in that respect. I take occasion sometimes after evening service in the summer months to expound to them myself.

10. There is a register book of births and burials kept. How far due returns have been made by the officers heretofore I do not know, but have directed the churchwardens to make regular returns yearly at the visitation to the registrar.

11. There is.

15. The churchwardens are chosen every year on Easter Monday, one by the rector and the other by the parishioners.
16. There is not nor hath there been that I can learn any school founded in my parish.
17. I reside constantly in my parsonage house, occasional visits to my friends and relations only excepted.
18. It is customary in this parish for the communicants to dispose of their own money.
19. I know not of any.
20. I reside in the parsonage house in Tollard and the nearest post town is Shaftesbury. My address is: Tollard to be left at the Cashmore turnpike near Salisbury.

16. There is no public or charity school in my parish.
17. I do constantly reside upon this cure and in the house belonging to it.
18. There is no money given at the offertory; the inhabitants of the parish are farmers at rack-rent.
19. I know of no other matter relating to my parish worthy of your Lordship's information.
20. Sutton Veny is the place of my residence, and Heytesbury is the nearest post town.

My deacon's orders are dated 18 Dec. 1774. My priest's orders are dated 22 Dec. 1776. Instituted to the rectory of Sutton Veny 12 April 1780.

5. Five times, viz. on Christmas day, the Sunday before Lent, on Easter Sunday, on Whitsunday, and on the Sunday nearest to the 29 September.
6. Generally between twenty and thirty.
7. I neither know nor have heard of any papist in the parish and believe there are none.
8. Nor is there, that I can find out, a dissenter of any denomination in the parish.
9. Very seldom, although I have not failed frequently to remind them of their duty in this respect and have offered them every assistance in my power.
10. There is a register book of births and burials as far back as 1584; but the entries of both are so imperfectly made, except for these last fifteen years, that I much doubt whether they could be admitted as evidence in any court.
11. There is one, and duly kept as the statute directs.
12. Not any.
13. It does not appear there ever was one in this place.
14. Not any.3

1. Divine service is performed twice every Lord's day, both prayers and preaching in the forenoon at half an hour after ten, and in the afternoon at three o'clock at church.
2. Divine service is performed at the chapel, standing in the middle of the town, on Wednesday and Friday and all holidays during the week.
3. As curate.
4. I serve no other cure but Warminster. I have no licence for the cure I serve.
5. The holy sacrament is administered on Christmas day, Easter, and Whitsunday, and usually the first Sunday in every month, at the church.
6. According to my observation, I cannot say particularly, from forty to sixty. I imagine nearly the latter number at Easter last; about as many as usual.
7. There is one papist, an apothecary. There have no persons I know of been converted to popery. The rest of these questions are answered in the negative.
8. There are two meeting-houses, one for Presbyterians, the other for Independents. There are some few Anabaptists, but I know not how many. One or two Quakers. There are no other places made use of for divine worship, except the two above-mentioned, by any sect. The names of their teachers are Fry and Andrews. Whether their number is increased I am not able to certify, as I have been but five months in the parish. I have heard they rather decrease. I know of and hope there are none of my parishioners who disregard religion or absent themselves from the worship of God. Whether the teachers of the Presbyterians and Independents are duly licensed I cannot say.
9. The children come themselves, and are catechized during Lent, according to the custom of the parish, in English. I have as yet made use of no exposition, as I have not been through this service.
10. The two first questions are answered in the affirmative. Our register goes back as far as the year 1556.
11. Yes.
12. We have no chapel of ease, neither any ruined chapel.

5 Vicar, Millington Massey. Also vicar of Kingston Deverill, for which there is no return: Clergy Books, 1783. St. John's Coll. Cambridge 1755. Chaplain to Lord Weymouth. Answers 13 and 15, in a different hand from the rest of the return, are perhaps in his handwriting.
6 Nathaniel Andrews was minister of the Old or Presbyterian meeting; Fry presumably of the Independents: V.C.H. Wilts. viii. 125-6.
7 The former chantry chapel of St. Lawrence was used as a chapel of ease: V.C.H. Wilts. viii. 117.
13. [In a different hand:] There is no terrier, but a perfect one will be made by commissioners as soon as the award is made.

14. There is a free school founded by the first Lord Weymouth but no alms-house, hospital, or other charitable endowment. There are no governors nor trustees. The present Lord Weymouth has the sole disposal of it. The school [and church both are, crossed out] is supported with respect to their endowments from an estate at Weobly.

15. [In the same hand as 13:] The churchwardens are chosen every year in the Easter week, one by the minister, the other by the parishioners.

16. There is no such school, nor charitable endowment.

17. I constantly reside upon this curacy, but not in the house belonging to it, as the vicar lives there himself. I board in the town.

18. It is disposed of by the minister and churchwardens at Christmas for the relief of poor, industrious housekeepers.

19. I know of none.

20. I reside at Warminster, a post town.

[Letter on a separate sheet, but bound up with the answers:]

To the Right Rev. Father in God the lord bishop of Salisbury.

West-Dean 5 Aug. 1783.

My Lord,

Being desirous of giving your Lordship every satisfaction in my power, and in the best manner that I can, I beg leave to take this method of observing, after having stated the dates of my deacon's orders to be 6 June 1775, priest's orders to be 2 June 1776, institution 28 April 1779, that I cannot boast of having taken any degree, nor can I pretend to have had the advantage of a university education; but under the patronage of Bishop Keene, the late bishop of Ely, who ordained me and who presented me soon after to the master of St. Peter's College Cambridge, I was admitted of that college in July 1775, in order that, when my name shall have stood ten years on the books, I might be entitled, without any obligation of residence, to proceed to take a bachelor's degree in divinity. I am sorry that it is not in my power at this time to deliver in the terrier. The living is at present under an actual survey, there is a modus in dispute, and till that be settled, the terrier cannot be ascertained. I have the honour to be, my Lord, your Lordship's most dutiful and most humble servant.

213 WHADDON f.1778
D. Potterne
1. Divine service is performed once a day, viz. at eleven o'clock in the morning during the summer, and at two in the afternoon in the winter season. It has not been usual to have service twice every Lord's day, on account, I suppose, of the small number of inhabitants. There are only eight houses in the parish.

This has been the accustomed duty.

2. Divine service is performed in the church on holidays and festivals that happen on weekdays.

8. There are a great many Presbyterians and a few Quakers. There is a Presbyterian meeting. There is also a Methodist meeting of which sect there are a great number. there are none who openly profess to disregard religion, or absent themselves from all public worship of God.

9. The parishioners do not send their children or servants to be catechized. There are children from the free school who come in Lent, and they are catechized in the English language.

10. There is a register book of births and burials duly kept in good preservation and I believe returns are made of births and burials into the registrar's office. The register of births and burials goes as far back as the year 1578.

11. There is a register book duly kept, according to the directions of the Act of Parliament against clandestine marriages.

12. There are no chapels of ease in the parish.

13. As curate I am totally unacquainted with the terrier and tithes, nor can I give your Lordship any account of the living.

14. There is a free school in the parish for twenty boys; the founders were Walter Dyer and Richard Uphill. The governors or trustees are the mayor and corporation. The revenues about £100 per annum. They are carefully preserved and employed as they ought to be. The statutes and orders are well observed. I don't know of any lands or tenements left for the repairs of the church.

15. The churchwardens are chosen every year in the Easter week. One is chosen by the rector, the other by the parishioners.

16. There is a free school which is a charity school for twenty boys. It is supported by a settled endowment. The children are taught reading, writing, and arithmetic. There is great care taken to instruct them in the principles of the Christian religion, and to bring them regularly to church. They have a new coat, waistcoat, breeches, stockings and shoes, and a hat every year at Easter. When they leave school they have £5 to apprentice them. The school flourishes.

218 WINKFIELD [Wingfield] f.1818

D. Potterne

1. Divine service is performed in Winkfield church once every Lord's day, either in the morning or afternoon (at the usual hours of ten and three) alternately as has been the custom time immemorial, nor would it be practicable in so small a parish to assemble a competent number of inhabitants both parts of the day. The parish contains 35 houses and these widely dispersed.

2. Divine service is performed on Christmas day and Good Friday.
3. As incumbent.
4. The curacy of North Bradley, distant about two miles.
5. Four times, on the three great festivals and on some Lord's day about Michaelmas.
6. The number of communicants is usually about twenty. It was so last Easter.
7. There is no reputed papist etc. in my parish.
8. One of the churchwardens (William Couch, chosen by the parishioners) and his family are reputed dissenters. But it is not known that they attend any place of divine worship. The wife of the other churchwarden (John Rose) is reputed a dissenter but she regularly attends the public worship at church and has of late received the holy sacrament there according to the form by the Church prescribed. The number of persons who disregard religion and commonly absent themselves from all public worship of God bears too large a proportion to the whole parish. We have no separate meeting of any description.
9. It is not practicable in the present state of ignorance and irreligion to prevail upon parishioners to send their children and servants to be catechized and instructed by their minister, nor will those children or servants (very few excepted) who are of an age capable of receiving instruction attend their minister for that purpose. Attempts have been made to this end but without success.
10. The register book is duly kept and in good preservation. The register of births and marriages commences in the year 1654 and proceeds with great regularity from that time. That for burials commences in the year 1744. Returns are duly made as the canon requires.
11. The register book of marriages is kept as the Act of Parliament requires.
12. No chapel of ease in the parish of Winkfield.
13. I have a terrier handed down to me from my predecessors which I take to be a copy of one laid up in the bishop's registry. But I have not yet been able to obtain any certain information on that head. The transcript I have contains an account of the glebe lands belonging to the rectory of Winkfield.
14. No free school, alms-houses, etc. in the parish of Winkfield.?
15. The churchwardens are chosen every year in Easter week, one by the minister and the other by the parishioners.
16. There is no public school in the parish of Winkfield.
17. I reside constantly upon my cure, but not in the parsonage house, the same being (though in good repair) much too small and incommodious for the accommodation of my family; nor has it been the residence of an incumbent for sixty years last past.
18. The money given at the offertory is disposed of by the rector towards teaching 4 or 5 poor children to read and instructing them in the catechism.

? Several charitable bequests are mentioned in V.C.H. Wilts. vii. 76.
20. The nearest post towns are Bradford and Trowbridge, distant each of them about 2 miles from Winkfield.

222 WINTERBOURNE MONKTON f.1852 D. Avebury
1. The answer to this question the same as that which respects the performance of divine service in the church of Avebury to which it is united, viz. once every Lord's day alternately with the other united church.
2. Prayers on weekdays after the three principal festivals, as also on some other holidays.
3. I perform divine service as incumbent of this and the other united church of Avebury.
4. I serve no other church but the united church of Avebury above mentioned.
5. The holy sacrament is administered in this church 4 times in the year, viz. Christmas, Easter, Whitsuntide, or the Sunday next after those festivals, according to the alternate service with Avebury happens, as also on the nearest Sunday to the feast of St. Michael, either before or after.
6. This parish being very small, and the number of inhabitants few, the number of communicants is consequently few, not often exceeding ten, which was nearly the number at Easter last, and has been nearly the same for some years past; though I am sorry to say that there ought to be many more, who are deterred from communicating under a notion that they thereby bind themselves to lead a better and more Christian life than they are otherwise obliged to do, under a heavier and more severe punishment hereafter.
7. There are no reputed papists in this parish, none lately perverted to popery, no place where papists assemble for divine worship, no popish priest, no popish school in this parish.
8. There are no Presbyterians, Independents, Anabaptists, Quakers, or any other sectarists in this parish, none who profess to disregard religion, yet too many who absent themselves from the public worship of God under a pretence that they have no clothes in which they can appear with decency or that they have trifling avocations, which are far from being justifiable.
9. There being no school in this parish, and the number of children so few—as they are at the same time so poor, so badly clothed, and obliged to work for their bread so young—I have not been able of late to cause any of them to come before me for instruction, but hope soon to put some of them under the care of the schoolmaster at Avebury.

4 Alias Winterbourne Gunner.
5 Perhaps Trinity Coll. Oxford 1754.
10. A register book of births and burials is regularly kept, and returns duly made at the visitation, but the copy not always signed as it ought to be; to guard against which inattention in churchwardens the bishop's register should reject them unless properly authenticated, though I conceive that churchwardens in general entertain a notion that such copies never reach the registry.

11. A register book according to the directions of the Act of Parliament against clandestine marriages is duly kept.

12. There are no chapels of ease in this parish.

13. As one churchwarden only was chosen by me in this parish, and as he died in his office, no terrier of house, land, etc. belonging to me as minister of this parish can be at this time exhibited, but will be transmitted to your Lordship's registry as soon as the same can be properly authenticated.

14. There is no free school, no almshouse, no hospital, or any other endowment of that sort in this parish; no lands or tenements left for the repair of the church or any other pious use.

15. One churchwarden only was chosen in this parish last year, by the minister, who dying in the year, the office devolved on his successor in the principal farm, the rest of the owners and occupiers thinking themselves so far beneath him that they presume not to act with him; his word being in all points a law, must alone take the oath at the ensuing visitation.

16. There is no public school or charity school of any sort in this parish.

17. I have, by the indulgence of my diocesans (which indulgence I now humbly pray for a continuance of from your Lordship), resided for some years past in the town of Calne, distant 7 measured miles from Avebury, for the reasons given your Lordship in answer to your Lordship's queries respecting my residence there.

18. The money given at the offertory, the greatest part of which must come out of the poor incumbent's pocket, disposed of by me to the aged poor and needy, particular regard being had to those who frequent the communion, not absolutely excluding the sick, at the same time, who appear to be in great distress though perhaps they may not have been communicants, especially if they are disposed to become such during their illness.

19. If any other matter relating to this parish should hereafter occur, of which it may be proper to give your Lordship information, the opportunity and encouragement intimated to me in this quere, of communicating the same to your Lordship from time to time, and in due time, will be thought an honour by, my Lord, your Lordship's most dutiful and most faithful servant, James Mayo, vicar of the united churches of Winterbourne Monckton and Avebury.

D. Amesbury  
1. Twice, viz. at eleven in the forenoon and at ½ past two in the afternoon.  
2. On Good Friday only, when a few poor people attend to share among them 4 shillings' worth of bread, which was bequeathed for the sacrament that day.  
3. As incumbent.  
4. I serve no other cure.  
5. Five times, viz. on Christmas day, Good Friday, Easter day, Whitsunday (if it be not the monthly meeting of the parish, and in that case the H.S. is deferred to Trinity Sunday), and on some Sunday near about Michaelmas.  
6. [a] From twenty to thirty. [b] Six or seven and twenty.  
7. No.  
8. [a] There is one family of Anabaptists. But the young folks of it come to church. I have no other dissenters, and no meeting-house. [e, f] Upon the whole my church is very well attended; and it has been observed by strangers that no congregation ever behaved with greater decency.  
9. There is a bequest of 6s. 8d. to the clerk yearly for teaching the children their catechism and of 5s. for him to divide among those who come to learn. This has made the parishioners less attentive to this duty. There are however a good many children attend. I hear them myself. I have formerly read lectures of my own compiling, but I have used Archbishop Secker's ever since they have been published. Sometimes I have used them as lectures, and sometimes preached them as sermons. Our season for catechizing is some weeks in the summer months.  
10. [a, b] I have been always very attentive to my register book. I believe the returns have always been regularly made. [c] To the year 1598.

7 Vicar, Neville Wells. See West Grimstead, 94, of which he was rector.  
8 No signature. Curate, Thomas Grove. See Orcheston St. George, 154, of which he was rector.
11. Yes.
12. No.
13. I have the copy of a terrier dated 27 Dec. 1677 from the bishop's registry. There hath been no augmentation (properly so called) of the living since, but it has been much improved as to the glebe, and is still improving at my expense. I hope it will be completed within these 12 months. As soon as it is I shall be happy to deliver in a new terrier, if it can be done without subjecting me to disputes with the parish.
14. Our charities etc. are, 50s. a year issuing from an estate (of which as rector of W. I have the letting) at Alderbury given in 1715 by the then rector for the following purposes, to the clerk 6s. 8d. for catechizing the children, 5s. for him to divide among the children, and 3s. 4d. for him to buy bread on Good Friday, and £1 15s. for the rector to divide among the widows and fatherless. 8d. per annum is paid out of an estate, to be added to the 3s. 4d. I have in my hands £100 at 5 per cent, which £5 the overseers dispose of as they think fit. In 1724 £20 per annum was left to be divided between a poor man and a poor woman of Middle Winterslow. The lord of the manor of West Winterslow and St. John's Oxford are trustees for the estates: and the president of that college etc. with the rector of Winterslow appoint the man and woman. There is land to the yearly value of £8 in the parish. It was allotted to the poor in lieu of common. They receive the rent, divide it among them, and of course no one is the better for it, for it does not amount to 1s. 6d. to a family.
15. Yes.
16. There is no foundation school. There is a decent man gets a small livelihood by teaching to read and write.
17. I think myself justified in saying constantly. I have been rector 16 years. I had no house. I bought one (the nearest to the church) where I spent most of my time. I built a new house. I have lived in it these 8 years. I have never been absent more than a month at a time, and that was but once, and for the benefit of sea bathing. I have business which calls me to London sometimes, but I am seldom absent a fortnight together.
18. There is no money ever given at the offertory.
19. I do not recollect any.
20. Winterslow. Salisbury on the west and Andover on the east.
   I was ord. D. at Oxford, by the bishop of that see on 18 Jan. 1767. The bishop of Salisbury gave me priest's orders on the 21 June following, and instituted me to the living the 22, and I was inducted the 24.

12. No chapel of ease.
13. There is a true and perfect terrier and a duplicate thereof laid up in the bishop's registry. No augmentation since.
14. There is a free school for twenty boys and twenty girls. Sir Richard Howe was the founder, but I do not know that there are any governors or trustees. Lord Chedworth\(^2\) presides over it. There is an alms-house for four persons and a tender. There is two or three estates left for the support of it, amounting yearly to about £37. Lord Chedworth at present is the only trustee and nominates persons to the alms-house. Sir Richard Grobham of Great Wishford was the founder in 1628 and his will is in the Pregogative Court of Canterbury. [Continues at the top of the next page and down the left hand margin:] The alms-house is properly filled, and Lord Chedworth appoints to it as heir to the manor of Great Wishford. But it may be proper to remark that there were six or more trustees and was the manor to be sold at any time and improper people put into the alms-house, it might be worth enquiry whether more trustees ought not to be appointed. Unfortunately there is in Sir Grobham's will no rules laid down for the appointment of persons to the alms-house. [Continues in left hand margin of previous page:] There was a charitable endowment left by Mr. Daniel Hand about the year 1735 for placing out boys. The revenue about £12 per annum. For the proper disposal of this charity we have his will, and the revenue is employed as it ought to be. [Continues in the left hand margin of next page:] There is also land, called Midsummer, and £10 per annum paid out of an estate at Stapleford for the repairs of the church. There is in hand £80.
15. Churchwardens are chosen every year, one by the minister, the other by the parishioners.
16. The children are instructed in the principles of the Christian religion.
17. Constantly resident.

John Howe, the first baronet (created 1660) was the son of John Howe and Jane, sister of Sir Richard Grubham of Wishford, who died c. 1675: *Complete Peerage*; and G.E.C. *Baronetage*, iii. 123.

7. A popish family, four in number, live in this parish on an estate of near £100 per annum. I do not know that they use any endeavours to make converts. They have no chapel unless within their own house. No popish priest resides within this parish. A Mr. Smith who lives with a Mr. Arundel near Chippenham, Wilts., visits occasionally the said family. No popish school is kept in my parish.
8. [a-d] There are no persons in my parish who profess themselves Presbyterians, Independents, Anabaptists, or Quakers. A Rev. Mr. Hill has some years since built a meeting-house here, where he and some others, have done duty in their way; the followers are few. I have been lately told that the meeting-house is to be let for a cottage, the preachers' attendance having been discontinued for some time. [e, f] Yes. The body corporate seldom come to church unless to qualify themselves for their respective offices in the corporation. The present mayor indeed is an exception to their general behaviour. He and 3 or 4 others are not ashamed to be seen at church and behave with decency suitable to their station.

2. I perform divine service on weekdays on the day immediately following the great festivals and on fast days only, and always to a very small congregation.

3. As rector.

7. There is not a reputed papist in my parish.

8. Or dissenter. There are a few persons amongst the poorest sort who very seldom come to church. The reason they commonly allege is the want of decent apparel.

9. No children ever catechized before I came to reside. I generally catechize in Lent when a few children only attend and those by encouragement from me. I have not hitherto made use of any exposition but intend to do it in future.

10. There is a register book in vellum where I enter births and burials but I have made no returns of them into the registrar’s office nor has the custom been observed for many years, but I purpose doing in future.

11. There is a register book duly kept, according to the directions of the Act of Parliament against clandestine marriages.

12. There is no chapel of ease in my parish.

13. I have at present no terrier of the lands etc. belonging to the rectory but I will endeavour to get one made with all convenient speed and will remit a copy to the registry according to the directions. No augmentation hath been made of the living except a pension of £20 per annum for my life only from Brasenose College.

14. There is no free school, alms-house, hospital, or charitable endowment except £10 for apprenticing of boys belonging to this and several other manors which were left by Sarah, duchess of Somerset, for charitable uses. She was foundress of Froxfield alms-house for fifty widows. She likewise endowed Brasen-nose College Oxford and St. John’s Cambridge with scholarships and left the rectory of Wootton Rivers to be presented to alternately by those colleges to one of her scholars.\(^6\)

It is divided into two districts each of which takes care of its own poor. Those belonging to the north district generally to the Marlborough churches, and those of the south to Wootton Rivers.

17. I was presented to my living in the year 1768, came to reside in 1770, have not been absent from it for a fortnight together ever since except once for a month on a visit to my relations, and reside in the parsonage house.

D. Wylye

1. Prayers in the morning at ½ an hour after ten, and in afternoon prayers and sermon at 3 o’clock and at ½ an hour after 2 for three or four months when the days are short.
2. On Wednesdays and Fridays and on all holidays and on some twice with the addition of an homily.
3. As curate. 9
4. No. I have a licence from Bishop Gilbert to Tidworth. 1
5. Six times, at the beginning of Lent, Easter, Whitsuntide, first Sunday in August, Michaelmas, and Christmas.
6. Too, too variable. At Easter last, somewhat more than 40; at Whitsuntide more than 50. I have had near or quite 60.
7. I know of none such.
8. [a] I know of none such. [e, f] Many by no means regard religion as they ought, nor come to church by any means as they ought.
9. Tolerably, but room for amendment, I suppose. I did for years expound Lewis’s catechism, and some of the children learnt it, till my health forced me to leave it off. And I have in my time twice preached a course of sermons on the catechism. [c] In English, every Wednesdays and Fridays and holidays in general, when any number of children to say the catechism, but I was forced some time back on account of my health to omit catechizing on Sundays, but have lately revived it and hope under God to keep on with it.
10. [b] I believe I never omitted giving or tendering one every year to a churchwarden for the almost three and twenty years last past. [c] To 1653.
11. Yes.
12. [a] None at all. [f] None.
13. This belongs, I apprehend, to the rector; but I have been aiding herein with the minister’s churchwarden, Christopher Fricker, since I received your Lordship’s queries.
14. There is but one charitable endowment in this parish and is as follows: Mr. Willoughby left £8 a year payable by the mayor and corporation of Marlborough, £6 equally to two aged persons, £1 to the minister for a yearly sermon etc., and 10s. to the churchwardens and the same to the clerk. The deed of gift is kept by me with the book respecting the payments and elections. Upon the decay of the old one there has been a new frame hung up in the church setting forth the heads of the charity. And all things with respect to it have been regularly performed during my care of the parish except that I find a difficulty to make the poor wear the badge on their [continues down the left hand margin] sleeve, as ordered, though I often reprove them for not doing it,

1 Presumably he was curate of North Tidworth, 197, before Henry White, who became curate there in 1760, the date when Eyre became curate of Wylye: see below, query 17.
and tell them that they are liable according to the deed to lose the gift by not wearing it, and I have had a thought sometimes of depriving them of it and electing others to receive it; but as the gift is so small that they who enjoy it would have as much from the parish, if they had not that, perhaps there would be nothing got by so doing; the new elected ones would perhaps be as negligent in wearing it as the old ones.

15. Yes, one by the minister, the other by the parishioners.
16. None at all.
17. Yes, never absent, only one Sunday in almost three and twenty years.
18. By myself and according to the present needs and wants of the poor, observing in general a rotation.
19. [On a separate piece of paper:] The mother of James Hinwood and Mary Perrot had two mothers and one father, unless, as is said, Mary was by another man. I should not, I am well persuaded, have ventured to marry them had the report reached me time enough, as the certainty of the report is very difficult to come at, if possible to be obtained. I endeavoured to convince James and Mary that they ought not to marry and absolutely refused to do it. They got a licence and were married at Pertwood about 7 or 8 miles off. James, as I hear at least, to prevent my putting him into the court, got somebody else to do it. I tried to have them punished, but difficulties and the report, lest I should hurt the guiltless, stopped me hitherto and they now live together and have two children. There wants more care in granting licences. I have 2 instances in my parish. The soul-hurting printing, publishing, and vending the Salisbury Journal on Sundays to the profanation of the Lord's day even in my parish and sundry others calls for exertion of authority; I have tried to get evidence against the deliverer in my parish.
20. Wylye near Heitsbury.

The terrier, my Lord, is not quite finished but I will endeavour to have it delivered to your register in a little time.

232 YATTON KEYNELL [Yatton Kemmell] f.1938 D. Malmesbury
1. There are prayers one part of the day, and prayers and sermon the other, in my church, alternately. The morning service beginning at 10½, the afternoon at 2½.
2. On Christmas day and Good Friday, the same service as on Sundays; prayers on Ash Wednesday, and on Monday and Tuesday in Easter and Whitsun weeks. On these latter occasions I have had so few as 2 this year.
3. As incumbent.
4. I read prayers on saints' days, and perform the surplice duty on weekdays for Dr. Scrope at Castle Combe (not 2 miles from me). In his illness or occasional absence, I serve his church on Sundays.
5. Seven times, viz. Christmas day, on one of the introductory Sundays to Lent, Easter day, Whitsunday, and 3 of the Sundays after Trinity, at equal distances.
6. About 12. Last Easter there happened to be but 8. One of the number is since dead, and one is bed-ridden.
7. [a] There are none. [b] No.
8. I know of no regular dissenters in my parish of any denomination, though too many absenters from the public worship of God; and some may at times visit the meeting-house at Castle-Combe.
9. The children are sent, but not the servants. Of late I have given extempore explanations of my own. I catechize between Easter and Michaelmas, in the afternoons, when there is no sermon nor any extraordinary duty.
10. [a] Yes. [b] Yes. [c] There is one that commences Oct. 1653 and ends March 1742, from which time that in present use goes on.
11. Yes.
12. [a] No. [f] No.
13. I have only one, dated in the year 1704, not signed by the minister. There is a person in the parish that has 2 others by him, who refuses me a sight of them, pretending that one of them was made by the minister and signed by his particular friends and as to occasion a lawsuit with the parish, in which he was cast, but that what I have is the truest. The truth of which I somewhat doubt.

5 Perhaps Brasenose Coll. Oxford 1763. See also 54.
15. Yes, one by the minister and the other by the parishioners.
16. There is only a dame's school for children to learn to read.
17. Yes.
18. By myself, towards paying for poor people's children learning to read. What is wanting more in that way I make up myself.
19. Not that I know of.

233 STRATFORD TONY7 f.1946 D. Chalke

1. Divine service is performed, both preaching and praying, at half past ten in the morning, and prayers again at two in the afternoon.
2. On none except the great festivals.
3. As rector.
4. None.
5. On each great festival.
6. Very few, but I hope their numbers will increase.
7. No dissenters of any kind that I know of.
8. Ditto.
9. I am sorry to find that it has not been the custom, but shall pay particular attention to it.
10. Yes.
11. There is a register book of marriages.
12. None of any kind.
13. No terrier has yet been delivered in to me.
14. None, of any kind.
15. Yes, one by the minister, the other by the parish.
16. No school or any charitable endowment.
17. I reside constantly in the parsonage house.
18. [Blank]
19. None that I know of.

7 This return is loose at the end of the volume and has no address on the last page. As the rector was not instituted until 23 Oct. 1783, it was evidently sent in late. See Poulshot, 160, also loose.
INDEX

References other than those preceded by ‘p.’ are to the parish numbers. A reference under a parish name to the return for that parish is given in bold type. Places other than major towns may be presumed to be in Wiltshire unless otherwise identified. Variant forms of place-names are indexed only where it helps the reader to find the right entry. The names of Oxford and Cambridge colleges in the footnotes are not indexed. Apart from bishops, peers, Roman Catholic priests, and nonconformist preachers, people are identified, by office, rank, or occupation, only (a) when their forenames or initials are unknown, or (b) when there are two people of the same surname and forename.
